

## BRYAN'S MISSION SEEMS FAILURE

California Legislators Favor an Alien Land Law.

SENDS MESSAGE TO WILSON

Secretary of State Telegraphs President Regarding Results of His Interview and Is Awaiting a Reply Before Again Confering With Californians—Governor Johnson Defends Right of State in the Premises.

Sacramento, Cal., April 29.—Conferees between Secretary of State Bryan and Governor Johnson and the members of the California legislature over proposed anti-alien land laws ended with the conferees adjourned to await replies to messages sent to Washington by Mr. Bryan.

The impression prevailed here, when the conference adjourned, that the resolve of the majority leaders, previously announced, to enact a bill specifically debaring aliens ineligible to citizenship from owning land in California remained unchanged, although Mr. Bryan, as the personal representative of President Wilson, advised strongly against such action.

Governor Johnson, in a brief, intense address to the conference, declared California's right to follow the lead of other states in framing the land bill was unquestioned and said such action now seemed assured.

"I have presented the president's views as I understand them," declared Mr. Bryan to the conference just before it adjourned. "I shall submit to him the further questions you have asked me, calling attention to the statutes of Washington and Arizona, and I shall give you his answer."

Questions Puzzle Bryan.

Question after question was hurled at Secretary Bryan, who admitted his inability to answer many of them. Toward the close of the meeting he arose and said:

"I have said all that I came to say. I have answered all of the questions that have been asked and my mission here is ended, whenever you may feel that you have conferred as much as you like with the representative of the president."

"I came with no program, simply to confer. I have communicated to him several propositions, after listening to what you have had to say."

Much of the debate hinged upon whether California should be questioned in passing a law similar to those previously enacted by the legislatures of Washington and Arizona, in which states aliens ineligible to citizenship are barred.

Senator Boynton called attention to the wording of the Arizona law, asking Secretary Bryan what would be the effect upon the national government if California placed a similar restriction upon her land.

"I am not prepared to answer that question," replied Secretary Bryan, "but will have to ask for instructions from Washington."

Governor Johnson then spoke in defense of the position taken by the majority party in California. When Governor Johnson took his seat there was a general feeling that the alien land situation had been settled, regardless of what may be forthcoming from Washington.

Checked on Point of Order.

Senator Caminetti attempted to make a heated attack upon Governor Johnson, whom he criticized for not favoring the land bills two years ago, but was checked on a point of order, and the conference adjourned immediately. It is to meet again at the call of the presiding officers of both houses, whenever Secretary Bryan shall indicate that he has received further information from Washington.

Secretary Bryan refused to give any inkling of his message to any one and even at the conference he spoke only after legislators had explained fully the public demand for alien land legislation that brought about the present situation.

Those who expected Secretary Bryan to expound anew the theory of states' rights were disappointed, as were those who expected predictions of war. Advice in the name of President Wilson was all Mr. Bryan had to offer and the paramount question here is whether such advice will overcome the previously announced determination of the progressive Republican majority to enact an anti-alien land holding law along lines already agreed upon.

Secretary Bryan reaffirmed the state's right to act in a manner it saw fit, but suggested several other courses than the passage of a bill restricting aliens "ineligible to citizenship," basing his reasons on the broad foundation of public policy.

**VIRGINIA MINE STRIKE ENDS**

One-third of Strikers Are Already at Work.

Charleston, W. Va., April 29.—One-third of the striking miners of the Paint and Cabin creek districts returned to work after a year's absence and many others are expected to resume their positions.

The prolonged strike, which has caused much rioting, bloodshed and three proclamations of martial law, is believed to be at an end.

## WOMEN READY TO FIRE ON POLICE

Mrs. Pankhurst's London Home Is Strongly Guarded.

SUFFRAGISTS MAKE THREATS

Three Barricades Are Erected in Residence and Provisions and Ammunition on Hand for Long Siege—Suffragette Declares Police Will Have to Conquer "Gun Women" Before Mrs. Pankhurst Can Be Taken Back to Prison.

London, April 29.—The expiration of the limited license under which Mrs. Emmeline Pankhurst, the militant suffragette leader, was released on April 12 from Holloway jail, where she was serving three years' imprisonment, caused a great crowd to assemble at the house where she has been staying to recover from the effects of her "hunger strike." The people's expectation of seeing her forcibly returned to jail was disappointed, the authorities having in the meantime decided to extend her license owing to her unsatisfactory health.

In the meantime occupants of the house where Mrs. Pankhurst was staying had placed it in a state of siege. It had been stocked with two months' supply of provisions. The members of her family and some militant adherents were quartered on the two upper floors, leaving only the bare furniture on the two floors below, and this was plainly visible through the uncurtained windows. The heavy street door was barricaded, only holders of the password being admitted.

Police Clear the Square.

When Mrs. Pankhurst's female chauffeur started off from the house with Miss Sylvia Pankhurst a hooting crowd tried to rush the car. The private square which the house faces was cleared by a strong force of police and only householders and their friends were allowed to pass the line. When the cohorts of militants arrived from their weekly meeting only a few succeeded in penetrating the cordon and getting to the house.

One of the militants who had been inside the house said afterwards that it would have been necessary for the police to pass three barricades before they could reach Mrs. Pankhurst, who was surrounded with what she described as "our gun women." She continued:

"The only thing we fear is that the water may be cut off. We are provisioned for a siege of a fortnight or longer and the police may meet with a reception which may remind them of Sydney street," the street in White Chapel, where the Houndsditch anarchist murderers held the police and troops at bay for a long period in January, 1911.

**MRS. STEWART SAYS GUILTY**

Society Woman Fined \$250 and Costs for Misuse of Mails.

Milwaukee, April 29.—Mrs. Maude E. Stewart of Antigo, Wis., pleaded guilty to a charge of the misuse of the mails in connection with letters written to Mrs. E. H. Van Ostrand, a prominent Antigo woman, before Federal Judge F. E. Geiger, and was fined \$250 and costs.

Mrs. Van Ostrand caused the arrest of Mrs. Stewart several months ago, alleging attempt to blackmail. According to Mrs. Van Ostrand's assertion the letter demanded that \$1,500 be deposited at a certain place or the writer would expose alleged secrets regarding Mrs. Van Ostrand.

\*\*\*\*\*

**WILL PROTEST TARIFF.**

Des Moines, April 29.—Three members of the official board of the Corn Belt Meat Producers' association left here for Washington, where they will enter protest against the provisions of the tariff bill affecting dressed meats, live stock and agricultural products.

\*\*\*\*\*

**TREAT INMATES INHUMANLY**

Chicago Girl Scrubs Floor on Day Baby Is Born.

Chicago, April 29.—A tragic story of treatment accorded girls about to become mothers at the Beulah home was told to the legislative investigation committee by a sixteen year old girl, who identified herself as "Irene C."

She was fifteen years old when she went to the home to work for her keep, medical attention, and her approaching accouchment.

"I was forced to scrub floors and lift heavy trunks on the day my baby was born," she declared.

## CONGRESSMAN KELLY.

Pennsylvanian Has Bill for Old Age Pension.

## OLD AGE PENSION BILL IN

Provides for All Over Sixty-five Years, According to Age.

Washington, April 29.—The progressive old age pension bill to provide \$1 to \$4 a week for all those more than sixty-five years old, whose incomes are under \$10 a week, was introduced by Representative Kelly of Pennsylvania.

His plan would pension those with incomes of less than \$6 a week at \$4 a week, incomes of from \$6 to \$7 at \$3, between \$7 and \$8 at \$2 a week, and from \$8 to \$9 at \$1 a week.

The bill would disqualify all criminals, lunatics and inmates of almshouses and all men over sixty-five years old who, for any extended period, have failed to earn according to their ability.

## VETO CUTS \$218,000 IN APPROPRIATIONS

Minnesota Governor Strikes Out Seven Items.

St. Paul, April 29.—Governor Eberhart vetoed seven appropriations totaling \$218,000 from the general appropriations bills passed by the legislature in the last week of the session. In a statement supporting his action the governor protests against extravagant appropriations by the legislature and urges more economy in the handling of state funds.

"I do not wish to be understood as unduly criticizing the legislature," says the governor, "but the time has come when the people of the state must study the questions of state government and taxation more closely before we can enter successfully upon a period of retrenchment and economy."

The following items were stricken from the bills:

Criminal insane building for hospital at St. Peter—appropriation available in 1915, \$75,000.

One cottage for the inebriate hospital at Willmar—appropriation available in 1914, \$45,000.

One cell wing for the reformatory in 1915, \$30,000.

Purchase of additional lands for state institutions—available for year ending July 1915, \$10,000.

The special contingent of the state treasurer for interest on temporary loans—available July 31, 1915, \$25,000.

For expenses of the drainage commission in carrying on topographical and hydrographical surveys of the water sheds of the state for the year ending July 31, 1915, only, \$13,000.

For the purpose of buying standing timber and lands in Itasca state park for the year ending July 31, 1915, total, \$20,000.

\*\*\*\*\*

**VERY TINY BABY.**

Mattoon, Ill., April 29.—A baby fully developed and weighing only 7½ ounces, was born to Mr. and Mrs. H. Russell. The child was one of twins born to Mrs. Russell.

The other one died. This child is said by physicians to be the smallest fully developed child that ever lived after birth.

\*\*\*\*\*

**Girl Hurdled Through Window.**

Chicago, April 29.—Perils of straphanging were illustrated here when Miss Elsie Fruga, seventeen years old, lost her hold at a curve on an elevated road and was thrown partly through a window. She was badly cut by broken glass.

**Manitoba Town Scorched.**

Neeche, N. D., April 29.—Eight business houses, six residences and one elevator were destroyed at Gretna, Man., just over the boundary line, by fire. The fire started in the postoffice from some cause not definitely determined. Exact estimates of the losses were unobtainable as Gretna is cut off from wire connection, but it probably will be more than \$200,000.

## CAREERS HINGE ON TARIFF BILL

Its Passage May Bring About Changes in Next House.

MEMBERS APPREHENSIVE.

Some Democrats Believe They Will Forfeit Their Seats by Supporting the Measure, but Most of Them Will Abide by the Decree of the Caucus Rather Than Divide Strength.

By ARTHUR W. DUNN.

Washington, April 29.—[Special.]—The political effect of the new tariff is being discussed with some apprehension on the part of Democratic members of congress. "Enough Democratic members of the house to change its political complexion," said one of the prominent members, "have stated in the caucus that the proposed bill would defeat them for re-election."

While he admitted that their statements might have something of exaggeration in them, he believed that many of them told the truth as they saw it and looked forward to certain defeat when the bill became a law with the aid of their own votes and the majority party in both houses.

Will Take Their Medicine.

But nearly all of these Democrats will stand up and take their medicine, since the caucus has decreed what the bill shall be. They recognize that to defeat the action of the party caucus would leave the party in very bad shape and that the only thing to do is to stand for the bill which a majority has said was Democratic doctrine.

Of course they all hope that there will be no such bad effects as they fear will follow. Many of the leading Democrats say that these men are putting up the claims in hopes that the ways and means committee would alter a few schedules, but that nothing of the kind is in contemplation.

Political Happiness.

Jim Mann and John Fitzgerald had been flinging bits of political patter back and forth, mingling their darts with expressions of high personal regard. The discussion had turned on harmony, about the recent makeup between Clark and Bryan. Mann said a lot of things about the failure of the Democrats to get together. Finally Fitzgerald said that if the Republicans could get the last president and his predecessor to settle their differences the Republicans would be pleased.

"How happy you would be?" he added. "How unhappy you would be?" shouted Mann.

"Not Sending For Anybody."

A group of correspondents were standing about Secretary Tumulty, while he told them about President Wilson's itinerary. Finally one of them discovered a hiatus, a bit of time not provided for. "We may slip over to New York that night and see what is going on—and rest," said the secretary.

"Will the president see any one during the time?" one new man asked.

"See any one?" snuffed Tumulty. "See any one? Do you suppose he can dodge them? But I'll say we're not sending for anybody to fill in the governor's time on this trip."

And Then It Looks Different.

The average new member of congress when asked to furnish certain facts and features of interest for his biographical sketch in the Congressional Directory naturally assumes that it will read like other biographies and as if written by some other person. But 250 Washington newspaper correspondents know that the biographies are written by the men themselves and so treat them when the directory comes out. Naturally gushing self praise and little personal peculiarities are made to appear ridiculous when placed before the public as having been written for a public document by the man himself.

White House Diplomat.

Somehow it has fallen to Tom Brannan, formerly a newspaper man, to answer telephone calls asking for appointments with President Wilson and to meet those who are seeking to occupy some of the president's time. Anybody familiar with Washington knows that every person below a big chief feels that he is doing a great duty, performing a great public service, if he can keep an applicant of any kind from an interview with the man higher up.

Brannan has developed into a wonderful diplomat along these lines. He can inform a female suffragist that every moment of the president's time is engaged for a week and get it across. He can stand off politicians and office seekers. In fact, he has become the White House diplomat.

For the Scrap Heap.

The economy commission which has flourished and given a lot of people soft jobs for two or three years seems destined for the scrap heap. The Democratic members of the house, bent upon economy themselves, did not see how economy was to be fostered by a high salaried commission, which was seemingly bent upon overturning all existing conditions in the government departments. So they dropped it by not making any more appropriations for it. It seems almost miraculous that any commission once established could be discontinued.

**Sure Hard Luck Cure.**

Some people call hard work hard luck, yet it is the surest cure for hard luck.—Deseret News.

## DUCHESS OF CONNAUGHT.

Has Relapse and Another Operation Will Take Place.

## OPERATE AGAIN ON DUCHESS

Wife of Governor General of Canada Has Relapse.

London, April 29.—A bulletin issued by the surgeons in attendance on the Duchess of Connaught, wife of the governor general of Canada, who underwent an operation for intestinal trouble on April 10, states that intestinal obstructions have recurred and another operation is necessary.

## REGARD DECISION AS FARREACHING

Lawyers Display Interest in Railway Opinion.

Washington, April 29.—The decision of the supreme court in holding the Northern Pacific Railway company liable for the debts of the Northern Pacific railroad, contracted before the reorganization of the latter company, lays down the general principle that a creditor of a corporation, not a party to its reorganization, may hold its successor for its debt.

The decision is of momentous importance, especially to railroads.

In this specific case the court, five to four, in a decision which Justice Lurton, who dissented, declared, "was alarming," held the Northern Pacific Railway company responsible for \$125,000 judgment against the Northern Pacific Railroad company, which it succeeded, despite the fact that the court expressly stated that no moral wrongdoing was to be found in the reorganization.

Corporation lawyers who heard the decision declared it was a direct blow at the practice of reorganizing corporations to get rid of onerous contracts or escape payments to unsecured creditors. Its effect, they thought, would be far-reaching.

## WIRELESS STRIKE SPREADS

Operators at Pacific Coast Stations Join Men on Ships.

Seattle, April 29.—The strike of the marine wireless operators declared last week spread to stations ashore and the development brought out a statement by R. H. Sawler, assistant superintendent of the Pacific coast division of the Marconi Wireless Telegraph company, who said the company was considering closing all land stations in this region in order to supply operators for steamers. Commercial business between ships and shore, he said, would be handled by government stations.

Nonunion men are now at the keys at a number of the ships.

English Aviator Killed.

London, April 29.—Lieutenant Roger Harrison of the British army aviation corps was killed while flying at Farnborough. He was attempting descent from a height of 400 feet when the elevator of his biplane collapsed.

Charged With Killing Girl.

Atlanta, Ga., April 29.—J. M. Gantt, formerly bookkeeper for the National Pencil company, was arrested at Marietta, a suburb, charged with the murder of Mary Phagan, whose body was found in the pencil company's factory. Gantt denies all knowledge of the girl's murder.

## WIDOWS WIN COURT VICTORY

Supreme Bench Rules in Favor of Dependents.

Washington, April 29.—Widows and other relatives of deceased bankrupts won a victory in the supreme court, which held that only cash surrender value of insurance policies go to the trustee in bankruptcy for creditors and the remainder to the widows or other relatives of bankrupts.

The decision changes what was held to be the law in New Jersey and Pennsylvania and removes doubt as to the point in all the other states.

## TURMOIL AMONG BALKAN ALLIES

DIES AS HUSBAND FIGHTS

Woman Drops Dead While Spouse Is Resenting Insult to Her.

Kenosha, Wis., April 29.—While her husband grappled in personal combat with a man who had questioned her honor Mrs. Rosa Eble, twenty-seven years old, the wife of Herman Eble, a well known man of Kenosha, dropped dead from heart disease in a corridor on the second floor of the Cream City hotel.

Only a few minutes before her death Mrs. Eble had asked her husband to resent an insult which had been offered to her by Otto Carlson, a man who lived at the hotel near the apartments occupied by the Eble family. Eble went into the corridor, met Carlson and at once started a fight. His wife, holding an infant in her arms, walked into the corridor.

"Don't fight with him, Herman," she shouted, and as she did so she fell to the floor.

## BANKER IS FINED \$10,000

Seattle Man Also Assessed \$3,000 in Costs.

Bellingham, Wash., April 29.—A fine of \$10,000 and costs amounting to approximately \$3,000 was the sentence passed upon Jacob Furth, former chairman-director of the Seattle National bank. Furth was convicted recently on a charge of having aided and abetted the W. E. Schriber bank of La Conner to receive deposits while insolvent.

Furth's counsel entered notice of appeal and filed an appeal bond of \$10,000, immediately procuring the release of the Seattle banker pending the outcome of the case in the higher court.

## FRIEDMANN SIGNS CONTRACT

Company to Establish Institutes to Handle His Serum.

New York, April 29.—It was announced at the apartments of Dr. Friedrich Franz Friedmann that he had signed a contract for the disposition of his tuberculosis vaccine by a company through institutes to be established in every state.

The contract, it is said, provides for the free treatment of the poor in all localities. No details of the financial end of the contract were made public.

## THROWS BOYS OVER BRIDGE

Saying No One Loves Them Mother Then Follows.

Logansport, Ind., April 29.—Mrs. Nellie Paugh, thirty-six years old, threw her two sons, Donald, twelve, and Delbert, six years of age, from a bridge into Deer creek and jumped into the stream.

The mother and the younger boy were drowned, but Donald swam to shore.

Before throwing the boys off the bridge the mother told them she was doing so because no one loved them.

Information Wanted.

"Isolate the patient." "Yes, doctor. Where shall we put the ice?"—Baltimore American.

## GRAIN AND PROVISION PRICE

South St. Paul Live Stock.

South St. Paul, April 29.—Cattle—Steers, \$5.75@8.25; cows and heifers, \$4.50@7.35; calves, \$5.00@8.50; feeders, \$4.30@7.75. Hogs—\$8.30@8.40. Sheep—Lamb, \$4.50@8.25; wethers, \$4.50@8.25; ewes, \$2.25@6.00.

Duluth Wheat and Flax.

St. Paul Hay.

St. Paul, April 29.—Hay—Choice timothy, \$18.50 No. 1 timothy, \$15.00@15.75; No. 1 clover mixed, \$13.00@13.75; No. 1 mixed, \$13.00@13.75; Choice upland, \$14.50; No. 1 upland, \$13.00@13.75; No. 1 timothy, \$8.00@8.75; No. 1 alfalfa, \$16.00@16.75.

Chicago Grain and Provisions.

Chicago, April 29.—Wheat—May, 92½¢; July, 92½¢; Sept., 92¢. Corn—May, 56½¢@55¢; July, 55½¢@55¢; Sept., 56½¢. Oats—May, 34¢; July, 34¢; Sept., 34½¢. Pork—May, \$19.45; July, \$19.50. Butter—Creameries, 27¢@30¢. Eggs—17¢@18¢. Poultry—Chickens and springs, 16½¢.

Chicago Live Stock.

Chicago, April 29.—Cattle—Beeves, \$7.29@9.10; Texas steers, \$6.70@7.75; Western, \$6.00@8.00; stockers and feeders, \$6.10@8.00; cows and heifers, \$3.90@8.20; calves, \$6.50@8.75. Hogs—Light, \$8.50@8.75; mixed, \$8.40@8.70; heavy, \$8.25@8.60; rough, \$8.25@8.40; pigs, \$6.50@8.70. Sheep—Native, \$5.00@7.15; yearlings, \$6.40@7.80; lambs, \$6.50@8.75.

Minneapolis Grain.

Minneapolis, April 29.—Wheat—May, 89½¢; July, 91½¢; Sept., 92½¢. Cash close on track: No. 1 hard, 92½¢; No. 1 Northern, 90½¢@91½¢; to arrive, 90½¢; No. 2 Northern, 88½¢@89½¢; No. 3 Northern, 86½¢@87½¢; No. 3 yellow corn, 55¢@55½¢; No. 4 corn, 52½¢@53¢; No. 3 white oats, 32¼¢@32½¢; to arrive, 32½¢; No. 3 oats, 29¢@31¢; barley, 42¢@58¢; flax, \$1.30½; arrive, \$1.30½.

## New War May Begin When Turkish Conflict Ends.

SOME RUMORS OF FIGHTING

Servia, Bulgaria and Greece Liable to Become Involved in Hostilities. Large Concentrations of Opposing Troops Are in Readiness and One Writer Declares Several Battles Have Already Taken Place.

\*\*\*\*\*

London, April 29.—A Vienna dispatch to the Chronicle says: "News has reached here that Crown Prince Danilo is marching northward with the Montenegrin army in connection with the preparations which are being made to resist an Austrian attack on Cetinje. All the heights dominating the road from Cattaro to Cetinje are being hastily equipped with heavy artillery and strong Montenegrin forces, supported by Servian troops, are taking up positions in the mountains."

\*\*\*\*\*

London, April 29.—The mystery surrounding events in the Balkans is becoming deeper. No further news has been received of Esad Pasha's exploit in Albania and the situation at Saloniki is difficult to understand. A dispatch from Saloniki confirms the report that orders were given for the Bulgars to evacuate all places occupied by the Greeks, but that later these orders were countermanded and that official attempts were made to pretend they were never given.

A Bucharest dispatch to the Daily Telegraph expresses the firm conviction that immediately after peace is signed between the allies and Turkey a new war will commence

GUARANTEED TO STOP  
ITCHING AT ONCE  
Eczema, Rash, Tetter, Dandruff, Disappear by Using Remarkable Zemo  
Buy a 25c Bottle Today and Prove it  
That itching that drives you nearly wild, that keeps you awake in agony all night long, that scalp itching, will vanish instantly by using the new remedy ZEMO. It is guaranteed.  
ZEMO will surprise you as it has thousands of others by its results on fiery eczema, sores, rash, tetter, blotches, inflamed or irritated skin, pimples, rawness after shaving, all skin afflictions, sores, blotches, and itching scalp. It cures dandruff completely, since dandruff is nothing but eczema of the scalp.  
ZEMO is wonderfully refreshing to the skin. It is a clean, antiseptic solution, not a paste, cream or ointment. The first application gives blessed relief. ZEMO has been imitated, but positively never equaled.  
"It is impossible for me to do justice in recommending ZEMO, because words cannot express its wonderful achievements." R. A. Stierlin, Supt. Electrotape Dept., Sanders Engraving Co., St. Louis, Mo.  
ZEMO is sold in 25c sealed bottles and guaranteed in Brainerd by Johnson's Pharmacy.—Advt.

**KANSAS VETERANS PLAN  
A LAST STATE REUNION.**  
Will Meet When Great Memorial Is Dedicated at Topeka.  
The last great state wide reunion of the veterans of the civil war living in Kansas is being planned to be held in Topeka probably in May or June of next year. The occasion will be the dedication of Memorial hall, a magnificent marble structure which the state of Kansas is building at a cost of almost \$500,000 in commemoration of the Union soldiers of 1861 and 1865. The hall will be finished. It is expected, by April or May, 1914. It has been under construction two years, former President Taft having laid the cornerstone a year ago last September.  
"It is the idea," said Commander Harrison, "that all old soldiers in Kansas who are physically able to make the trip attend the reunion next year. If they cannot afford the expense we will find some way to bring them."  
There are probably 21,000 old soldiers now living in Kansas. Death is thinning the ranks rapidly. The average age of old soldiers in the state is seventy-three years. Thousands of them settled in Kansas following the civil war. In the later seventies, about fifteen years after the close of the war, there were 145,000 in the state.  
Pains in the Stomach  
If you continually complain of pains in the stomach, your liver or your kidneys are out of order. Neglect may lead to droopy, kidney trouble, diabetes or Bright's disease. Thousands recommend Electric Bitters as the very best stomach and kidney medicine made. H. T. Alston, of Raleigh, N. C., who suffered with pain in the stomach and back, writes: "My kidneys were deranged and my liver did not work right. I suffered much, but Electric Bitters was recommended and I improved from the first dose. I now feel like a new man." It will improve you, too. Only 50c and \$1.00. Recommended by H. P. Dunn.—Advt. tts  
He Could Sympathize.  
The sentimental city girl was spending a season in the country. So full of sentiment and so imaginative was she that she could hear the trees whisper, the bushes sigh and the plants sing. One day in June she was sitting beneath a cherry tree with several children, one of whom was a ten-year-old boy. Overhead a gentle breeze softly purred through the quivering leaves.  
"Listen!" suddenly exclaimed the young lady. "Can't you hear this poor tree groaning, Johnny?"  
"No; I don't hear it groan," replied Johnny, assuming a listening attitude. "but I know how it feels to be full of green cherries."—New York American.

**WASHOTINT**

Washotint is a perfect, flat, sanitary, washable coating for producing on interior walls and ceilings, soft, beautiful tints that lend an artistic air to the surroundings.

It is becoming more and more the fashion to tint walls in soft flat tones, but in getting this result use Washotint, which will not spot every time water splashes on or touches it, as is the case with cold water or kalsomine paints.

The surface produced with Washotint is non-porous, non-absorbent and hard, and it is both sanitary and cleanly.

## SCHOOL BOARD AWARDS CONTRACT

Contract for Installation of Heating and Ventilating in Harrison School Let to

AN EVELETH BIDDER FOR \$4430

Northern Plumbing & Heating Co. is Successful Over Five Other Contractors

The Brainerd school board, at a special meeting held last night, awarded the contract for the installation of the heating and ventilating plant in the Harrison school to the Northern Plumbing & Heating Co., of Eveleth, which bid \$4430.

The other bidders were L. W. Sherlund and the Slipp-Gruenhagen Co., of Brainerd; George R. Morton of St. Paul, the Tungstead Heating Co. of Minneapolis, William G. Gausewitz of Crosby.

The members of the board were present with the exception of Howard Baker.

## RAISING RADISHES

Rev. E. E. Satterlee Has a Plot of These Succulent Vegetables Now Two Inches High

Crow Wing county soil is the most fertile in the world and the climate is unexcelled. When you combine the two as Crow Wing county does, it is no wonder that assiduous cultivation on the part of Rev. Elbert E. Satterlee, the Methodist minister, has produced radishes, which plants now stand fully two inches high in his garden.

As Rev. Satterlee prepares his sermons, his eyes wander from his study window to the bunch of waving radishes in the back yard and he realizes that there is nothing like a little garden to bring a man face to face with the wonderful evolution which mother Nature fosters in the spring time, and he finds materials for whole sermons in the soil.

## THE BANKERS SPECIAL

Eight Page Edition Accompanies the Daily of Today, Also Part of Weekly Friday

An eight page edition, "The Bankers Special" accompanies the Daily Dispatch of today and will also be a part of the Weekly Dispatch of May 2. The bankers association will take with them several hundred copies and on the whole Brainerd and Crow Wing county will be well advertised. Thanks are due the banks of the city, the business men of Brainerd and the county and the Minnesota & International railway, who through their patronage have made this edition possible.

## CANNOT LOCATE RELATIVES HERE

Chief George A. Ridley has given the Dispatch the following telegram received from Idaho and asks the co-operation of Brainerd people to trace Gust Anderson's relatives, if any reside in Brainerd. Information may be telephoned the Dispatch. The message reads:

Fernwood, Idaho—Man killed here last week, name Gust Anderson, age 32, weight 160 pounds, height five feet ten inches, had light complexion and was by occupation a woodsman. We understand his relatives live in your town. The body is at the undertakers in St. Maries, Idaho and it cannot be held longer than Tuesday. Wire at once if his relatives can be located.

Blakemill Lumber Co.

## McKINLEY MILL TO START SAWING

1,500,000 Feet of Deadheads to be Cut Here Instead of at Minneapolis

GEO. ADCOCK TO RUN THE MILL

L. M. Depue Instrumental in Having the Cutting Done in Brainerd

Geo. Adcock, of Brainerd, has secured from the Parker-Kellogg Lumber company, of Minneapolis, the contract of cutting 1,500,000 feet of deadheads decked above the dam and taken from the water by the Mississippi & Rum River Boom company.

The McKinley mill will be used to saw them up. L. M. Depue, vice president of the Brainerd State bank, was instrumental in getting the contract for Mr. Adcock and having the work done in Brainerd instead of Minneapolis and so employment is given to a crew of 20 men for a month or more and \$20,000 business is handled in Brainerd instead of the Mill City.

## Coughs and Consumption

Coughs and colds, when neglected always lead to serious trouble of the lungs. The wisest thing to do when you have a cold that trouble you is to get a bottle of Dr. King's New Discovery. You will get relief from the first dose, and finally the cough will disappear. O. H. Brown, of Muscadine, Ala., writes: "My wife was down in bed with an obstinate cough, and I honestly believe had it not been for Dr. King's New Discovery, she would not be living today." Known for forty-three years as the best remedy for coughs and colds. Price 50c and \$1.00. Recommended by H. P. Dunn.—Adv. tts

## CONTRIBUTE TO MAKE EAGLE SCREAM

Committees to Canvass the City Tomorrow to Solicit Contributions for the Fourth

MONEY NEEDED TO CELEBRATE

Four Committees Assigned to Various Sections of Brainerd to Raise Money

On Wednesday four committees appointed at the recent meeting called for the proper celebration of the Fourth of July will canvass the town soliciting funds. As B. C. McNamara stated: "The whole matter of the observance of this holiday is up to the citizens. If all contribute, it will enable Brainerd to have a good, old time celebration which will bring crowds of people to town. To make it a success, all must help." The committees are as follows:

To solicit from business houses and banks: A. K. Lukens, Ed. Levant and Alderman-elect George Hess.

To solicit from offices: D. E. Whitney and T. H. Considine.

To solicit from shops: Mr. Brown. To solicit from breweries, barber shops and saloons: E. W. Dunn, Louis Roth and L. H. Stallman.

## Musical Entertainment Thursday

Under the direction of Mrs. Prescott the high school orchestra, which is well known to the public for the excellence of their work along musical lines, will present several numbers of the program to be given at the library hall for the benefit of the Children's Hour. For those who have been unable to attend the Friday afternoon concert given by the orchestra at the different schools of the city, the concert Thursday evening will afford an excellent opportunity to hear the orchestra at their best.

There will also be vocal numbers and readings by other talent of our city. Little Vernon Koop, who is studying under Miss Smalley, will sing a group of songs. The program will appear in full in tomorrow evening's Dispatch.

## MUSIC AND DRAMA

### At the Grand

The three reel feature at the Grand, a Thanhouser subject, is entitled "The Star of Bethlehem." In undertaking to film a biblical subject a producer assumes a serious obligation. He becomes in a measure the trustee of the motion picture art. The Thanhouser company has in the past shown much of that fine skill in details, which is the one certain hall-mark of quality. In their Dickens production they established a new record in the art of filming popular and classic fiction and left every rival far behind.

"The Star of Bethlehem" exemplifies the best in motion photography. The photography is good and the costumes, on the whole, are acceptable. Billy Vernon sings, "Then I'll Stop Loving You." The Grand Trio, Messrs. Vernon, Mraz and McCarthy are heard in selections.

### At the Empress

"Tamandra, the Gypsy Girl," is shown at the Empress theater. A synopsis follows: Walter Clark and Beatrice Irving, cousins, are engaged, but Walter meets the Gypsy Tamandra and they are married. Later she goes back to her tribe and a child is born to her. Ignorant of this fact and believing his wife dead, Walter and Beatrice arrange to be married. The untimely arrival of a message from Tamandra brings the wedding ceremony to an abrupt ending. Walter enters a monastery, Beatrice takes up work in the slums and meets Tamandra. The latter dies and Beatrice assumes the care of the child. While walking one day with the monks, Walter sees Beatrice and his child. A struggle between love and duty ensues, but duty finally conquers, and he goes back with the others to the silent life of the monastery.

### Goedderz-Wilson

Joseph Peter Goedderz of this city, and Miss Essie Ada Wilson, of Motley, were married Tuesday morning at nine o'clock at the parsonage of St. Francis Catholic church, the ceremony being performed by Rev. Father J. J. O'Mahoney in the presence of invited friends and relatives of the contracting parties.

The bride was gown in a blue traveling suit with hat to match and carried a bouquet of roses. She was attended by Miss Lena Goedderz, a sister of the groom, who wore a blue silk gown and carried a bouquet of flowers. The best man was Merle Wilson, of Motley, a brother of the bride.

After the ceremony a wedding dinner was served at the home of Mrs. John Goedderz, mother of the groom. The house was beautifully decorated for the event.

The bride was born and raised in Motley and has a large circle of friends. She has taught school for a number of years. Mr. Goedderz is an employe of the foundry and is well liked by his many associates and friends. They will enjoy a short wedding trip to the northern lakes and will be at home to their friends, Ma 5, at 602 South Tenth street.

On Saturday, May 3, a reception will be given in their honor by Mrs. Goedderz at the above address.

## THIRTY-FIFTH ANNIVERSARY

Mr. and Mrs. John Ernster Celebrate Their 35th Wedding Anniversary This Afternoon

Mr. and Mrs. John Ernster are today celebrating their thirty-fifth wedding anniversary. Thirty-five years ago today they were married in Cherokee, Iowa. All their children are living and are with them today.

They are J. P. Ernster, president of the Brainerd State bank; H. J. Hage, cashier of the First National bank of Deerwood; Sister Claralla, a Benedictine Sister of Minneapolis who has charge of the musical conservatory there; Omer Ernster, attending high school in the city.

The many friends of Mr. and Mrs. Ernster extend their felicitations upon this happy occasion.

## ODD FELLOWS TO CELEBRATE

Ninety-fourth Anniversary will be Observed With Appropriate Program at the

ODD FELLOW HALL, APRIL 30

All Odd Fellows and Rebecas and Their Families are Welcome to the Entertainment

The members of Unity Lodge No. 194, I. O. O. F. and Florence Rebecca Lodge No. 111, will observe the 94th anniversary Wednesday evening, April 30th at I. O. O. F. hall. There will be a short program as follows:

Address ----- G. S. McCulloch  
Reading ----- Mrs. Sorenson  
Solo ----- John Bye  
Recitation ----- Mrs. F. W. Smith  
Violin solo ----- Mr. Witham  
Song ----- Morell and Marvel Anderson  
Recitation ----- Esther Belmont  
After the program Miss Cecil Witham will furnish music for dancing.

Refreshments will be served. All Odd Fellows and Rebecas and families welcome.

## For Burns, Bruises and Sores

The quickest and surest cure for burns, bruises, boils, sores, inflammation and all skin diseases is Bucklen's Arnica Salve. In four days it cured L. H. Hadlin, of Iredell, Tex., of a sore on his ankle which pained him so he could hardly walk. Should be in every house. Only 25c. Recommended by H. P. Dunn—Adv. tts

## "READ THE NEWSPAPERS"

Said Prominent St. Louis Business Man in an Address to Pupils of Central High School

St. Louis Times: The students of the Central high school assembled in the Auditorium Friday afternoon, listened to an address by R. L. Burney, manager of the savings department of the Commonwealth Trust company, on the subject of "Efficiency." He urged students to take advantage of all the splendid helps offered by the high school for a business training and said that if they desired to be office helpers today with the methods of tomorrow, it would be necessary to read the newspapers each day.

"Hardly a day passes but that an announcement is made regarding some new plan or system regarding which you should be posted," he said, "and the only way to keep posted is by reading the newspapers, for, almost without exception, they are the first agencies to make the announcement of any new plan. Hence, for current reading, I would advise that you make it an inflexible rule to carefully read one morning or one evening paper each day. Mind that I say read—not skim over. Read with care, and as you read, digest what you read. It is said that 'Reading maketh a full man.' So does sponge cake—so read for quality not quantity."

"When the newspapers are read in this way, you will be surprised, first at the number of articles which will prove of absorbing interest and benefit to you in your personal life, and, second, at the number of articles applying directly to your chosen line of business. Yet—strange to say—in making up the paper each day, the editor has in mind the entire population and every other line of business represented in the city. As proof of the statement that article will be found pertaining to each business, I have several here on the table dealing with the subject we are considering tonight, which were clipped from the papers the last few days."

"The advertising pages of the news papers will be found equally as absorbing as the other pages—and even more so at times. Hence they should be read with the same thoroughness as all the other pages of the paper. In fact, you will not be able to keep posted, regarding the latest books, forms, machines, devices and office equipment unless you do read the advertising pages."

"There is another reason, a still more cogent one from your standpoint as a student, for reading the advertising pages of the newspapers. The classroom work has brought you to the very threshold of business life. Beyond its portals lies a world filled with positions, and you know you are equipped, qualified and ready to fill one of them. But what magic influence will push open the gates so that you may enter upon your enlarged business career? I'll tell you. It's the daily newspaper, with its long list of classified help wanted adver-

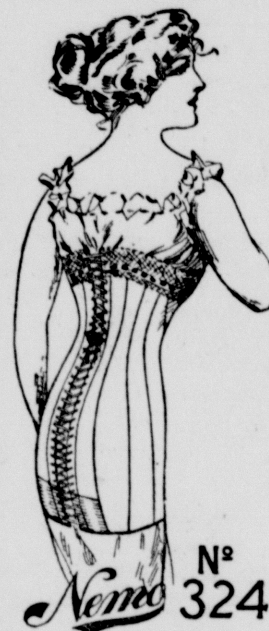

## MOTHERS

## Have you seen them?

We have the prettiest line of children's dresses conceivable for you to embroider. The very desirable feature of them is that the embroidery on them is very simple and that with a little work you can add much beauty to the dress. Ask to see the splendid things we have in embroidery work when you are in the store. This is a much enlarged department and you will appreciate it.

*H. P. Michael Co*

## Lasticurve-Back Self-Reducing Corset \$3.00

The pictures show the new "Lasticurve-Back"—broad gores of elastic which extend far below the back steels and are laced clear down to the end.

The gores are of the new Lastikops Cloth, the latest Nemo elastic fabric, which is guaranteed to retain all of its original elasticity.

When you stand, the very long skirt clings closely, and follows the in-curve of the figure; corset-edge can't show through even a gauzy gown.

When you sit down, the corset-skirt spreads freely—you're comfortable. Two models:

No. 322—with low bust } \$3.00  
No. 324—medium bust— }

Here you have a corset of extreme length that's as easy as an old shoe. The greatest "stout women's" corset ever sold for so little. Fine white coutil, sizes 20 to 36.

## BRAINERD WELCOMES THE BANKERS OF THE SIXTH DISTRICT

### PERTINENT FACTS ABOUT BRAINERD

Brainerd is the County Seat of Crow Wing County, With Ore all Around it

CENTER RICH FARMING COUNTRY

City Has Large Railway Shops—Has General Offices Minnesota & International Railway

For the convenience of the bankers who visited Brainerd on the occasion of the convention of the sixth district group of Minnesota bankers and for the other thousands of readers, a short resume is given of important features which make Brainerd a very good business town and a most desirable city in which to establish a home.

Brainerd is the county seat of Crow Wing county and is a growing, progressive city of 10,000 people.

Brainerd has the main shops of the Northern Pacific railway, employing over 1200 men and having a payroll averaging from \$65,000 to \$82,000 a month.

Brainerd has the general offices of the Minnesota & International railway, the line which taps northern Minnesota.

Brainerd shops and the railways centering here, with other industries contributed to make several \$100,000 monthly paydays in 1912.

Brainerd's pay day in March, 1913, totalled \$100,000 and this flood of money was distributed as follows by these agencies: Northern Pacific railway shops, \$70,000; Northern Pacific tie plant, \$2,500; Northern Pacific railway freight office and yards, \$1,600; Minnesota & International railway, \$12,000; Northwest Paper Co. pulp mill, \$2,000; Parker-Topping foundry, semi-monthly pay day, \$5,000; exploration work and drills tributary to Brainerd, \$5,000; Brainerd Milling company \$200; small industries of city, \$1,700.

Brainerd is the center for the drills working in the vicinity. Drill and exploration companies have their headquarters here.

Brainerd has a foundry, that of Parker & Topping, the best and most finely equipped in the country, one that is visited by foundry men from the United States and foreign countries, bent on gaining the last word in foundry construction and management.

Brainerd has a pulp mill of the Northwest Paper company, power being supplied by the Mississippi river which is dammed at that point.

Brainerd has a prosperous flour mill, the Brainerd flour mill.

Brainerd has a brewery, the Brainerd Brewing company, and its product enjoys a high reputation.

Brainerd is the center of a rich and growing farming community. Saturdays finds many farmers in the city to do their trading and streets of the city are filled with the teams of prosperous farmers.

Brainerd is the only city on the range which has drills at work within its city limits and which is assured of three mines on its south and south-east sides within a mile of the post-office.

Brainerd has the Northern Pacific railway hospital, the largest on the line of the road and some of the most skillful surgeons of the northwest are connected with the institution.

Brainerd is the center of the lake district and an outfitting point for hunters and fishermen. The country is a greater resort for summer visitors.

Brainerd has three strong, conservative banks, which rank with the leading financial institutions of the northwest, and the oldest, the First National, has deposits of over \$1,000,000.

Brainerd controls its own lighting and water systems. It has an excellent sewer system and an abundant supply of pure water.

Brainerd cannot be surpassed as a residential city, having five modern brick school houses with a corps of competent instructors, a fine parochial school and sixteen churches of patronage, and sixteen churches of various religious denominations.

Brainerd is favored with a healthy climate and is located 1250 feet above sea level, on a level plateau, 60 feet above the river, giving natural drainage.

Brainerd's climate is dry and clear. The air is of the stimulating variety. On November 11th street sprinklers were wetting down the dust, children were playing bareheaded, rosy cheeks matrons were devoting themselves to tennis at the court house square, second crops of strawberries were picked in Northeast Brainerd,

Deerwood, Crosby and other sections of the range and a number of plum trees on South Sixth street put out a second cluster of blossoms.

Brainerd and Crow Wing county have Florida discounted when it comes to fine weather.

Brainerd has a ball team which won the 1912 pennant in the Central Minnesota Baseball association.

Brainerd has furnished umpires to the big leagues, pitchers and fielders to the leagues beyond the bushes and is prominent in the eyes of the baseball world as having been the home of Bender, the Chippewa pitcher of the Philadelphia Athletics and of having furnished a new pitcher, Leslie Bush, to the same team.

Brainerd has two new churches under course of construction.

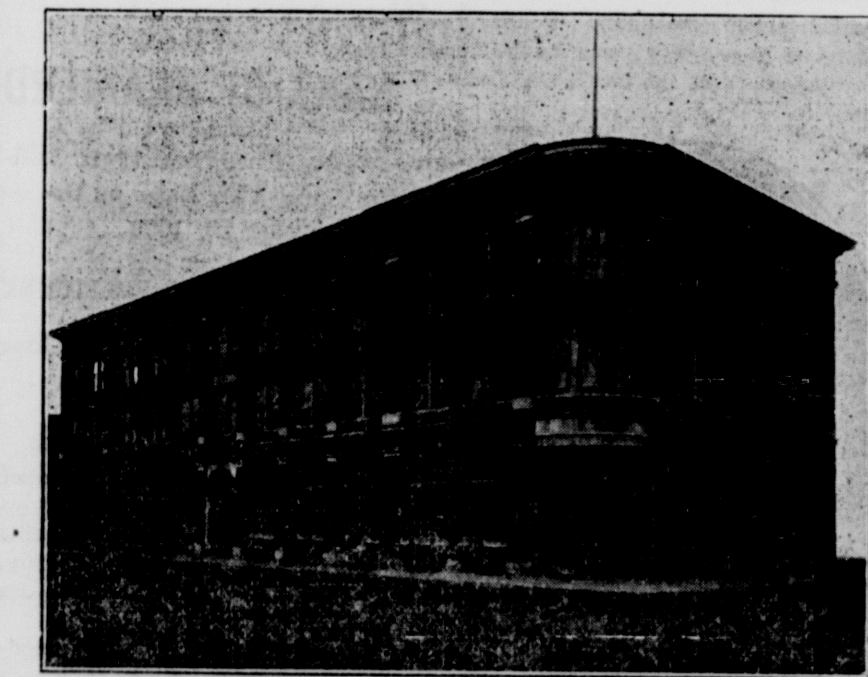

Brainerd is easy to find on the map, for it is the exact geographical center of the state.

Brainerd and vicinity offer unusual opportunities to the farmer. Clover, timothy, corn, wheat, oats, barley and the best vegetables in the world are raised in this county.

Brainerd was named in honor of the wife of Gov. J. Gregory Smith, the first president of the Northern Pacific railroad, whose maiden name was Brainerd.

Brainerd is a convention city entertaining in the past the Red Men, the Northern Minnesota Development association, the sixth congressional republican district convention, the State Federation of Labor and many others.

Brainerd has an energetic womens'

Citizens State Bank Hall, Where the Convention is Being Held. Use of hall donated by Pres. M. T. Dunn

club, the Brainerd Musical club, a power in the development of civic taste and culture. The club has secured for 1913 the convention of the State Federation of Womens' clubs.

Brainerd has a band which has carried off dozens of prizes for its fine playing and which gives park concerts during the summer season.

Brainerd has an energetic Commercial club and the finest quarters in Northern Minnesota.

Brainerd is essentially a city of homes and churches. There are few vacant houses in the city.

Brainerd wants more citizens and will be glad to see you come to town and settle here.

#### ESTIMATE OF FRANGE PRODUCTION

Supt. H. J. Kruse, of Rogers-Brown Ore Co., Gives Figures on Ore Shipments

In an interview Supt. H. J. Kruse, of the Rogers, Brown Ore Co., gave 1,000,000 tons as the probable tonnage to be shipped this season by the Cuyuna iron range. This is divided as follows:

Mines	Tons
Armour No. 1	200,000
Armour No. 2	200,000
Kennedy	260,000
Thompson	100,000
Pennington	100,000
Cuyuna-Mille Lacs	50,000
Cuyuna-Duluth	25,000
Adams	10,000
Barrows	50,000

Total -----995,000  
To this may be added other properties, such as the Iron Mountain Mining Co. mine and the hydraulic mine of the Pittsburgh Steel Ore Co. which expect to enter the shipping lists and may ship from 25,000 to 50,000 tons each.

**Drill Hole Depths**  
The average depth of all drill holes is about 275 feet. The deepest hole is 1010 feet.

Largest Convention Ever Held by Sixth District Group of Minnesota Bankers Convened in Citizens State Bank Hall Today.

MANY NOTABLE ADDRESSES ARE DELIVERED

Banquet at Ransford Hotel Tonight. Local Program Prepared by George D. LaBar and M. T. Dunn. President Howard W. Elliott, on the Program.

Officers of Sixth District Bankers Association:

President—E. H. Sherwin, State Bank of Monticello, Monticello.

Vice President—J. K. Martin, First National Bank of Little Falls, Little Falls.

Secretary-Treasurer—Charles F. Knapp, Sherburne County State Bank, Big Lake.

Other members of the Executive Committee:

W. M. Taber, First National Bank, Park Rapids.

C. M. Sprague, First National Bank, Sauk Center.

Member State Executive Committee—M. T. Dunn, President Citizens State Bank of Brainerd.

Committee on Reception and Program—George D. LaBar, President First National Bank of Brainerd.

M. T. Dunn, President Citizens State Bank of Brainerd.

Brainerd is today host for the bankers of the Sixth Congressional district of Minnesota. This is the tenth annual meeting of the Sixth district group, the members of the Minnesota Bankers' Association being

vention hall, and at the banquet at the Ransford hotel this evening.

The meeting convened at the Citizens State Bank hall at two o'clock this afternoon and will close about eight o'clock in the evening. The afternoon session today was spent in the delivery of the address of welcome, the response by President E. W. Sherwin, the reading of papers and the delivery of addresses on matters of interest to the bankers.

At the evening banquet the speaker of the evening will be Howard Elliott, president of the Northern Pacific railway, who will take as his subject, "Agriculture, Banking and the Carriers." Brainerd is proud to welcome the head of the great railway system which has done so much for this city, whose broad shops furnish employment for thousands, whose trains carry the wheat and the merchandise, shortly to include also the hauling of the iron ore of the Cuyuna range, and whose passenger trains now give Brainerd the best service it has ever enjoyed. A visit of Howard Elliott in Brainerd means much to Brainerd and he is thrice welcome.

The program follows:

2 P. M. Prayer, Rev. G. P. Sheridan.

Address of welcome, Hon. H. P. Dunn, mayor of Brainerd.

Response, E. H. Sherwin, Monticello, President Sixth District group.

Report of the secretary, Chas. F. Knapp, Big Lake, cashier of Sherburne County State Bank.

Appointment of committees by Pres. Sherwin.

3 P. M. Address, "The Banker and the Farmer," by J. H. Worst, L. L. D., president of North Dakota Agricultural College, Fargo, N. D.

4 P. M. Address, "Bank Taxation," by J. W. Wheeler, president Capital Trust Co., of St. Paul.

Discussion led by Hon. W. E. Lee, president Bank of Long Prairie, Long Prairie.

4:30 P. M. Address, "Interest Paid by Banks," by Hon. Kelsey S. Chase, superintendent of banks, St. Paul.

Discussion led by W. W. Smith, cashier First National bank, St. Cloud.

5 P. M. Address, "Good Roads," by G. A. Will, attorney Minnesota Automobile association, Minneapolis.

5:30 P. M. Address, "Work of Minnesota Bankers' Association," by G. H. Richards, secretary Minnesota Bankers association.

Business session.

7:30 P. M. Report of committees. Election of officers.

9:00 P. M. Banquet tendered by Brainerd bankers at Hotel Ransford.

The following is the menu for the banquet at the Ransford hotel this evening:

Panache	Potage, au Tomato
Celery Hearts	Salted Almonds
Francho of Red Snapper	Shoestring Potatoes
Fillet of Beef, Pique Champignons	Sweet Potatoes, Pyramid Petit Pois
National Punch	Head Lettuce Salad
Glace la Cream, de Vanille	Angel Food
Macaroons	Demi Tasse
Cigars	Music, Graham's Orchestra

The banquet program follows: Toastmaster, W. H. Gemmell, general manager of the Minnesota & International railway.

"Rendering an Accounting" Hon. C. D. Johnson

"A Few Experiences" C. D. Brown

Song S. F. Alderman

"Agriculture, Banking and the Carriers" Howard Elliott, President of Northern Pacific Railway

"What Geology Has Done for this District" Carl Zapffe

"Conservation of Health as Compared with Conservation of Wealth" Dr. Walter Courtney

Mayor H. P. Dunn, of Brainerd, in his address of welcome, said:

"Mr. President and gentlemen of the Sixth District Bankers association:

The dream of home is the most enchanting of all dreams. The love of home is most surpassing of all loves. I love the city of Brainerd because it is my home and for another reason which, perhaps, you may call a selfish one, but which is nevertheless a very good reason, to wit, because Brainerd is the spot of destiny on the map of Minnesota.

Look at our vast mineral resources! Why, as yet their development is only in its infancy. When I see these many resources lying as yet almost untouched, I think of the story of the sleeping giant roused to activity by the potent wand of the magician.

Gentlemen, you are custodians of accumulated capital and accordingly you possess the magic wand which we are in search of and consequently I cannot hide from myself the idea that your presence here is a favorable omen of our future prosperity and development.

Lord Tennyson once sang most truthfully and most beautifully of his times and ours, that 'Every door is barred with gold and opens but to golden keys.'

Gentlemen, members of the sixth district bankers' association, you have brought the key that fits the lock of our city. The city with its treasure is yours in my own name, and in the name of our citizens I bid you gladly welcome and hope that your stay among us may be a pleasant and a profitable one."

This was followed by the response delivered by E. H. Sherwin, of Monticello, president of the Sixth District group.

Secretary Charles F. Knapp, of Big Lake, read his report.

The various committees were appointed by President Sherwin.

At 3 P. M. J. H. Worst, L. L. D., president of the North Dakota Agricultural College of Fargo, N. D., delivered his address on "The Banker and the Farmer." He said:

"Banks do not create wealth. They are, however, depositories of money which is the representative of wealth. From these depositories, money may be drawn for the purpose of creating additional wealth. Banks thus render good service. It would be difficult to dispense with them.

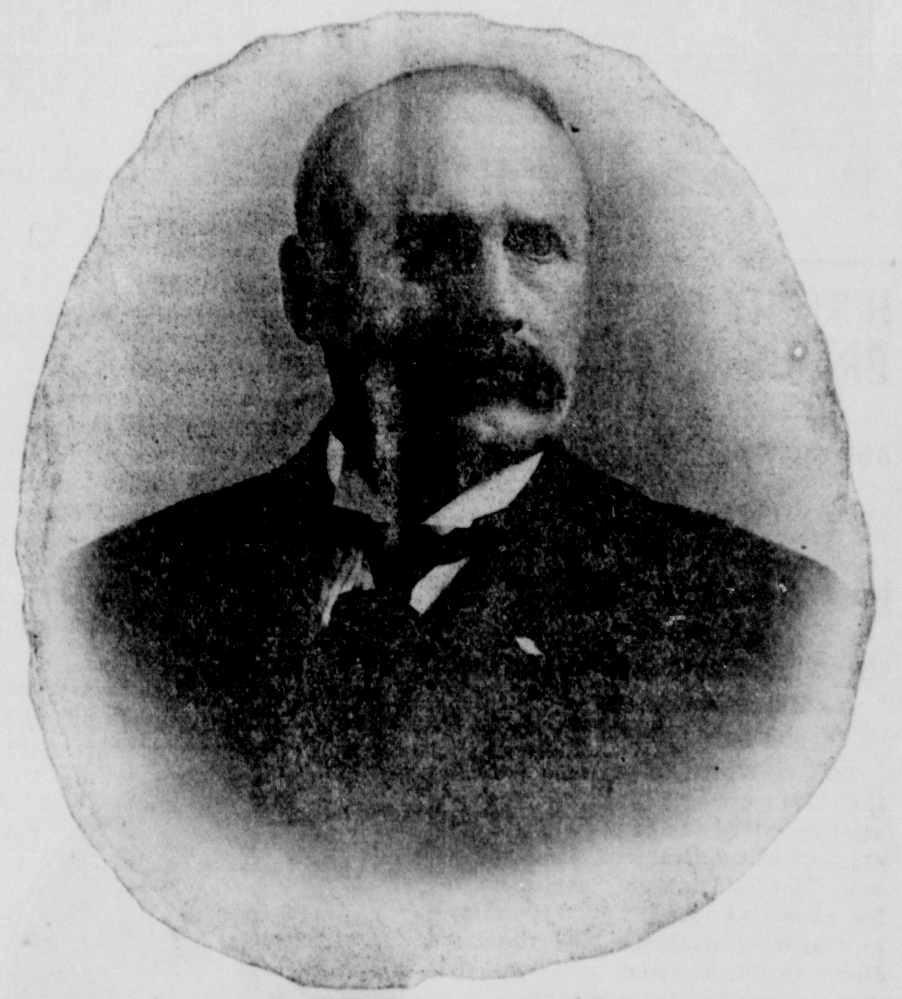

"The manufacturer needs money from time to time for the purchase of raw material, factory equipment, and for the employment of labor. The raw material of the factory is converted into consumable products by the application of labor. When ready for consumption, the value of these finished products is enhanced by the amount of labor that was applied to them. The difference, therefore, between the value of the finished product and the raw material represents increased wealth. The banker shares directly and indirectly in whatever prosperity that may result from this increasing wealth by means of capital and labor. The bank and the factory, therefore, have mutual interests.

"The farmer, also, frequently requires money for the purchase of improved machinery, live stock, seed, grain, for building a silo, or making other improvements on the farm. In proportion as the farmer is thus enabled to produce more grain and live stock, his prosperity increases and his prosperity, in a large degree, measures the prosperity of the entire community.

The bank and the farmer thus have mutual interests.

"The farmer, however, creates wealth in a different way. He deals directly with Nature's forces for the production of wealth. He depends upon the soil, the air, the sunshine, and moisture and by means of these agencies produces wealth directly from the bosom of Nature. He may have to conserve moisture; he must conserve fertility of the soil if he and the country are to enjoy continued prosperity. Every community interest, whether of a professional or business nature, therefore, is deeply concerned in the farmers' welfare. He

(Continued on page 2)

J. H. Worst, L. L. D. President of North Dakota Agricultural College, Fargo, North Dakota

### SIXTH DISTRICT GROUP MEMBERS

List of Bankers Who Hold Membership in This Division of State Bankers Association

COMPRISES TWELVE COUNTIES

List is Also Given of the Non-Members of the Sixth District of this State

The sixth district group of bankers of the Minnesota Bankers association comprises the counties of Hubbard, Cass, Wadena, Crow Wing, Todd, Douglas, Morrison, Benton, Stearns, Sherburne, Wright and Meeker.

The members of the sixth district are:

Members of the Sixth district group: Akeley, Hubbard county, State Bank of Akeley. Albany, Stearns county, First State Bank.

Aldrich, Wadena county, First State Bank. Alexandria, Douglas county, Douglas County Bank.

Alexandria, Douglas county, Farmers National Bank.

Alexandria, Douglas county, First National Bank.

Ransford Hotel, Where the Banquet Will be Served Tonight

## HISTORY OF THE BRAINERD MINING CO.

Attorney Wm. C. White, President of Company, Describes its Work of Development

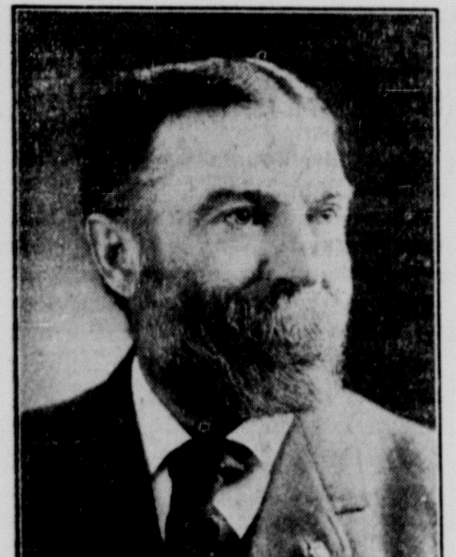

STARTED BUYING LANDS IN 1905

Mr. White Pays High Compliment to His Associates, R. R. Wise and Late Judge Holland

Wm. C. White, deeply interested in the Cuyuna iron range, in an interview described the origin and the operations of the Brainerd Mining company and paid a high compliment to his associates, Hon. R. R. Wise, former mayor of Brainerd, and the late Judge G. W. Holland, who was the vice president of the company.

Mr. White says: "I shall write no 'boom' article, if I say a few words about the Brainerd Mining Co., which had its origin in the brains of Messrs. R. R. Wise, Judge G. W. Holland and myself, I think early in 1905, when on looking over the country directly south of Brainerd, Mr. Wise and Judge Holland found some very persistent mineral attractions and invited me to join them in seeing whether they were sufficient to make the organization of a mining company desirable.

"We picked up some two miles of attractions that were so persistent

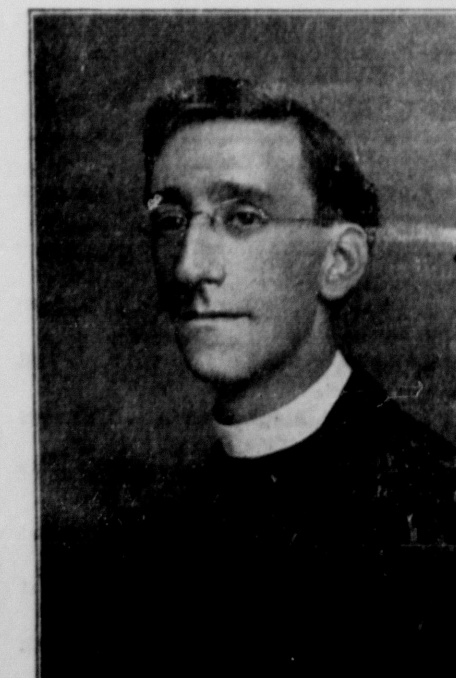

R. R. Wise, of Brainerd, Secretary and Treasurer Brainerd Mining Co.

that we decided to acquire the property and form a company to explore it and, if advisable later, to develop it. This we did, and began by drilling on certain places of the property, on which we spent some \$8,000 and found such strong evidence of what we wanted, that we paid for the lands and held them a while, awaiting other developments.

"After three or four years, we interested Mr. W. A. Barrows and Mr. Pope, of Pittsburgh, in the property and they did further exploring which did much to develop practically a new range which means so much to Brainerd."

On ground leased the M. A. Hanna Co. at Barrows is where the big Barrows mine has been established and which is expected to ship 50,000 tons of ore this season. The Barrows mine has taken out quite a stockpile. The Northern Pacific railway has built in coal tracks and other tracks to the mine and is in readiness to handle the ore and haul it to the Superior ore docks which will be completed within a few weeks.

Rev. G. P. Sheridan, Pastor First Congregational Church of Brainerd

## BRAINERD WELCOMES SIXTH DISTRICT BANKERS

(Continued from page 1)

needs more than mere encouragement. The interests he supports should exercise a direct influence upon those economic laws which insure justice in interest rates, in transportation, and in the distribution of the products of the farm. The assistance thus rendered should be cooperative and not construed as charitable. It should be for the general welfare.

The great northwest is composed of the best soil to be found anywhere

George H. Richards, of Minneapolis Secretary of Minnesota Bankers Association

in the world. Its possibilities for present and future prosperity cannot be measured. Every improvement made in the selection of seed grain, in the breeds of live stock, and in methods of tillage, oftentimes only obtainable by means of borrowed money, mounts up directly into the millions, whether reckoned in tons, bushels or dollars.

"With only a fraction of the soil as yet brought under the plow and most of that given but indifferent cultivation, and with but little attention given to scientific marketing, yet the country is reasonably prosperous. However, with scientific cultivation, with more attention paid to agricultural education and what is popularly known as extension work, the acre yield can easily be doubled—certainly the profits of the firm can be very greatly increased.

"The greatest issues that confront us at the present time, therefore, range around farm credits, cheap and easily obtained money for the farmer, better roads, better schools, better marketing, cooperation, soil conservation, and better living. Will these issues be fairly met? Will business men generally give attention to the future prosperity of the country by popularizing conservation methods or will they encourage exploitative methods of agriculture for the purpose of making immediate bank accounts by ruthlessly sacrificing the country's present natural resources?

Hon. W. E. Lee, President Bank of Long Prairie, Long Prairie

"It is evident that the farmer, as a rule, is too busy with his daily tasks to give proper attention to business methods. On the other hand, those who make a study of business can, if they will, render the farming fraternity much assistance. Instead of levying tribute upon everything he buys and sells and returning to him in the form of quasi-charity, financial assistance that will enable him to raise larger crops by exploitation methods, it would be more consistent to encourage business methods that will enable the farmer to help himself. This he can do largely by cooperation in marketing his products

and in purchasing his supplies. Nothing better has yet been devised for building up prosperous and contented rural communities.

As long as the hope of the country is centered in rural activities and as long as the soil is the source of the country's prosperity and the farmer remains the backbone of the nation, the farm—the personally-owned and well tilled far—should be made the most popular institution in the state. Instead of being a place to flee from as soon as sufficient means will warrant it, it should be the most desirable place to work during vigorous manhood and the most delightful place for retirement during the farmer's declining years."

# THE BANK FOR ALL PEOPLE

## CITIZENS STATE BANK OF BRAINERD

## CITIZENS STATE BANK OF BRAINERD

Enterprising Bank Commenced Business Under This Name on October 10, 1906

M. T. DUNN IS THE PRESIDENT

Bank Has its Home in Modern Three Story Citizens State Bank Building

The Citizens State bank commenced business under this name October 10, 1906, being a reorganization of the Northern Pacific bank, of this city, and taking over the building, business, etc., of that institution. Its capital stock is \$25,000.

The bank is situated in a fine, modern, three story building, of which the bank occupies part of the main floor. The second floor of the building is devoted to offices and the third floor has the large hall in which the convention of the bankers of the district was held. Many of the large fraternal orders of the city meet here. In addition there are a number of smaller halls where fraternal and other societies meet on the third floor.

Recognizing the value of the farmer to the community, the Citizens State bank permits many of these farmers insurance companies and others to hold their meeting without charge.

The president of this institution is M. T. Dunn. Mr. Dunn began his banking experience in the Citizens' State Bank of Kenyon, Minn., of which he is still a stockholder. From there he went to the LeRoy State bank, from which he was called to Brainerd in 1905 to take charge of the affairs of the Northern Pacific, in the hands of the state bank examiner. By his energy, foresight and hard work he put that bank on its feet in good shape and then reorganized it as the Citizens' State bank, since which time it has had a very profitable career. Mr. Dunn is also interested in the First National bank of McCluskey, N. D., and the Denhoff State bank, of Denhoff, N. D.

## FIRST NATIONAL BANK OF BRAINERD

Is the Oldest and Largest Bank, Having Been Organized October 1881

GEORGE D. LABAR, PRESIDENT

The First National Enjoys Proud Distinction of Being a Roll of Honor Bank

Of the three banks the First National bank is the oldest and largest it was organized October 11, 1881, succeeding the old Bank of Brainerd, which was established a few years previously by Wm. Ferris. Its capital stock was \$50,000 and to that has been added a surplus and undivided profit account of more than as much.

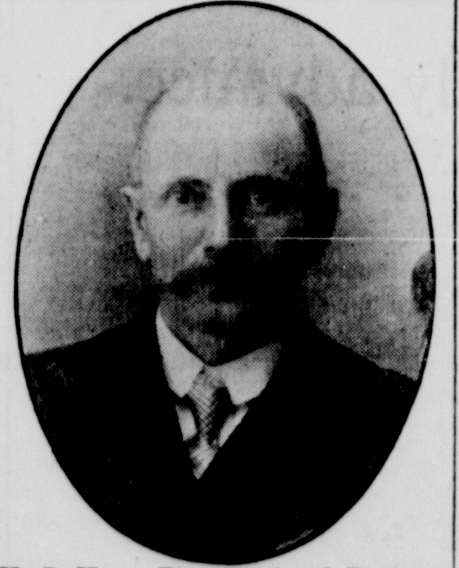

Adam Brown, Director First National Bank of Brainerd

making it one of the roll of honor banks and giving it an available capital of over \$100,000. Adam Brown, has been stockholder and member of the directorate from the day of the organization of the bank to the present time. The deposits of the bank are over \$1,000,000.

Geo. D. LaBar, president of this bank has been with it in one capacity or another for over a quarter of a century, coming here from Zumbrota, Minnesota, to enter upon the arduous duties of errand boy and commencing his labors with the bank on January 12, 1883. Since that time he has filled, one after another, every position and every office in the bank. Keen, able and conservative as a banker, upright and public spirited as a citizen, he is a man of whom the city may well be proud.

Fred A. Farrar, cashier of the bank is also a man of long experience in the business, having been with the institution over 13 years, his father having been connected with the bank

H. J. Hage, First National Bank of Deerwood

before him. Previous to entering the employ of the bank Mr. Farrar was for seven years city clerk and was engaged in the mercantile business in this city, and in fact was raised in Brainerd. He has served on the city council and is prominent in all enterprises for the advancement of the town.

Assistant cashiers of the bank are P. L. Lagerquist and Arthur P. Drugseth. The bookkeepers are A. C. Miraz and Severn Swanson. John Brady is the clerk and Miss Olive Lagerquist the stenographer. These are all bright young people who will make their marks in their chosen professions.

### In Memoriam

Prominently identified with the banking business of Brainerd was the late Judge G. W. Holland, who served for years as a director and vice president of the First National bank of Brainerd.

G. W. Holland

When the matter of the organization of what is now the First National bank of Brainerd was on foot it was Judge Holland who drew all the necessary legal papers in connection with the work and he had been a stockholder from the start and member of the first board of directors elected at the organization of the bank on October 11, 1881.

From that day on Judge Holland had been a member of the board of directors and there were few meetings that he had not attended.

Judge Holland was the first attorney to settle in Brainerd when it was a mere hamlet consisting mostly of tents.

Seeing the future of Brainerd clearly, the judge had invested heavily in real estate and had not only much city property but large interests

First National Bank Building

throughout the country and extensive holdings on the Cuyuna range. He held various public offices, having been district judge for twelve years.

Prominently identified with every movement looking toward the development of Brainerd and Crow Wing county, his sudden demise on April 23 was a great shock to the community. But the good he has done and planned for his native city of Brainerd, which he loved so well, will live after him and be remembered for generations to come.

### TRAIN PHONE GIRLS' VOICES.

Lessons Will Be Given to Produce Sweet Tones.

The telephone company operating in St. Paul and Minneapolis has decided that the voices of its girl operators are not what it wishes them to be.

The result is that the girls will be given lessons in voice culture so their voices will sound sweet over the phone. The company is taking a chance, for with sweeter voices more girls will be asked to desert the switchboard for the marriage altar.

### A Mother's Kiss.

"Having grossly offended my mother one day," wrote Miss Schrock, "I stood expecting reproof in return. To my amazement that beautiful woman stooped and kissed me. I burst into tears. I was overwhelmed with shame. It seemed to me I never again could do enough to show her the loyalty of my heart."—Mothers' Magazine.

## BRAINERD BANKS ARE STRONG ONES

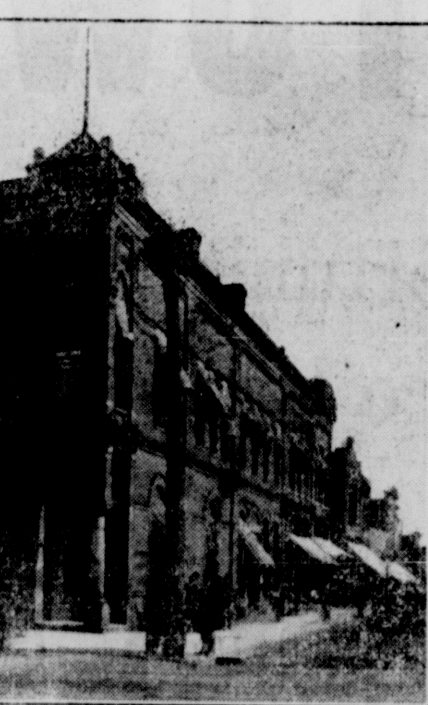

This City Well Supplied With Strong, Conservative Financial Institutions

### THREE NOW DOING BUSINESS

During Short Money Season of 1907 Gold and Not Cashier's Checks Was Paid Out

Brainerd is especially fortunate in her financial institutions. She has three of the strongest and most successful banks in the state, managed by men of long experience in the banking business; men who combine enterprise and conservatism in the proper proportions to insure the prosperity of the banks and advance the business interests of the community.

That Brainerd's banks are among the strongest in the country is shown by the fact that while Brainerd's pay roll is one of the heaviest on the Northern Pacific railroad, this is one of the few places in the United States where the pay roll was met entirely with cash during the 1907 financial flurry. On November 20th, of that year, when the panic was at its height, over \$70,000, mostly in gold, was paid out by the First National bank alone to the men at the railroad shops. In addition to this the Citizens State bank paid out a large amount. The Security Bank was organized in 1908 and later became the Brainerd State Bank. At no time did either of the Brainerd banks resort to cashier's checks or other devices, nor at any time was any depositor stinted as to the amount of his

First National Bank Building

deposit which he could withdraw. In fact, the conditions in Brainerd excited the envy and admiration of every business man from outside who visited the city during the flurry.

J. K. Martin, Cashier First National Bank of Little Falls

### Curious Effects of Frost.

An egg expands when it is frozen so much that the increased bulk breaks the shell. Apples, on the contrary, contract to such an extent that a full barrel will shrink until the top layer will be a foot below the chine. When the frost has been slowly and carefully drawn out they again assume their normal size and appearance. Apples can be transported when the mercury is 20 degrees below zero. Potatoes once touched by frost are ruined.

## MORGAN STORIES.

The Great Banker, Blunt and Gruff, Could Enjoy a Joke.

### HIS KEEN SENSE OF JUSTICE.

It Was Strikingly Illustrated by the Way He Handled Two Defaulting Employees and the Rebuke He Administered to a Wall Street Shark.

Most people who knew J. P. Morgan knew him as a man blunt to the point of gruffness, yet he had a keen sense of humor. This is recalled by the way he appreciated so well the joke of a young Irishman who served in his office as a sort of exalted porter that he raised his salary.

The joke was on one of the banker's visitors, who, thinking to have some fun with the young man, remarked to him his was a most difficult task, keeping those whom Mr. Morgan did not wish to see away from him without giving offense.

"That's so," said the Irishman, "but I don't mind. I earn \$50 a week."

Duly impressed, the visitor remarked to Mr. Morgan that he paid pretty good salaries, mentioning the figure given him by the doorman. Mr. Morgan rang for him.

"What do you mean," he demanded, "by telling this gentleman that I pay you \$50 a week?"

"I never told him anything of the sort, sir," the man replied. "I told him I earned \$50 a week keeping cranks out, and I think I do."

"Well," said Morgan, lighting up, "we won't discuss that now, but just tell the bookkeeper you are to have \$5 more a week. And have no more talk with my inquisitive friend here on the private affairs of the office."

Every banking house has little pecuniations at one time or another. No public record exists to show that the Morgan house suffered in this respect, but that is because the banker handled these cases in his own way. Two such cases are recalled by a veteran in the street. In one the culprit, a married man, admitted that he was some \$3,500 short when the head of the house called him into his office. He had gone in speculation, he said. He admitted that his salary was ample for his needs.

Mr. Morgan advised him to go home and tell his wife about it and see him in the morning. In the morning he handed him the amount he was short after the clerk had said he had told his wife everything.

"Put that where you took the money from," he ordered. "It is a loan from me. I expect you to pay it back. None of the others know anything about it. Let's see if you can't be a man."

Later the clerk returned the money to him, with a stammering expression of thanks.

"Humph!" said the banker. "It was a bit harder saving than losing it, wasn't it? Well, now, take it home and give it to your wife. I guess she saved more of it than you did."

The other clerk, unmarried, became involved through associating with too lively a group. Like the other, he was advanced the amount of his shortage and, like the other, repaid it. Not long afterward Mr. Morgan called him into

his office and gave him three months' notice.

"But, Mr. Morgan," he protested. "I'm all right. I haven't taken a dollar of your money since you gave me another chance."

"I know it," said Morgan, "but it won't be long before you will. You're traveling with your old clique again."

There is one banker, not of the second class in importance, who probably never will forget his experience on the "Black Monday" panic. The head of one of the largest commission houses in the "street" went to Morgan for aid.

"We are absolutely solvent," he said.

Fred Stangl, Cashier Security State Bank, St. Cloud

"But Mr. Morgan," he called a town on us for \$1,000,000. We can't make it and must close. We'll pay 100 cents and have enough left for all of us, but we don't want to sacrifice that business of years."

"What security have you got?" asked the banker.

The broker told him. "All right. I'll give you the money. Send the stuff here. Jack, telephone Blank I want to see him."

"I sent for you," roared the man who had been up days and nights trying to bring financial peace out of chaos, "to tell you what I think about you, but I haven't the time now. You've been pounding this market ever since this trouble began, trying to make money when everybody else has been trying to help those in trouble. You go back to your office and stop calling loans. If you call another one I'll break you and drive you out of business!"

And that settled it.

David Dows, in his day one of the great men in the financial district, once said to the banker:

"Morgan, you see a lot of young men and seem to be able to pick up better ones than any man I know. I want a man whom I can trust to look out for my affairs when I am away. If you can get me such a man I'll pay him \$15,000 a year and forever be your debtor."

"Dows," said Morgan, "when you find that man send him to me, and I'll pay him \$50,000 a year and pay you a bonus for discovering him." — New York World.

Any man or woman, in any age and under any circumstances, who will can live the heroic life and exercise heroic influence.—Charles Kingsley.

## BARROWS, BIG FOR ITS AGE

Barrows is Bound to be a Thriving Town of the South Cuyuna Iron Range

ON ALL SIDES ARE ORE BODIES

Much Building Going On—Railway Company to Build New Depot—The Hanna Mine

Barrows is bound to be a mining center of much importance. It has already the Barrows mine of the Virginia Ore Mining company, a subsidiary of the M. A. Hanna Co., of Cleveland, Ohio, and on all sides are proven ore bodies which are bound to be mined before long. Hundreds of men will be given employment.

Barrows is located five miles southwest of Brainerd, on the Northern Pacific division extending from Brainerd to Minneapolis and St. Paul. Lying close to the town are large deposits of ore owned by the Northwestern Improvement company, the Brainerd Mining company and other large interests.

The cost of living is not so high in the town because it is located in the

modern in design, and two store buildings. He has recently completed five two-story residences and has started five more of the same style. All of these houses are being wired for electric light, as Barrows expects to be getting current by spring from the Cuyuna Range Power Co. dam at the Crow Wing river.

H. Hansen, of Duluth, has bought a block of 24 lots and will erect buildings on them.

P. W. Rathbun, of Bemidji, will go into the hardware and furniture business. He will start building at once.

The Barrows Iron Co. will resume drilling in the neighborhood of the town in section 10, township 43, range 32. A forty has been proven upon the Iron Valley Co. property.

John Grande is erecting a livery stable and will soon have a number of horses to engage in the livery business.

Mrs. Peter Sand will commence building a large boarding house in the near future.

A. E. Anderson, of southern Wisconsin, has moved to Barrows and

purchased two lots and will build a rooming house in the spring.

Gust Norain, of Duluth, visited Barrows recently and feels very enthusiastic about the town and its growth.

H. Stahl, of Fort Ripley, has moved to Barrows and will make his home here.

Mr. and Mrs. George Whitehouse of Hibbing, have rented one of the new residences built by the townsite company and they expect to engage in business in the town.

### Railroad Building

Sixty miles of new railroad lines have been built since the fall of 1910. The Soo line has built the greatest mileage.

### Divides the Ranges

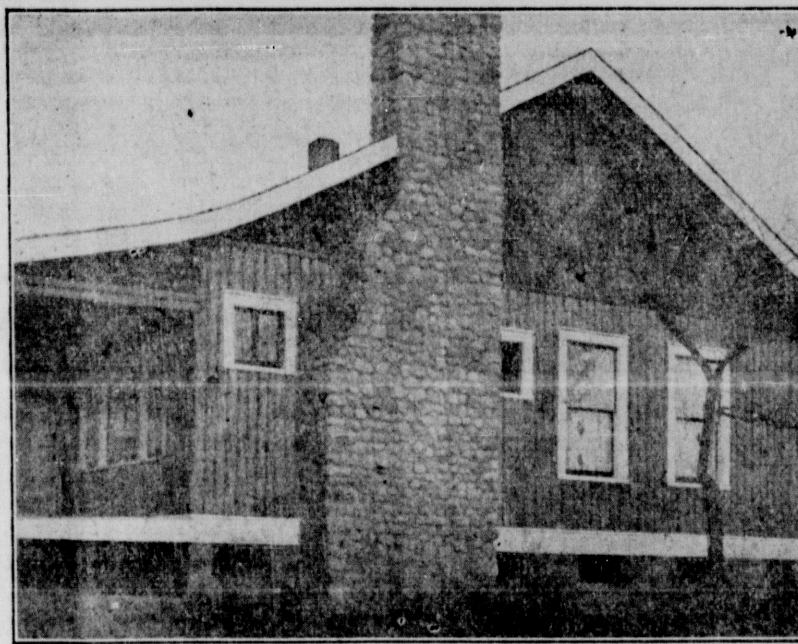

The Northern Pacific railway runs parallel with the district for very many miles. It divides the district into two parallel ranges, known as the North and South ranges.

### Farmers Receive Royalties

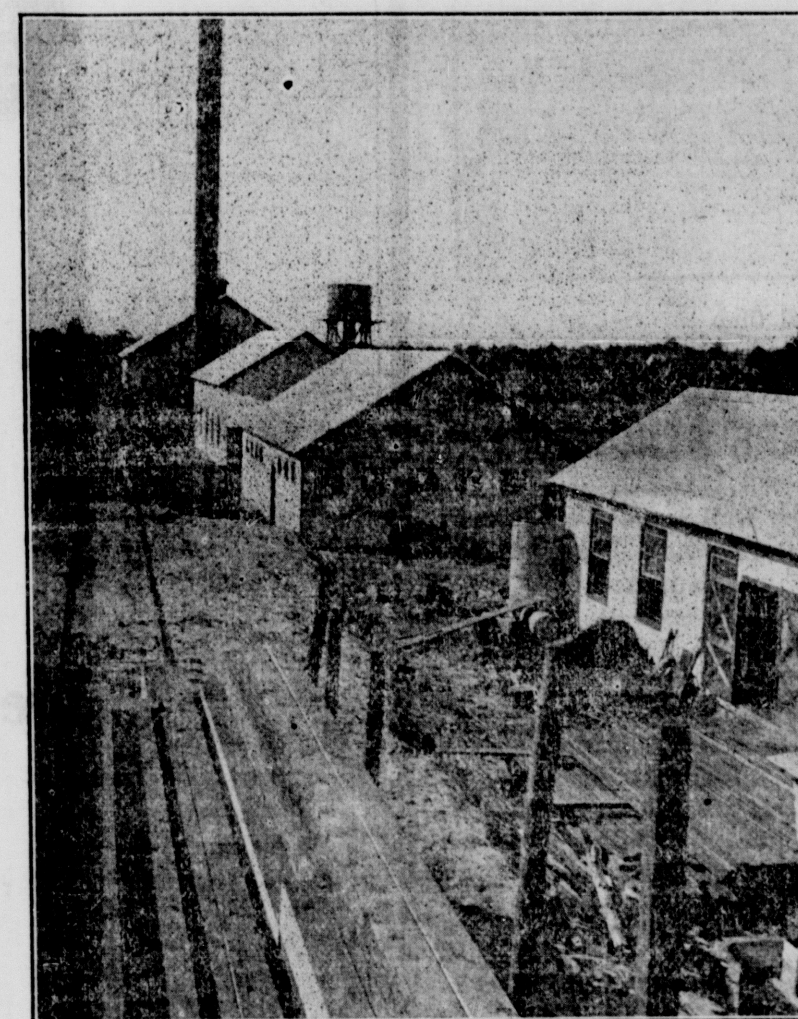

Many farmers are receiving royalty payments every three months for the ores on their farms, now being under lease to some mining company.

### New Towns

The new towns created since 1910 are Cuyuna, Crosby, Ironton, Ironhub, Oreland, Riverton, Manganese and Barrows.

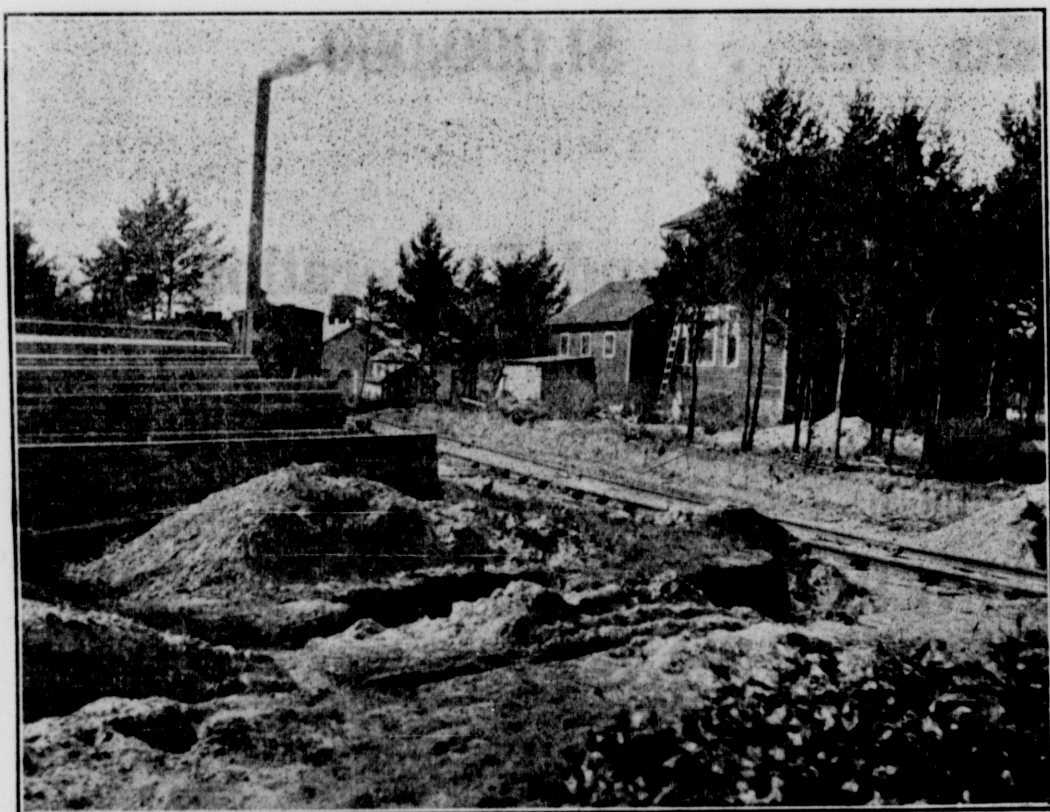

Home of Supt. R. S. Archibald

Mine Buildings at Barrows

Cottage at Barrows

Hanna Mine Picture

Group of Cottages at Barrows

heart of some of the best farming country in the state of Minnesota. There is an abundance of good drinking water. The town is located on a sandy loam soil, thus insuring abundant natural drainage for surface waters.

Barrows has cement sidewalks and fine level graded streets. The town has now a fine brick bank building, school house, town hall, depot, express office, hotels, boarding houses, stores and an abundance of well built dwelling houses.

Early in May the Cuyuna Range Power company will light the town by electricity, the current being generated at the company's dam on the Crow Wing river.

One of the hustling real estate men of Barrows is Richard Bergum, who does a fine business buying and selling real estate, writing insurance and also attending to the collection of rentals, etc.

There is considerable talk of starting a commercial club in the town. This is one of the agencies which will do much to promote business in Barrows.

John Logier, of Virginia, Minn., intends to go into the piano business in Barrows and will erect a two story building, 50 by 70 feet in size, of which a part will be used for a music store and the rest of the main floor for a restaurant. The second floor of 24 rooms will be used for rooming purposes.

Otto Mayerli, of Eveleth, agent of the townsite company, had a number of Mesaba range people at the town examining lots this week. All were pleased with the growth of the town and many expect to put up buildings this spring.

H. A. Peterson is doing a good business conducting a general store. His brother Edgar is clerking for him.

C. E. Farnsworth, of Cresco, Iowa, a brother-in-law of C. B. Peck of Duluth, intends to go into the coal and ice business in Barrows.

The C. B. Peck building is rapidly nearing completion. Mr. Peck will run a confectionery store and a pool room. It is to be a fine brick and stone building, 25x60, full basement, store on first floor and large hall on second floor.

Marcus Grande reports he has contracts for the erection of several more residence buildings, some very

## GIVES IMPETUS TO BUSINESS

Cuyuna Range, Says Howard Elliott, to Give Northern Pacific Much Business

## LARGE YARDS AT CARLTON

New Ore Docks at Superior to be Finished According to Contract by June or July

President Howard Elliott, of the Northern Pacific railway, in a recent interview gave out some important information on railway matters.

"One of the great pieces of work which we will undertake this

contain 102 pockets of larger size than the usual ore dock has. Shipping by both our road and by the Soo from the Cuyuna will be large this year.

"As to business in general, it was good last year and gives promise of being better this year. Both east and westbound business last year showed increases, but the eastbound business was the greater, and we could stand more business headed west. It was a trifle unbalanced."

## BUILDING ORE DOCK

Northern Pacific Railway Preparing for Ore Traffic by Building Big Dock at Superior

## THE LINNEMANN STORE

A Large Store at Brainerd and Thriving Branch Established in Crosby

One of the most substantial of Brainerd's many business houses is the clothing store of Mr. H. W. Linnemann at 616 Front street. Though one of the comparatively new firms of the city, having been established only a little over six years, it has grown in these few years to be recognized as one of the leading firms of northern Minnesota.

The success of this store has been due largely to the policy of the store and to the honest values and square deal that has always been accorded to its customers. The stock in this store is one of the cleanest stocks to

store's patrons uppermost in their minds and it is always their aim to get all the value possible for the customers at the least cost. A visit to this store is well worth while as in it you will find some of the best known lines of men's wear in the country and it is a real treat to see the artistic designs shown there in men's clothing. It is a store where the visitor is always as welcome as the man who comes in to buy.

That this store has faith in Brainerd and the whole Cuyuna range is evidenced by the fact that they have established a branch store at Crosby under the firm name of the Linnemann Clothing Co., where by following the policy of the Brainerd store they have in the year they have been at Crosby built up a large business and have become one of the leading

## You Can Bank on Our Clothes

You bank your money where you know it is going to be safe and where it will be at your service

when you want it. When you buy a suit of clothes you want to buy it at the store that you have the same confidence in as you have in your bank, and you want clothes that will be at your service always.

Years of square, honest dealing with our customers has earned for us their unfailing confidence. They have learned that they can bank on the goods we sell and know that our guarantee is absolute. An investment in a suit of Kuppenheimer, Sophmore or Arcraft clothes pays the highest possible interest because you get one hundred per cent value for your money; you get a perfect fit, the latest styles, the best workmanship, the highest quality of material and permanency of service.

Copyright 1913 The House of Kuppenheimer

Kuppenheimer and Sophmore

Suits \$18 to \$25

Arcraft Suits \$10 to \$18

Make your Boy's Clothes investment safe. You can do this by coming to this store and asking to see our line of clothes for the little fellows. Just examine the style, fit, materials and patterns—they will appeal to you as satisfactory and acceptable. That leaves your satisfaction taking only one chance—the wear. We safeguard that by the maker's guarantee backed by our own personal guarantee. You can invest \$2.50 to \$6.50

Men's Shoes and Oxfords in all the new shapes and lasts; the low flat heel and rubber sole, in tans and white, dress shoes in blacks and tans, that combine comfort and wear—in fact a shoe for every foot. \$2.50 to \$5.00. Boys' shoes at \$1.50 to \$3.50.

Hats, Caps and Furnishings that are always a safe investment.

## H. W. LINNEMANN

"Clothes of Quality for Men and Boys"

616 Front Street

Brainerd Minnesota

The First State Bank of Barrows

The First State Bank of Barrows was formally launched a few weeks ago and the directors elected the following officers of the bank:

President—J. P. Ernster, of Minneapolis.

Vice President—John Wahl, of Duluth.

Cashier—R. C. Klinkenberg. Directors—G. H. Rydberg and John Wahl of Duluth, J. P. Ernster of Minneapolis, R. C. Klinkenberg

of Barrows and E. C. Bane of Brainerd.

The bank starts out with every assurance of success. It pays four per cent interest on deposits. The first statement recently published shows

that a nice business has been done since its organization.

R. C. Klinkenberg, the efficient cashier, was formerly with the Miners National bank of Eveleth.

spring," said President Elliott, "will be the enlargement of the track facilities in the proposed storage yard at Carlton.

"Our work there this year will be only a beginning. Ultimately the additions to the trackage there will give extensive employment to residents of Carlton. The yards there are made necessary by reason of the fact that business in general is growing tremendously aside from the additional business that is coming in during the present year from the Cuyuna range.

"The ore situation as regards our road is very bright. We are now having a slip dredged for the new ore docks which we will construct in Superior this year, and which, according to the contract, must be finished by June or July. The dock will

railway on a \$1,000,000 ore dock at Superior, Wis., and the dock is an indication of the activity of the Northern Pacific in providing for the ore traffic from the Cuyuna iron range.

The dock will cost approximately a million dollars and will be almost entirely of steel and concrete. It will be built 1,300 feet long, 70 feet wide and 80 feet high and will have a capacity of 60,000 tons of ore. The foundation of the dock will be of concrete and steel to a height of 40 feet above the water line and the upper part will be of steel only.

## Millions for Drilling

Over \$2,000,000 have been spent for drillings. One-third of this amount was spent for merely getting through the surface covering.

be found anywhere as no left-overs are carried from season to season. The big sales twice each year clean up all the surplus of the season.

In selecting the stock for the store the buyers have the needs of the

business firms of the growing town of Crosby.

## Catholic Church

A large Catholic church was recently built in West Park addition.

It is attended by parishioners of Iron-ton and Crosby.

## Not Much Water

As a whole the mines of the Cuyuna range contain only a relatively small amount of water.

Miners Homes at Barrows

## Held Much Property

The late George W. Holland, of Brainerd, was about the largest individual holder of developed properties. He received handsome royalties every year. The judge was a faithful follower of the mining industry, and a public spirited citizen.

## 2,500 Drill Holes

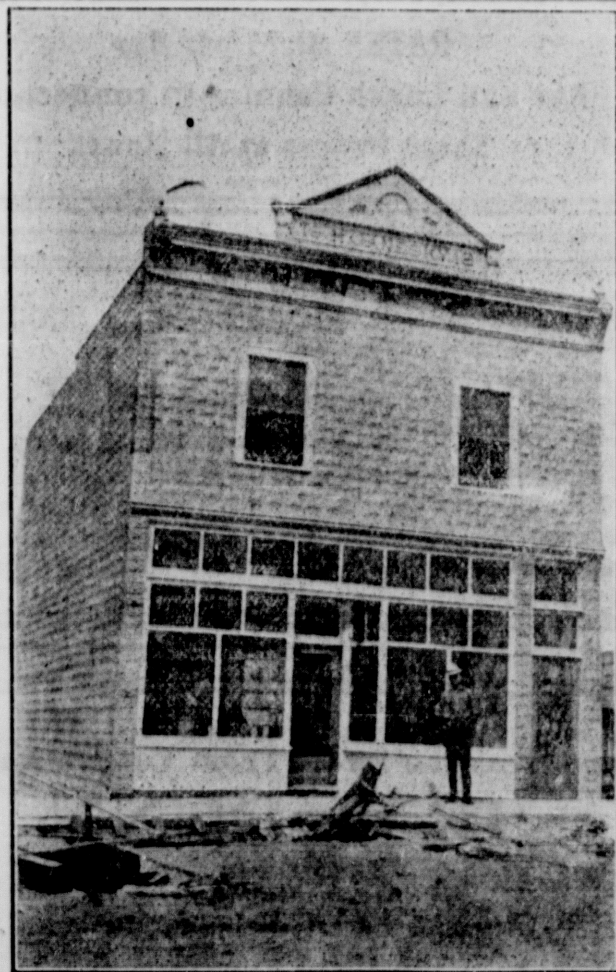

About 2,500 drill holes have been drilled on the range. Drills must be resorted to because all the rock formations are deeply buried.

## Extent of Range

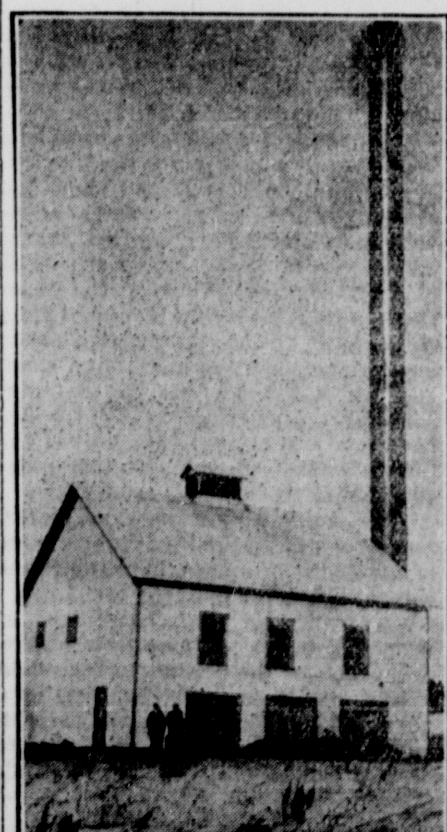

The Cuyuna district embraces about 350,000 acres of explorable land.

### Real Estate and Rentals

We have been in business here for 30 years, have sold CROW WING COUNTY farm lands nears Brainerd for \$2.75 per acre and seen that same land sold in the past 3 years for \$400 per acre.

We have just as good bargains to show you today in GOOD FARM LANDS along this Iron Range, ranging in prices from \$15 to \$25 per acre, on reasonable terms, and which may overlie ore bodies. Let us show you some of these lands; it is no trouble to show goods, "LET GEORGE DO IT." The Cuyuna Range is still in its infancy—get in on the "ground floor" at farm land prices and reap the benefits. The land will never be worth less, so you have everything to gain and nothing to lose.

## THE BRAINERD STATE BANK

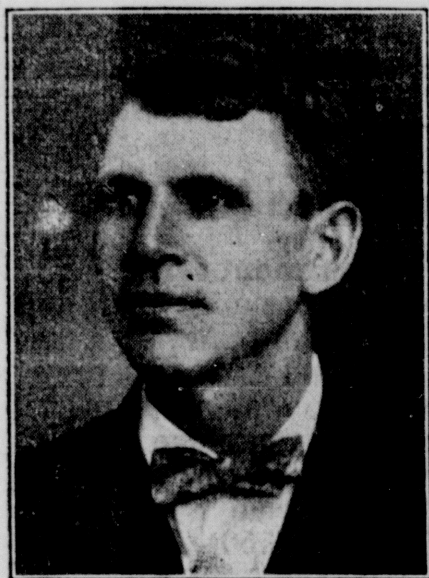

Has its Banking Rooms in the Koop Building, Seventh and Laurel Streets

J. P. ERNSTER IS THE PRESIDENT

Brainerd State Bank Has Had a Remarkable Growth in the Past Few Years

The Brainerd State bank, first organized in 1908 as the Security State bank, and in October, 1910, reorganized and made the present bank, has its banking rooms in the Koop building on the corner of Seventh and Laurel streets.

The stockholders of the bank are Same Cone of St. Paul, F. M. Koop, Sophia A. Arnold, L. M. Depue, V. E. Hanson and H. E. Kundert of Brainerd, H. J. Hage of Deerwood, Rev. A. Lamotte and P. F. Hosch of Little Falls, O. H. Scott of Wadena, John

L. M. Depue, Vice President Brainerd State Bank

J. Petrabor of Cuyuna, J. P. Ernster, Sophia Ernster and S. C. Ernster of Minneapolis.

The officers of the bank are J. P. Ernster president, L. M. Depue vice president, H. E. Kundert cashier.

November 1, 1910, the deposits were \$37,389.16 and on April 25, 1913 they were \$161,343.46.

## HYDRAULIC WORK AT LITTLE RABBIT

First Work of the Kind Ever Done on Cuyuna Range is Success From the Start

### ELECTRICITY DRIVES PUMPS

Two Pumps Do as Much Work as Two Steam Shovels Can Handle With Big Crews

The first hydraulic work on the Cuyuna iron range is being successfully carried out at Little Rabbit lake about nine miles east of Brainerd, in sections 17 and 18, township 46, range 29, by the Pittsburgh Steel Ore Co.

The equipment consists of two 100 horsepower motors, each connecting with duplex pumps delivering 2,000 gallons of water per minute under 160 pounds pressure. The dirt is carried away in a large flume and then handled by a sand sucker of 3,000 gallons capacity. Electric current is furnished by the Cuyuna Range Power company.

The company is about to sink a test shaft. A concentrator, or ore washing plant will also probably be installed this season. The overburden here is about 40 feet deep and below is the ore body said to be 200 feet thick.

### DO YOU LOVE YOUR WORK?

If You Do Not, Then You Are Simply Wasting Your Efforts.

If your work is a burden, if it is drudgery to you, you have not found your place in life. If you are in the right place you will feel every faculty and function in you tugging away at your purpose with delight. Everything within you will give its consent, its approval to your choice.

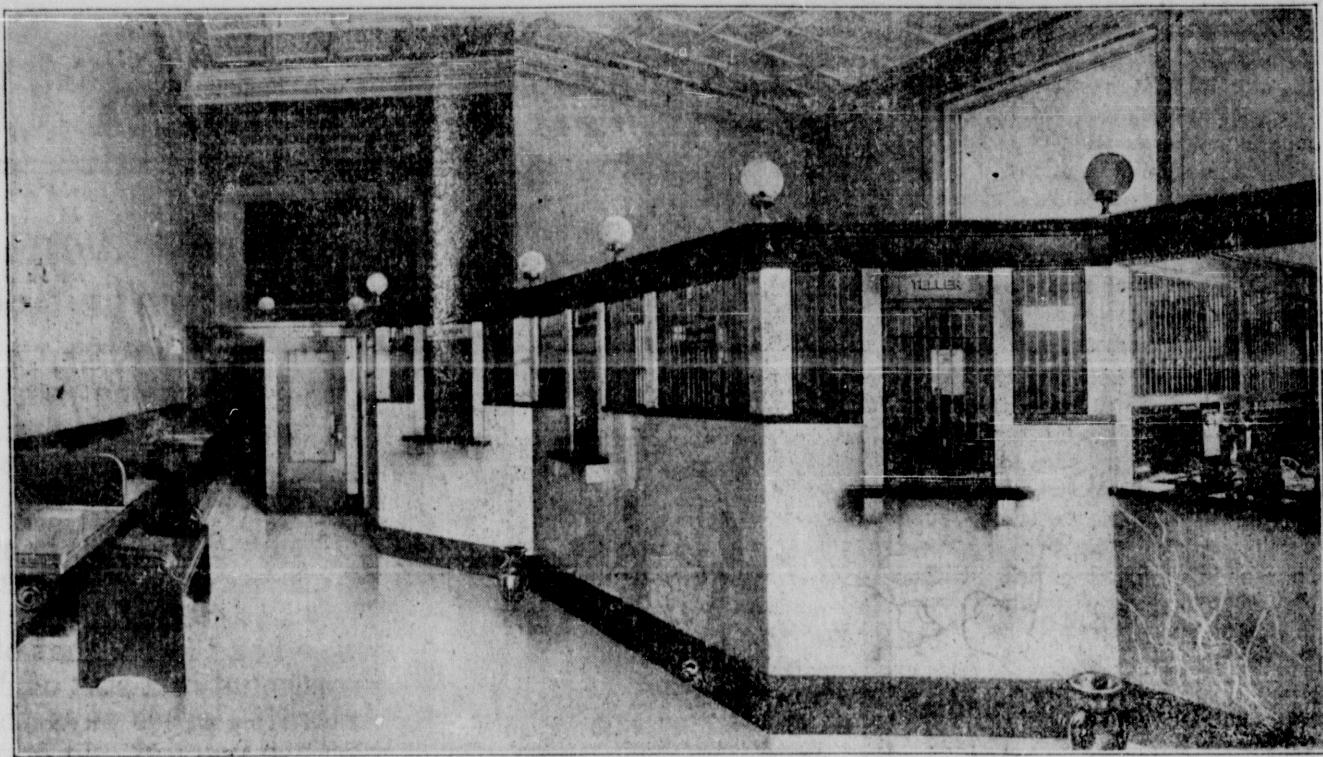

The mental attitude which we hold toward our work or our aim has everything to do with what we accomplish. If you go to your work like a slave lashed to his task and see in it only drudgery; if you work without hope, see no future in what you are doing beyond getting a bare living; if you see no light ahead, nothing but poverty, deprivation and hard work all your life; if you think that you are destined to such a hard life, you cannot expect to get anything else than that for which you look.

Every one should go to his work with the same eager spirit as the great master approaches his canvas—with his soul, led by a great longing and heart hunger, an all absorbing eagerness to transmute to the canvas the mighty picture which is consuming his soul.

If you approach your work as though it were a burden which you would gladly get rid of if you could and do it merely from a sense of duty you will continue to be a nobody in the world. That sort of spirit never lifts a man out of mediocrity.—Orison Swett Marden in Nautlius Magazine.

### Skill as Pitcher Saves Him.

Charged by a wounded deer and unable to use his rifle, which had jammed, Clark Griffith, manager of the Washington American league team, saved himself from probable serious injury by his old time skill as a pitcher. Seizing a stone the size of a baseball, he threw and struck the animal on the head, felling it. He then killed it with the butt of his gun.

Interior of the Brainerd State Bank

## STONER DAM SOON TO GENERATE POWER

Massive Concrete Structure Across Crow Wing River is About Completed

### ELECTRICITY FOR THE RANGE

Cuyuna Range Power Co. Recently Closed a Contract to Light the City of Brainerd

The great Stoner dam of the Cuyuna Range Power Co. situated on the Crow Wing river is about completed and power will soon be furnished to light with electricity the city of Brainerd and the entire Cuyuna iron range.

Viewing the massive steel and concrete dam impresses one with the enormity of the structure. The dam

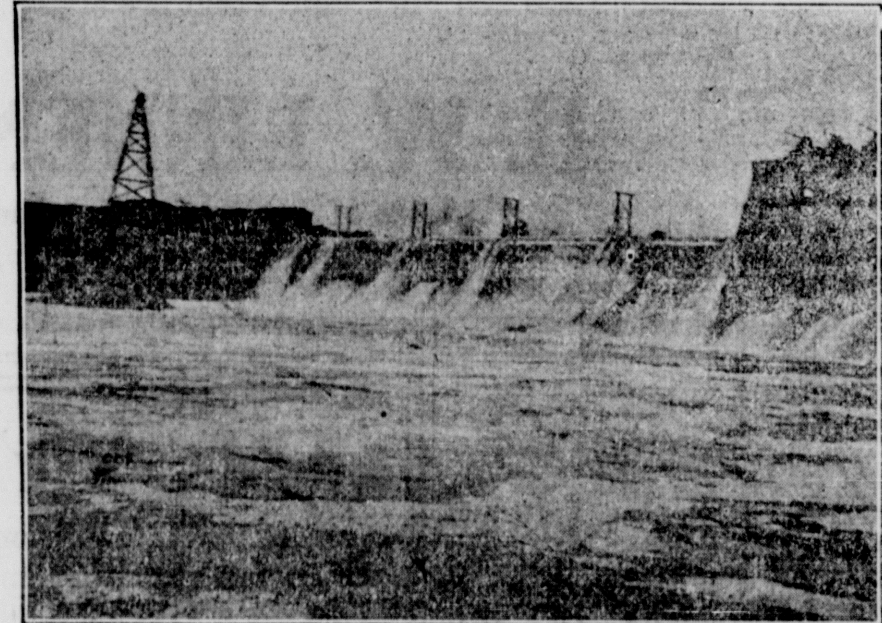

used to carry the high tension wires about the range.

The Cuyuna Range Power company of which M. D. Stoner is the president and general manager, T. H. Croswell vice president and A. W. Miller, secretary and treasurer, now lights the towns of Deerwood, Crosby, Cuyuna, Ironton and supplies power to the various mines on the range and will soon light Brainerd, Oreland and Barrows.

The Stoner company, as it is popularly called, has a steam auxiliary in Deerwood, a sub-station in Cuyuna and will establish an auxiliary in Brainerd. The general offices will soon be established in Brainerd.

In time another water power is to be established at Motley, in addition to the one now on the Crow Wing river.

All Round Man.  
"Does he belong to the 400?"  
"Yes, indeed. He's one of the chaps!"—New York Mail.

The Cuyuna Range Power Co. Dam on the Crow Wing River. First Picture of the Dam Ever Published. Photo by J. P. Saunders.

is of solid concrete and reinforced with steel and extends from one natural bank of the stream to the other, being about 450 feet long and on the main part about 25 feet above the present water level.

On the north side is the power house, a concrete building about 55 feet square and 40 feet in height. Near by is a store room where oil and extra machinery is kept.

The power is manufactured by two large turbines measuring 6 feet in diameter with a shaft running from each of them and connected with a ten foot dynamo. The dynamos have 2300 voltage each, but when connected with the transformers of which there are six, a total of 35,000 volts can be made.

A telephone line connects the plant with Brainerd and other range points. Concrete and steel poles are

### Busy Farmers

Farmers are kept busy these years trying to meet the demands for farm products made since the new towns have started.

### Manganese Ore

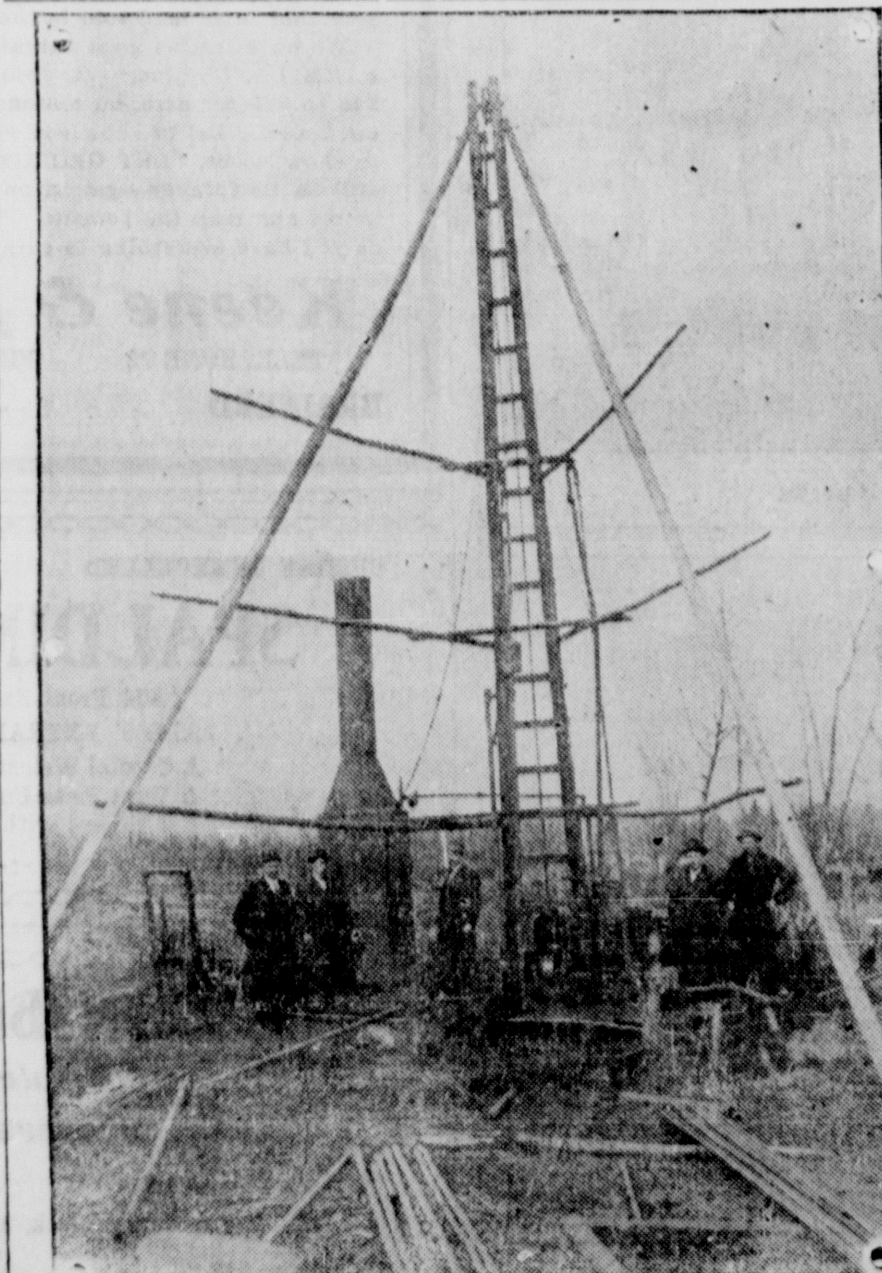

Manganese ore of a high quality is found at the Cuyuna-Mille Lacs mine, which made its initial shipment of ore on October 20, 1912.

It Came From Boston.

Mrs. Hubb—I allow my husband no latchkey. He rings, and I ask who's there. Then he says, "It's I," and I open the door.

Mrs. Kaylor—But suppose a thief should ring and say the same thing—you'd be in a fix.

Mrs. Hubb—Oh, a thief wouldn't answer, "It's I." He'd say, "It's me."—Boston Transcript.

Type of Drill Exploring the Cuyuna Range

## ORGANIZE PICKLING PLANT IN BRAINERD

W. H. Cleary the Moving Spirit in the Enterprise Assisted by Henry Davis

### DAVIS' PICKLES WIDELY KNOWN

Seed to be Furnished by Pickling Co. to Growers Within Radius of 4 Miles From City

Brainerd's dream of a pickle factory is to become a reality and W. H. Cleary is the moving spirit who will put the pep in peppers and make the enterprise a success. Associated with Mr. Cleary is a practical man in the pickle business, Henry Davis, who has had years of experience in the work and whose product, the Davis pickles, are known all over the state. In fact, Mr. Cleary's attention was first attracted to the pickles when he saw what a good seller they were.

There is no better indication of the faith men have in their county and city than when they embark in enterprises which develop home resources and this pickling plant will be the cause of making waste places and neglected acreage in Brainerd and within a radius of four miles from Brainerd, for that is the territory which will first be tapped, blossom into living, green cucumber vines.

The firm will be known as the Brainerd Pickling company. Contracts to raise cucumbers will be made with the farmers and seed sold to them. Mr. Davis will plant ten acres himself and his place will serve as a sort of demonstration farm. He has rented the Allston place on the East Oak street road and has also secured the Stafford farm.

It is expected to pack from 1,000 to 1,500 casks of pickles this year. Mr. Davis has been in the pickle business seven years. Every storekeeper in town has handled his pickles. By prudent cultivation and prompt pickling a farmer can make from \$75 to \$150 an acre on pickles. An average crop is \$100 an acre.

## LARGE TRADE AREA ADDED TO BRAINERD

Crow Wing River Bridge is Completed With Exception of Some of the Work on Approaches

### FARMERS WILL FILL IN THESE

City, Three Counties and Township Contributed to Build the Structure

By the completion of the bridge over the Crow Wing river Brainerd has annexed a large trade area. Brainerd is made closer than Fort Ripley or Pillager to a large number of farmers living southwest of Brainerd and in territory tributary to this city.

Prominent in agitating the building of the bridge, in raising money in the city for the project and in stirring up sentiment for the bridge and seeing that it was completed was the committee from the Brainerd Commercial club, Messrs. H. W. Linemann, George D. LaBar and Con O'Brien. The committee circulated petitions and raised in Brainerd some \$600 which was devoted to a preliminary survey, to the actual building and other necessary expenses.

Sharing in the expense of building the bridge with the Commercial club committee were the counties of Crow Wing, Morrison and Cass and the township of Rail Prairie.

### PRESIDENT'S SUMMER OFFICE

Government Building at Windsor, Vt., Will Be Used by Staff.

The government building at Windsor, Vt., will be used for the executive offices during the time that President Wilson spends at his summer home near Cornish, N. H.

Courtrooms on the second floor which are ordinarily used only a few days each year will be utilized by the Washington officials, and telegraph companies are making plans for branch offices in the building. There are five or six rooms available for use as private and public offices and telegraph rooms and for other purposes.

Surveyors recently began laying lines for the new Wilson road to be built from the village to the Winston Churchill estate, which is to be occupied by President Wilson. The cost of the road is to be borne by the state.

### WHOOPING COUGH.

A Highly Contagious Disease That Should Not Be Neglected.

Many persons regard whooping cough as tedious and annoying, but quite without serious importance. Unfortunately that mistake often leads to the neglect of the disease itself and the failure to isolate the patient properly. Recent statistics show that of the children under one year of age who have whooping cough one in four dies. The mortality decreases rapidly with advancing age, and at five years of age only one patient in fifty dies. Ten thousand children die of this disease every year in the United States.

Even when whooping cough does not result fatally it is still to be dreaded, for it may be followed by consumption, since the patient's powers of resistance are often greatly weakened by the violent and exhausting cough.

The disease is highly contagious, although the offending germ has not yet been discovered. Consequently the mother or the nurse of a child with whooping cough ought never to take it into public conveyances or to entertainments or send it to school or to church—anywhere, in short, where it will expose other children to the infection.

The disease begins like a simple cold in the head and rapidly goes to the chest. The cough is at first short and sharp, but gradually increases in severity and occurs in paroxysms. At the end of one of these attacks the air is pumped completely out of the lungs and the child feels that he must take a deep breath at once. But now a spasm of the larynx occurs, and only a small opening is left for the air to enter. Through this opening the child draws his eager breath and thus makes the peculiar noise of "whoop" that gives the disease its name.

Often vomiting follows a severe attack of coughing, and sometimes there is nosebleed or hemorrhage from the throat or into the eyes.

Never neglect the treatment of whooping cough. At present we know of no cure for the disease, but the child should always be under the care of a physician, who can do much to mitigate the severity of the cough and to prevent serious complications.—Youth's Companion.

## NORTH MINNESOTA WELL ADVERTISED

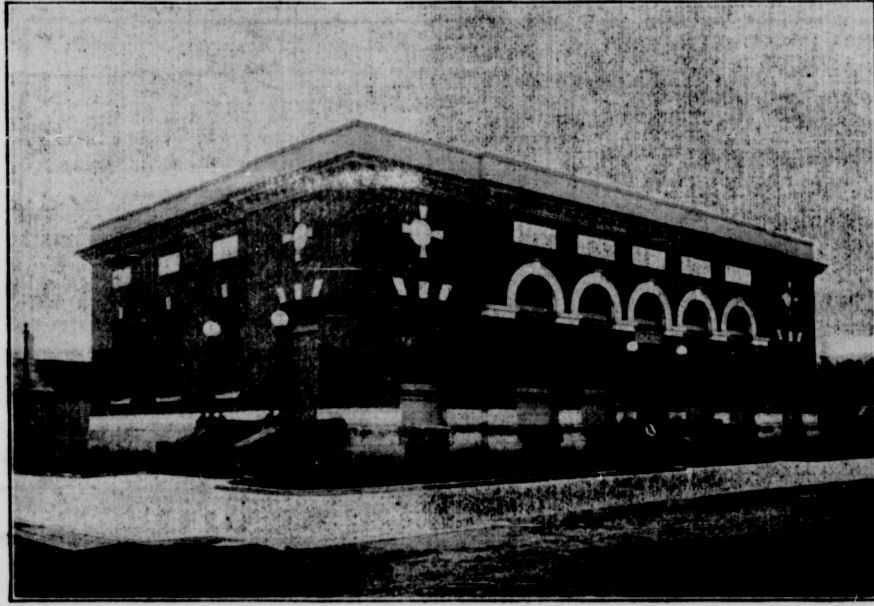

Northern Pacific and Minnesota & International Railways Issue  
50 Page Booklet Giving

### ITS AGRICULTURAL RESOURCES

Cover and Contents Embellished With  
Many Scenes from Crow  
Wing County

The Northern Pacific and the Minnesota & International railways have recently issued a 50 page booklet devoted to Northern Minnesota and describing the agricultural resources of this section of the state.

The cover and many of the pages are embellished with scenes from Crow Wing county. The cover is printed in two colors and on the first page of the cover design is a large picture of two haystacks carrying heavy loads of the new mown hay. This and many of the other Crow Wing county pictures mentioned were taken by the photographer engaged by the Brainerd Commercial club to illustrate its booklet boosting Crow Wing county. Smaller pictures above show the silo on James M. Elder's

Brainerd's Handsome Postoffice

farm southeast of the city and cattle grazing on the O'Brien farm. On the back page of the cover is a large view of Fred H. Gruenhagen's farm on the south 13th street road. It shows plainly his new silo and barn, the residence and other buildings, windmill, etc. Above and below are smaller pictures revealing views of farm life, the tail end picture a bunch of porkers feeding at a trough.

Studying the pages of this publication makes a man proud of his home state. And place one of these books in the hands of a tenant farmer of Iowa, Illinois or Wisconsin and he will come forthwith to Minnesota. Reviewing the pages of this booklet brings back the breath of the new mown hay, the scenes of planting, and threshing and harvesting. Show that book to the man in a stuffy office chained to his desk and it will be a powerful stimulant to start the "back to the farm" movement.

Of interest are the personal experiences of Minnesota farmers detailed in letters addressed to Mr. J. L. Bricker general immigration agent of the Northern Pacific railway.

W. B. Jones of Sylvan whose farm is a few miles west of Brainerd along the Northern Pacific railway in his communication dated October 21, 1912, says: "Oats this year have yielded from 30 to 60 bushels an acre; clover seed 3 bushels an acre; potatoes 200 bushels; flax 14 bushels; wheat 25 bushels; corn 40 bushels; onions 500 bushels; hay a ton and a half an acre. Land prices are advancing very fast and land has doubled in value here in the last ten years. Population is increasing the valuation of stock and land; there are double the number of children going to school in Cass county than were five years ago."

We have a new creamery, built in May, which has all it can do to take care of the cream. If settlers keep coming the land will double in price in the next five years. This is a good healthful country, with plenty of pure water and all kinds of fish and game. We have a good class of new settlers, who are pleased with the country and are bringing their old neighbors here to buy more land. It will not be long before our lands will sell for \$40 or \$50 an acre."

### A PUBLIC MARKET

Idea Has Been Favored by the Boosters Club of Brainerd—Sentiment Favors It

The Boosters club of Brainerd has publicly favored the establishment of a public market in Brainerd as something which would benefit the farmers and the city residents. Public markets have been successful in Dubuque, Iowa; Indianapolis, Ind., and many other cities.

During the past months the idea has been thoroughly discussed by the farmers and sentiment may soon crystallize in the establishment of such a convenience.

### Discharging the Cook.

"Well, cook's gone at last, John," said Mrs. B.

"Good. You must have had more courage than I gave you credit for to discharge her."

"I didn't do it. She discharged herself. I flattered her so about her cooking that she thought she was too good to stay with us, and off she went."—Exchange.

## THE FARMERS' UNION

Association Formed by the Farmers of Crow Wing County Primarily to Raise Potatoes

The Farmers Union was primarily formed to secure uniformity in the growing of potatoes and the club was first known as a potato club. Later other activities engaged the attention of the members. Their meetings have been held at the Brainerd Commercial club rooms, and the fact of their meeting in that place shows the attention the Commercial club is taking in the promotion of good farming ideas.

The officers of the club are: President—Fred H. Gruenhagen. Vice President—T. C. Pointon. Secretary-Treasurer—Henry Bouck. The club has 64 members. By agreement, the farmers will raise Early Ohio, Carman and Burbanks this spring.

### A Woman's Question.

"One of the doctors says a woman can keep well by doing her own housework."

"Yes, but how, if she does that, can she keep her hands fit to be seen by her friends?"—Chicago Record-Herald.

## LONG LAKE MUTUAL FIRE INSURANCE CO.

The Company is Composed of Prosperous Farmers of Crow Wing County

### ANTON WEBER IS PRESIDENT

Henry M. Bouck, Secretary—Losses of \$1420 Were Paid During the Past Year

The Long Lake Mutual Fire Insurance company is composed of prosperous farmers of Crow Wing county. The directors are C. H. Clute, of Fort Ripley; A. H. Holst, George S. McCulloch of Oak Lawn, Anton Weber, Henry M. Bouck, K. J. Nesheim, P. S. Taylor, of Long Lake, Nels G. Olson of Maple Grove, George Frutt of Daggett Brook. The officers are: President—Anton Weber. Vice President—George S. McCulloch.

Secretary—Henry M. Bouck. Treasurer—John A. Sandgren.

The company paid \$1420 in losses in 1912. The balance on hand December 31, 1912, was \$849.68. The company is in excellent financial shape and able to pay losses as soon as adjusted.

### PRESENT TERMINUS OF SOO

Soo to be Built West to Hydraulic Mine at Little Rabbit Lake East of Brainerd

About nine miles east of Brainerd is the present definite terminus of the Soo Line, whose engineers have however been surveying westerly towards Brainerd.

Connections will be made between Brainerd and Riverton by a launch service to be installed on the Mississippi river, carrying passengers and freight.

Steamers and launches now plying on Rice lake at Brainerd will be able to make the trip eight or nine miles up the river and it is believed through the stream connecting Little Rabbit with the river.

As an excursion route and also probably as a freight and passenger line the river will offer many opportunities to the enterprising launch and boat men of Brainerd. Serpentine lake at Deerwood offers water communication with Crosby and enables Crosby people to take the Northern Pacific trains at Deerwood. In the same manner the Mississippi will connect Brainerd with the Soo, until such time when the Soo as it is fully believed, builds its way into Brainerd.

### PICTURE SIGNATURES.

Difficult to Find Sometimes and Not Always Reliable.

Many of the works of the old masters are not signed. Experts rarely rely on signatures alone in determining the authenticity of an old work, but trust rather to their knowledge of the painter's technique.

False signatures can be easily detected. Spirits of wine or turpentine will usually remove a name of later date than the painting. In the course of time signatures often become very difficult to find. Painted originally in a shade slightly lighter than the ground, perhaps, they sink in, darken and merge into the ground color or they are almost rubbed away by successive cleanings. Recognizable one day in a specially favorable light, they may not be visible again for weeks.

Experts speak of "will-o'-the-wisp" signatures, and many collectors have encountered accidental strokes and cracks that tantalizingly suggest a signature, though it can never be made definite. On the other hand, there have been remarkable cases of such marks, after careful study, resolving themselves into a famous name.

Sometimes the painter's name is most conspicuous—as, for instance, in Raphael's "Sposalizio" at Milan. Proud of having surpassed his master, the youthful genius wrote on a frieze in the very center of the canvas "Raphael Urbino."

Reynolds hardly ever signed his work. But upon the completion of the portrait of Mrs. Siddons as the "Tragic Muse" he wrote his name large on the gold embroidery of her dress. He was unable, he said, "to resist the temptation of sending my name to posterity on the hem of your garment."

With reference to unsigned paintings there is told in Germany an amusing story. Achenbach, the German artist, enjoyed a vogue about ten years ago. A certain collector had bought from an art dealer a marine represented as a genuine Achenbach. Afterward it was pronounced to be a copy. The buyer brought an action against the dealer, who turned the tables by declaring that his picture was genuine and the other was a copy.

Achenbach himself was summoned by the court to tell which was which. Amazed at the similarity of the two paintings, the artist gazed at them for a long time, inspected them closely front and back and then frankly admitted that he could not tell which was the original and which the copy.—Harper's Weekly.

### WILL HELP FARMERS TO SELL.

New Federal Bureau to Develop Methods of Marketing Farm Products.

Dr. Thomas N. Carver of Harvard university has been appointed by Secretary Houston to take charge of the proposed rural organization service, a new branch of the department of agriculture intended to aid the farmer along economic, social and co-operative buying and selling lines.

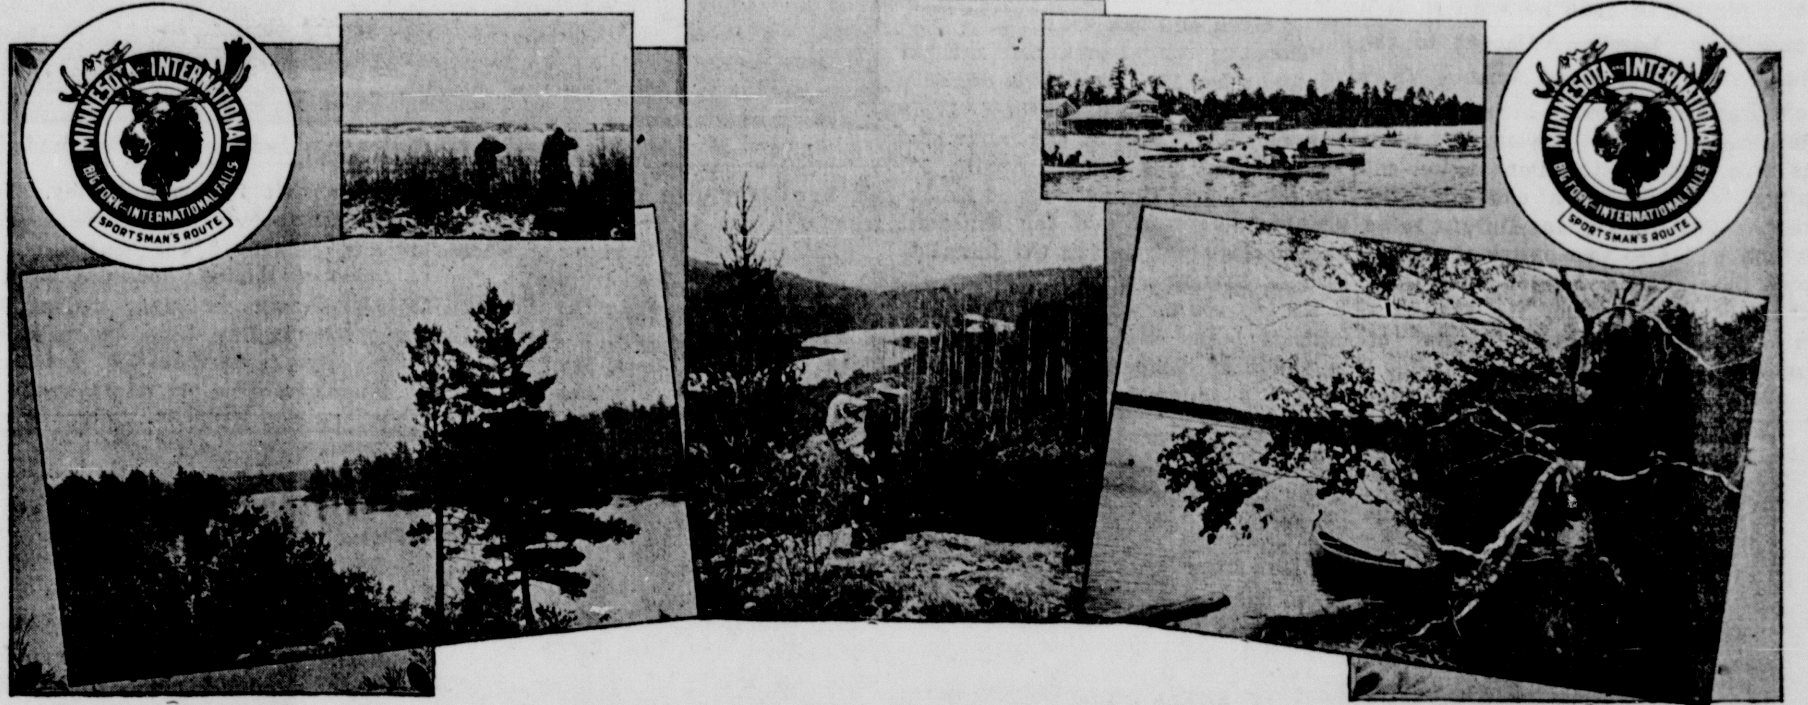

The efforts of the service will be directed toward teaching the farmer how to market his products to better advantage. The work of the department in the past has been largely addressed to questions of production, rather than to buying, selling and the social problems of farm life.

# NORTHERN MINNESOTA

As reached by the lines of the

## Minnesota & International and Big Fork & International Falls Railway Companies

is a land of wonderful possibilities. It contains the largest body of homestead lands yet remaining in the United States within the humid belt; is rich with vegetable accumulations of centuries, and is pronounced by agricultural experts as the ideal dairy region.

Settlers are just beginning to realize what a splendid opportunity there is to acquire homes in this rich territory at comparatively small cost and they are now beginning to come to Northern Minnesota in large numbers.

The railroads are encouraging farmers in the direction of scientific agriculture by establishing five acre farm plots for which they furnish seed and instructions free, and pay the farmer a bonus for cultivating them according to directions.

Good land can be found in the vicinity of the towns of Pequot, Pine River, Backus, Guthrie, Bemidji, Blackduck, Kelliher, Northome, Big Falls, Littlefork and International Falls.

Train service is such that the markets of Duluth, Superior, St. Paul and Minneapolis are accessible for the produce of the farm so that the transportation problem for the settler is solved.

The Northern Pacific and Minnesota & International railway companies have just published an illustrated booklet on Northern Minnesota. For a free copy of this booklet, and of that entitled "Minnesota Lakes," describing the beautiful outing territory served by these lines, send your address to

**W. H. GEMMELL, General Manager, M. & I. Ry., Brainerd, Minn.**

## FARMERS FORM A CREAMERY COMPANY

Pequot Incorporators are Messrs. Schrader, Johnson, Thurlow, Anderson, Fulton and Mathison

IS CAPITALIZED AT \$2,000

Ludwig Mathison is First President and Olaf Olson the Secretary of the Corporation

The Farmers Cooperative Creamery association has been formed by Pequot men for the purpose of buying and selling, manufacturing and dealing in milk, cream, ice cream, butter and cheese.

The incorporators are F. G. Schrader, E. W. Johnson, J. G. Thurlow, Ray Anderson, J. B. Fulton and L. Mathison. The five directors, president, vice-president, secretary and treasurer are to be elected annually the last Tuesday in March.

The capital stock is \$2,000, there being 200 shares at \$10 each. The highest amount of indebtedness allowed is \$2,000 and no shareholder shall be liable for more than the shares he holds at \$10 each.

The first officers are: President—Ludwig Mathison. Vice-President—J. G. Thurlow. Secretary—Olaf Olson. Treasurer—W. H. Cloud. Directors—J. P. Bakken, O. T. Olson, A. T. Kimball, Frank Murray and W. E. Barnard.

### BROKE UP THE GAMES.

Charley's Antics With His "Bread an' Butter an' Sugar On."

Charley was a nice husky boy, but he had one serious fault, which I deem it my duty to mention, although it was perhaps a natural symptom of real boyhood. In the middle of an exciting game of woolly-woolly-wolf, three-old-aid, nibs or shiny he would slip away home, to return presently with a perfectly paralyzing slice of bread an' butter an' sugar on.

Now, if you were ever a boy yourself you'll agree that Charley was very immoral to behave that way. The effect was always disastrous. The game would come to an immediate halt, while every kid in the bunch gazed longingly at Charley's lunch, each of us ruminating silently on the wisdom of a combined attack, since none of us would for a moment think of trying to share the tempting tidbit single handed. And that, too, you will say was natural enough if you've been a boy.

But the particular reason why Charley's offense was immoral was the way he carried his bread an' butter an' sugar on. He didn't hold it in the grasp of his hand like other boys; he elevated it daintily on the tips of his fingers and thumb, just as a waiter carries a tray. That, I say, was immoral. And he ate around it in concentric circles, ever approaching the supreme saccharine pinnacle of palatability at the geographical center of the slice. But long before he had circumscribed his luncheon the first time most of us would be scampering for home to get the nearest imitation that long suffering mother could produce.—William Brady, M. D., in Outing Magazine.

### Corrects Municipal Grammar.

Irritated by the ungrammatical form of "Go Slow" signs posted as warnings to automobilists, the West Orange Improvement league of West Orange, N. J., recently asked the town council to change the signs to "Go Slowly."

### THE FIELD OF VISION.

Even Persons With Normal Eyes Are Partially Color Blind.

The various tests for color blindness have come into practical use in the examination of railroad engineers and the like, where the ability to distinguish colors is necessary, so that these tests are no longer peculiar to the laboratory. But it is not generally known outside the laboratory that everybody is partially color blind—that is, in certain parts of the field of vision.

The most normal individual can see all the colors only when he looks directly at them. If looked at from an angle of about fifteen degrees red and green can no longer be seen, but in their places will appear shades of yellow or blue. This region of the eye is known as the yellow-blue zone. If the color be moved still farther to the side the yellow and blue will disappear and only gray can be seen. This region is known as the zone of complete color blindness.

An interesting theory in regard to these zones is that every normal eye represents three stages of evolution. The zone of complete color blindness is the lowest stage and appears in such animals as the frog, whose vision is known as shadow vision. The blue-yellow zone is one step higher in the scale, although not clearly marked off in the animal kingdom. And the appearance of the red-green zone marks the highest stage of evolution. Cases of color blindness are, according to this theory, a lack of development beyond the early stage in the individual life.—Professor Poffenberger in Strand Magazine.

### A Slur.

"See, I am familiar with your music," remarked the amateur at the musicale the other evening. "It seems so," replied the popular composer. "You are taking liberties with it."—Magazine of Fun.

# IRONTON, WHERE THE MINES ARE

Town is Growing Rapidly and is Developing Into One of the Best Places on the Range

A MINE ON THE TOWNSITE  
Ed. Syverson Very Successful in Handling Smith's and West Park Additions

The town of Ironton was originally platted in 1910 by John H. Hill and E. A. Lamb. Adjacent to the big Armour No. 1 and Armour No. 2 underground mines, which will be large shippers this season, the town is also close to the Pennington pit mine. On the north end of the townsite is the Cuyuna-Duluth mine which will also soon enter the shipping lists. Farther north is the Cuyuna-Mille Lacs mine. In fact, six mines are within easy access of Ironton.

With so much mining being car-

ried on right in the town and on its very borders, there can be no question as to the permanency of Ironton. It is there to stay and it is the kind of a town which offers permanent employment to people.

One of the prominent real estate men of the town is Ed. Syverson. He was the first resident of Ironton, the first man to erect a building there and the first man to engage in business in Ironton. Possessed of a large acquaintance, affable and accommodating, Mr. Syverson is an expert when it comes to handling large sections of business and residence property.

When Ira W. Smith platted his two subdivisions adjoining Ironton to the east he decided that Mr. Syverson, showed the necessary hustle and spirit to attract people to town and to purchase lots in these subdivisions. And he was not mistaken in his surmise.

By a skillful campaign of advertising and by personal appeal Mr. Syverson soon sold a large number of lots. When men bought residence

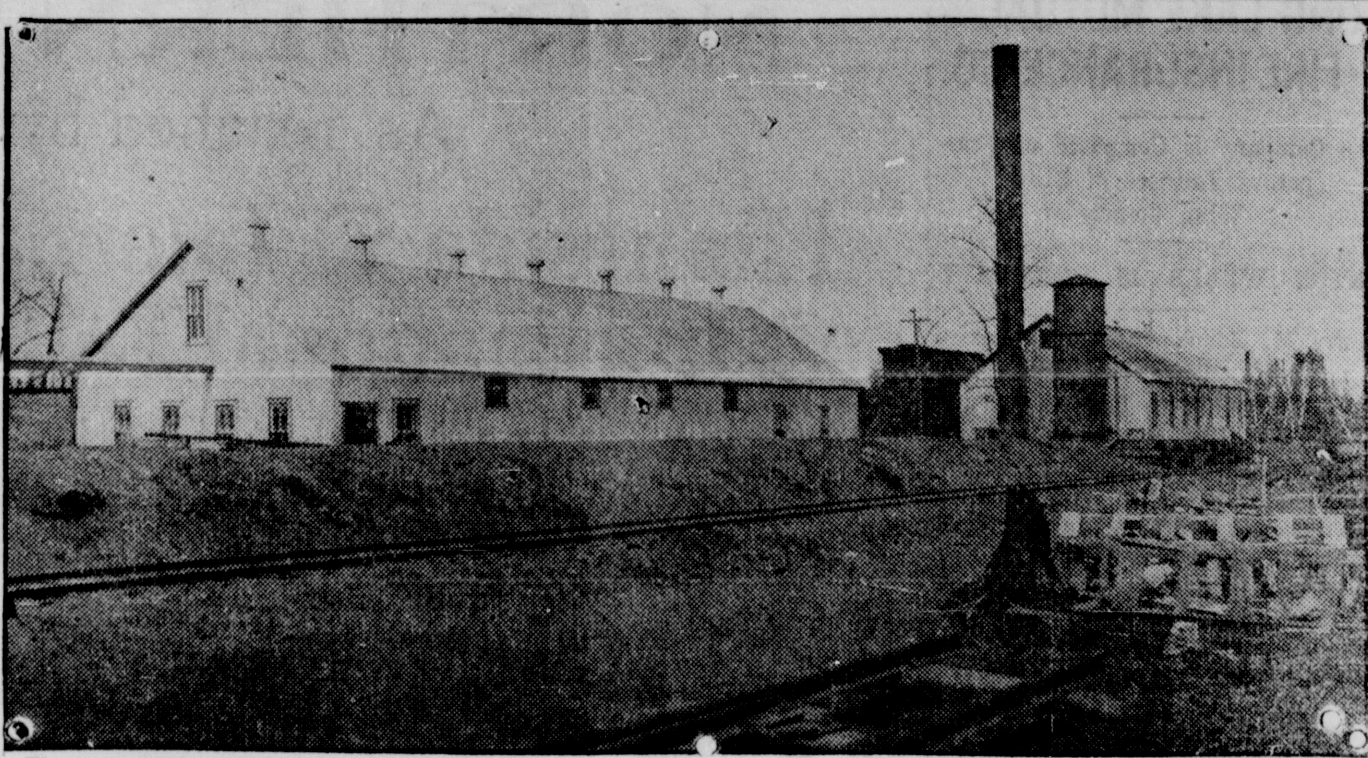

lots, they bought them to make homes thereon and not for speculation. Business men bought lots for the purpose of erecting thereon structures in which to carry on business enterprises.

The two additions are within a few minutes walking distance of six large mines on the range and within a short distance of both Crosby and Ironton schools.

All the residence lots are covered with beautiful shade trees such as pine, birch and oak trees.

The Cuyuna Northern railway company has just located its depot in Ironton and the first passenger train service to this part of the range was inaugurated this week, April 27. Largely due to the activity of Brainerd business men and the Brainerd Commercial club is due the installation of this fine service.

Mr. Syverson, who sells farm and mineral lands and writes insurance in the best companies, last week made the following sales in West

Thompson Mine of the Inland Steel C company, Between Ironton and Crosby Will Ship This Season

all fine structures ranging in value from \$700 to \$1,500 each.

Charles Johnson is building a home on lot 21, block 12 of Ironton.

Joe and John Stanich, formerly of Virginia, are building a business block on lot 22, block 7 of Ironton and will enter the clothing business.

from a visit in Twin Valley. Her mother was sick several weeks and is now regaining her health.

Celestin Maheu, foreman of the Rogers-Brown Ore Co., visited his property on Bay lake which he recently purchased from Ed. Syverson. A tenant is to be placed on the land

## SPINA TO SOON ERECT HOTEL

Two-Story \$35,000 Hotel to be Built Corner Ironton Ave. and Fourth Street in Ironton

## NEW RAILWAY DEPOT LOCATED

Recent Strike of the Underground Miners Had no Effect on Ironton Business

Ironton, Minn., April 26—John H. Hill, one of the founders of Ironton, returned Wednesday night from an all winter trip throughout the south and the southwest. Mr. Hill comes back greatly improved in health.

Peter Spina will soon commence the erection of his two-story, 28 room hotel, to cost about \$35,000 and located on the corner of Ironton avenue and Fourth street.

John E. Mattson has platted a sixty acre addition to the west of Ironton. This land was thoroughly drilled by the Interstate Exploration company to see if mineral was on the land. It is the plan to have the new plat make connection with Ironton streets from Second to Sixth streets.

Henry Lefko, of Crosby, has a

branch store in Ironton and is doing a good business there.

The recent strike of the underground miners affected Ironton but very little. The big pit mine of the Pennington worked on full blast, and the Cuyuna-Mille Lacs and Cuyuna-Duluth mines were not affected. Drill work and other explorations continued unabated.

Brush and grass fires have caused trouble about the village and recent rains have done much to put an end to them.

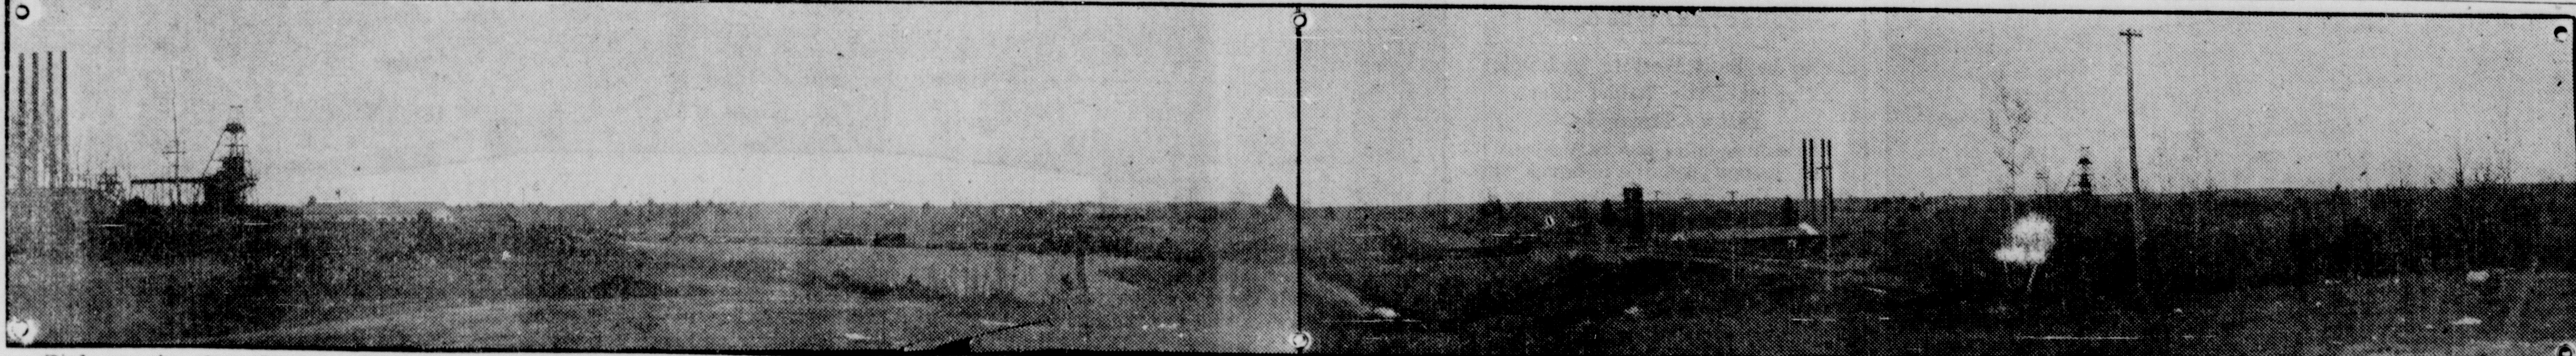

P. J. Long was at Duluth last week attending to business matters.

Philip Ellingson, M. B. Ellingson of the First State bank of Ironton and Frank Patrick have bought automobiles.

A three coach special carrying officials of the Northern Pacific railway arrived in the town Wednesday and definitely decided on the location of the depot in Ironton.

Ironton will soon rejoice in train service, the installation of which in great measure was secured by the efforts of Brainerd business men who worked hard for a train to the Cuyuna range.

Contractor C. B. Rowley, of Brainerd, has the contract bricking in two large boilers for the Cuyuna-Duluth mine.

Park and Smith's additions really to Oscar Asleson, G. A. Anderson, Martin Abrahamson, John E. Blom, John Butarac, Joe Batarac, Fred Hurtz, Knute J. Jacobson, Wester Kangas, Nestor Lindeman, Oskor Lindeman, Charles Lillegwig, Raymond F. Meager, Gust Norlander, George Perpic, John Rademacher, George Viikale, Joe Brisk, Thomas Borick, Otrad Dubrijevich, Anton Dolosich, Elija Evanovitz, Erling Herstad, Anton Ludowski, Stanislaus Ludowski, Matt Kochever, John Merhar, Benjamin Milender, Peter Obradvich, Mike Pinich, Nick Povlich and Anton Seipel.

Residences under construction in West Park addition are: Joseph Briski residence on lot 9, block 13; Carlo Burcar on lot 7, block 17; Anton Dolosich on lot 14, block 5; Elija Evanovitz, lot 14, block 12; Erling Herstad, lot 1, block 15; Anton Ludowski, lot 13 block 5; Matt Kochever, lot 2, block 14; Benjamin Milender, lot 14, block 9; Mike Panich, lot 3, block 10; Anton Seipel, lots 17 and 18, block 5. These are

Isaac Frazer, of Brainerd, a new resident of Ironton, is putting up a fine two story residence in West Park addition.

C. H. Shanahan, of Chisholm, is building a large rooming house on lot 8, block 17, of West Park addition.

Officials of the Northern Pacific railway have decided that the Cuyuna Northern depot is to be on the east side of block 15 of Winona avenue in Ironton.

I. W. Smith has returned from a trip to Wisconsin and on Wednesday was at Ironton consulting with his agent, Ed. Syverson.

Peter Spina has moved his saloon from the Mattson property to his new location in Ironton.

John Bergren has sold his home, one of the first residences erected in Ironton, to Manni Anderson.

Mike Rajachec is building a house on lot 3, block 2 in Ironton. The structure is to cost \$2,000.

Mrs. Bertha Edstrom, of Aitkin, now gives piano lessons in Ironton. Mrs. Ed. Syverson has returned

and berry culture will be carried on, as Mr. Maheu anticipates becoming a member of the Bay Lake Fruit Growers association.

Howard Olts was at Duluth during the week.

**Deepest Hole**  
1010 feet is the depth of the deepest hole drilled on the Cuyuna range. It is a 60 degree hole put down by the C. M. Hill Lumber company in section 10, township 46, range 28. Cole & McDonald had the drill contract.

Deep holes have also been sunk by the E. J. Longyear company of Minneapolis of which company P. W. Donovan, of Brainerd, is the Cuyuna range superintendent.

**First Hole Drilled**  
Cuyler Adams, of Deerwood, and his associates drilled the first hole in the Cuyuna range district. He also built the Cuyuna Iron Range railroad which was taken over by the Soo Line.

1912. It has a capital of \$10,000 and a surplus of \$2,000. Its stockholders include prominent men of St. Paul, Ironton and the range and other points.

The bank occupies its own building two stories in height and being 24 by 46 feet in size.

The officers of the bank are: President H. Thorson of Drake, N. D.; vice president, Marcus B. Ellingson, of Ironton; assistant cashier, H. A. Arneson of Ironton. The directors are H. Thorson of Drake, N. D.; J. E. Mattson of Ironton; H. Sampson of Elbow Lake, N. D.; Capt. A. G. Anderson of Crosby; M. B. Ellingson of Ironton.

**40 Mines in County**  
Crow Wing county will have at least 40 mines judging by the number of mineable deposits now developed.

**Royalties Paid**  
Royalties now being paid range from 10 cents up to 55 cents a ton.

## BRYAN'S MISSION SEEMS FAILURE

California Legislators Favor an Alien Land Law.

SENDS MESSAGE TO WILSON

Secretary of State Telegrams President Regarding Results of His Interview and Is Awaiting a Reply Before Again Confering With Californians—Governor Johnson Defends Right of State in the Premises.

Sacramento, Cal., April 29.—Conferences between Secretary of State Bryan and Governor Johnson and the members of the California legislature over proposed anti-alien land laws ended with the conferences adjourned to await replies to messages sent to Washington by Mr. Bryan.

The impression prevailed here, when the conference adjourned, that the resolve of the majority leaders, previously announced, to enact a bill specifically debaring aliens ineligible to citizenship from owning land in California remained unchanged, although Mr. Bryan, as the personal representative of President Wilson, advised strongly against such action.

Governor Johnson, in a brief, intense address to the conference, declared California's right to follow the lead of other states in framing the land bill was unquestioned and said such action now seemed assured.

"I have presented the president's views as I understand them," declared Mr. Bryan to the conference just before it adjourned. "I shall submit to him the further questions you have asked me, calling attention to the statutes of Washington and Arizona, and I shall give you his answer."

Questions Puzzle Bryan.

Question after question was hurled at Secretary Bryan, who admitted his inability to answer many of them. Toward the close of the meeting he arose and said:

"I have said all that I came to say. I have answered all of the questions that have been asked and my mission here is ended, whenever you may feel that you have conferred as much as you like with the representative of the president."

"I came with no program, simply to confer. I have communicated to him several propositions, after listening to what you have had to say."

Much of the debate hinged upon whether California should be questioned in passing a law similar to those previously enacted by the legislatures of Washington and Arizona, in which states aliens ineligible to citizenship are barred.

Senator Boynton called attention to the wording of the Arizona law, asking Secretary Bryan what would be the effect upon the national government if California placed a similar restriction upon her land.

"I am not prepared to answer that question," replied Secretary Bryan, "but will have to ask for instructions from Washington."

Governor Johnson then spoke in defense of the position taken by the majority party in California. When Governor Johnson took his seat there was a general feeling that the alien land situation had been settled, regardless of what may be forthcoming from Washington.

Checked on Point of Order.

Senator Caminetti attempted to make a heated attack upon Governor Johnson, whom he criticized for not favoring the land bill two years ago, but was checked on a point of order, and the conference adjourned immediately. It is to meet again at the call of the presiding officers of both houses, whenever Secretary Bryan shall indicate that he had received further information from Washington.

Secretary Bryan refused to give any inkling of his message to any one and even at the conference he spoke only after legislators had explained fully the public demand for alien land legislation that brought about the present situation.

Those who expected Secretary Bryan to expound anew the theory of states' rights were disappointed, as were those who expected predictions of war. Advice in the name of President Wilson was all Mr. Bryan had to offer and the paramount question here is whether such advice will overcome the previously announced determination of the progressive Republican majority to enact an anti-alien land holding law along lines already agreed upon.

Secretary Bryan reaffirmed the state's right to act in a manner it saw fit, but suggested several other courses than the passage of a bill restricting aliens "ineligible to citizenship," basing his reasons on the broad foundation of public policy.

## VIRGINIA MINE STRIKE ENDS

One-third of Strikers Are Already at Work.

Charleston, W. Va., April 29.—One-third of the striking miners of the Paint and Cabin creek districts returned to work after a year's absence and many others are expected to resume their positions.

The prolonged strike, which has caused much rioting, bloodshed and three proclamations of martial law, is believed to be at an end.

## CONGRESSMAN KELLY.

Pennsylvanian Has Bill for Old Age Pension.

## OLD AGE PENSION BILL IN

Provides for All Over Sixty-five Years, According to Age.

Washington, April 29.—The progressive old age pension bill to provide \$1 to \$4 a week for all those more than sixty-five years old, whose incomes are under \$10 a week, was introduced by Representative Kelly of Pennsylvania.

His plan would pension those with incomes of less than \$6 a week at \$4 a week, incomes of from \$6 to \$7 at \$3, between \$7 and \$8 at \$2 a week, and from \$8 to \$9 at \$1 a week.

The bill would disqualify all criminals, lunatics and inmates of almshouses and all men over sixty-five years old who, for any extended period, have failed to earn according to their ability.

## VETO CUTS \$218,000 IN APPROPRIATIONS

Minnesota Governor Strikes Out Seven Items.

St. Paul, April 29.—Governor Eberhart vetoed seven appropriations totaling \$218,000 from the general appropriations bills passed by the legislature in the last week of the session. In a statement supporting his action the governor protests against extravagant appropriations by the legislature and urges more economy in the handling of state funds.

"I do not wish to be understood as unduly criticizing the legislature," says the governor, "but the time has come when the people of the state must study the questions of state government and taxation more closely before we can enter successfully upon a period of retrenchment and economy."

The following items were stricken from the bills:

Criminal insane building for hospital at St. Peter—appropriation available in 1915, \$75,000.

One cottage for the inebriate hospital at Willmar—appropriation available in 1914, \$45,000.

One cell wing for the reformatory at St. Cloud—appropriation available in 1915, \$30,000.

Purchase of additional lands for state institutions—available for year ending July 1915, \$10,000.

The special contingent of the state treasurer for interest on temporary loans—available July 31, 1915, \$25,000.

For expenses of the drainage commission in carrying on topographical and hydrographical surveys of the water sheds of the state for the year ending July 31, 1915, \$13,000.

For the purpose of buying standing timber and lands in Itasca state park for the year ending July 31, 1915, total, \$20,000.

## VERY TINY BABY.

Mattoon, Ill., April 29.—A baby fully developed and weighing only 7 1/2 ounces, was born to Mr. and Mrs. H. Russell. The child was one of twins born to Mrs. Russell. The other one died. This child is said by physicians to be the smallest fully developed child that ever lived after birth.

## Girl Hurlled Through Window.

Chicago, April 29.—Perils of strap-hanging were illustrated here when Miss Elsie Fruga, seventeen years old, lost her hold at a curve on an elevated road and was thrown partly through a window. She was badly cut by broken glass.

## Manitoba Town Scorched.

Neeche, N. D., April 29.—Eight business houses, six residences and one elevator were destroyed at Gretna, Man., just over the boundary line, by fire. The fire started in the postoffice from some cause not definitely determined. Exact estimates of the losses were unobtainable as Gretna is cut off from wire connection, but it probably will be more than \$200,000.

## CAREERS HINGE ON TARIFF BILL

Its Passage May Bring About Changes in Next House.

## MEMBERS APPREHENSIVE.

Some Democrats Believe They Will Forfeit Their Seats by Supporting the Measure, but Most of Them Will Abide by the Decree of the Caucus Rather Than Divide Strength.

By ARTHUR W. DUNN.

Washington, April 29.—[Special.]—The political effect of the new tariff is being discussed with some apprehension on the part of Democratic members of congress. "Enough Democratic members of the house to change its political complexion," said one of the prominent members, "have stated in the caucus that the proposed bill would defeat them for re-election."

While he admitted that their statements might have something of exaggeration in them, he believed that many of them told the truth as they saw it and looked forward to certain defeat when the bill became a law with the aid of their own votes and the majority party in both houses.

## Will Take Their Medicine.

But nearly all of these Democrats will stand up and take their medicine, since the caucus has decreed what the bill shall be. They recognize that to defeat the action of the party caucus would leave the party in very bad shape and that the only thing to do is to stand for the bill which a majority has said was Democratic doctrine.

Of course they all hope that there will be no such bad effects as they fear will follow. Many of the leading Democrats say that these men are putting up the claims in hopes that the ways and means committee would alter a few schedules, but that nothing of the kind is in contemplation.

## Political Happiness.

Jim Mann and John Fitzgerald had been flinging bits of political patter back and forth, mingling their darts with expressions of high personal regard. The discussion had turned on harmony, and the recent makeup between Clark and Bryan. Mann said a lot of things about the failure of the Democrats to get together. Finally Fitzgerald said that if the Republicans could get the last president and his predecessor to settle their differences the Republicans would be pleased. "How happy you would be," he added. "How unhappy you would be," shouted Mann.

"Not Sending For Anybody."

A group of correspondents were standing about Secretary Tumulty, while he told them about President Wilson's itinerary. Finally one of them discovered a hiatus, a bit of time not provided for. "We may slip over to New York that night and see what is going on—and rest," said the secretary.

"Will the president see any one during the time?" one new man asked. "See any one?" snuffed Tumulty. "See any one? Do you suppose he can dodge them? But I'll say we're not sending for anybody to fill in the governor's time on this trip."

## And Then It Looks Different.

The average new member of congress when asked to furnish certain facts and features of interest for his biographical sketch in the Congressional Directory naturally assumes that it will read like other biographies and as if written by some other person. But 250 Washington newspaper correspondents know that the biographies are written by the men themselves and so treat them when the directory comes out. Naturally gushing self praise and little personal peculiarities are made to appear ridiculous when placed before the public as having been written for a public document by the man himself.

## White House Diplomat.

Somehow it has fallen to Tom Branhay, formerly a newspaper man, to answer telephone calls asking for appointments with President Wilson and to meet those who are seeking to occupy some of the president's time. Anybody familiar with Washington knows that every person below a big chief feels that he is doing a great duty, performing a great public service, if he can keep an applicant of any kind from an interview with the man higher up.

Branhay has developed into a wonderful diplomat along these lines. He can inform a female suffragist that every moment of the president's time is engaged for a week and get it across. He can stand off politicians and office seekers. In fact, he has become the White House diplomat.

## For the Scrap Heap.

The economy commission which has flourished and given a lot of people soft jobs for two or three years seems destined for the scrap heap. The Democratic members of the house, bent upon economy themselves, did not see how economy was to be fostered by a high salaried commission, which was seemingly bent upon overturning all existing conditions in the government departments. So they dropped it by not making any more appropriations for it. It seems almost miraculous that any commission once established could be discontinued.

## Sure Hard Luck Cure.

Some people call hard work hard luck, yet it is the surest cure for hard luck.—Deseret News.

## DUCHESS OF CONNAUGHT.

Has Relapse and Another Operation Will Take Place.

## OPERATE AGAIN ON DUCHESS

Wife of Governor General of Canada Has Relapse.

London, April 29.—A bulletin issued by the surgeons in attendance on the Duchess of Connaught, wife of the governor general of Canada, who underwent an operation for intestinal trouble on April 10, states that intestinal obstructions have recurred and another operation is necessary.

## REGARD DECISION AS FARREACHING

Lawyers Display Interest in Railway Opinion.

Washington, April 29.—The decision of the supreme court in holding the Northern Pacific Railway company liable for the debts of the Northern Pacific railroad, contracted before the reorganization of the latter company, lays down the general principle that a creditor of a corporation, not a party to its reorganization, may hold its successor for its debt.

The decision is of momentous importance, especially to railroads.

In this specific case the court, five to four, in a decision which Justice Lurton, who dissented, declared, "was alarming," held the Northern Pacific Railway company responsible for \$125,000 judgment against the Northern Pacific Railroad company, which it succeeded, despite the fact that the court expressly stated that no moral wrongdoing was to be found in the reorganization.

Corporation lawyers who heard the decision declared it was a direct blow at the practice of reorganizing corporations to get rid of onerous contracts or escape payments to unsecured creditors. Its effect, they thought, would be far-reaching.

## WIRELESS STRIKE SPREADS

Operators at Pacific Coast Stations Join Men on Ships.

Seattle, April 29.—The strike of the marine wireless operators declared last week spread to stations ashore and the development brought out a statement by R. H. Sawyer, assistant superintendent of the Pacific coast division of the Marconi Wireless Telegraph company, who said the company was considering closing all land stations in this region in order to supply operators for steamers. Commercial business between ships and shore, he said, would be handled by government stations.

Nonunion men are now at the keys at a number of the ships.

## English Aviator Killed.

London, April 29.—Lieutenant Roger Harrison of the British army aviation corps was killed while flying at Farnborough. He was attempting descent from a height of 400 feet when the elevator of his biplane collapsed.

## Charged With Killing Girl.

Atlanta, Ga., April 29.—J. M. Gantt, formerly bookkeeper for the National Pencil company, was arrested at Marietta, a suburb, charged with the murder of Mary Phagan, whose body was found in the pencil company's factory. Gantt denies all knowledge of the girl's murder.

## WIDOWS WIN COURT VICTORY

Supreme Bench Rules in Favor of Dependents.

Washington, April 29.—Widows and other relatives of deceased bankrupts won a victory in the supreme court, which held that only cash surrender value of insurance policies go to the trustee in bankruptcy for creditors and the remainder to the widows or other relatives of bankrupts.

The decision changes what was held to be the law in New Jersey and Pennsylvania and removes doubt as to the point in all the other states.

## TURMOIL AMONG BALKAN ALLIES

### DIES AS HUSBAND FIGHTS

Woman Drops Dead While Spouse Is Resenting Insult to Her.

Kenosha, Wis., April 29.—While her husband grappled in personal combat with a man who had questioned her honor Mrs. Rosa Eble, twenty-seven years old, the wife of Herman Eble, a well known man of Kenosha, dropped dead from heart disease in a corridor on the second floor of the Cream City hotel.

Only a few minutes before her death Mrs. Eble had asked her husband to resent an insult which had been offered to her by Otto Carlson, a man who lived at the hotel near the apartments occupied by the Eble family. Eble went into the corridor, met Carlson and at once started a fight. His wife, holding an infant in her arms, walked into the corridor.

"Don't fight with him, Herman," she shouted, and as she did so she fell to the floor.

### BANKER IS FINED \$10,000

Seattle Man Also Assessed \$3,000 in Costs.

Bellingham, Wash., April 29.—A fine of \$10,000 and costs amounting to approximately \$3,000 was the sentence passed upon Jacob Furth, former chairman-director of the Seattle National bank. Furth was convicted recently on a charge of having aided and abetted the W. E. Schrieffer bank of La Couver to receive deposits while insolvent.

Furth's counsel entered notice of appeal and filed an appeal bond of \$10,000, immediately procuring the release of the Seattle banker pending the outcome of the case in the higher court.

### FRIEDMANN SIGNS CONTRACT

Company to Establish Institutes to Handle His Serum.

New York, April 29.—It was announced at the apartments of Dr. Friedrich Franz Friedmann that he had signed a contract for the disposition of his tuberculosis vaccine by a company through institutes to be established in every state.

The contract, it is said, provides for the free treatment of the poor in all localities. No details of the financial end of the contract were made public.

### THROWS BOYS OVER BRIDGE

Saying No One Loves Them Mother Then Follows.

Logansport, Ind., April 29.—Mrs. Nellie Paugh, thirty-six years old, threw her two sons, Donald, twelve, and Delbert, six years of age, from a bridge into Deer creek and jumped into the stream.

The mother and the younger boy were drowned, but Donald swam to shore.

Before throwing the boys off the bridge the mother told them she was doing so because no one loved them.

### Information Wanted.

"Isolate the patient." "Yes, doctor. Where shall we put the ice?"—Baltimore American.

### GRAIN AND PROVISION PRICE

South St. Paul Live Stock.

South St. Paul, April 29.—Cattle—Steers, \$5.75@8.25; cows and heifers, \$4.50@7.35; calves, \$5.00@8.50; feed ers, \$4.30@7.75. Hogs—\$8.20@8.40. Sheep—Lambs, \$4.50@8.25; wethers, \$4.50@6.25; ewes, \$2.25@6.00.

V arrive, \$1.30 1/4.

## New War May Begin When Turkish Conflict Ends.

### SOME RUMORS OF FIGHTING

Servia, Bulgaria and Greece Liable to Become Involved in Hostilities. Large Concentrations of Opposing Troops Are in Readiness and One Writer Declares Several Battles Have Already Taken Place.

London, April 29.—A Vienna dispatch to the Chronicle says: "News has reached here that Crown Prince Danilo is marching northward with the Montenegrin army in connection with the preparations which are being made to resist an Austrian attack on Cetinje. All the heights dominating the road from Cattaro to Cetinje are being hastily equipped with heavy artillery and strong Montenegrin forces, supported by Servian troops, are taking up positions in the mountains."

London, April 29.—The mystery surrounding events in the Balkans is becoming deeper. No further news has been received of Esad Pasha's exploit in Albania and the situation at Salonki is difficult to understand. A dispatch from Salonki confirms the report that riders were given for the Bulgars to evacuate all places occupied by the Greeks, but that later these orders were countermanded and that official attempts were made to pretend they were never given.

A Bucharest dispatch to the Daily Telegraph expresses the firm conviction that immediately after peace is signed between the allies and Turkey a new war will commence between Servia, Bulgaria and Greece.

A Bulgarian correspondent says that large concentrations of opposing troops are in readiness for these new campaigns and adds that he has heard from reliable sources that considerable fighting has already occurred and that three important engagements were fought during the last week, concerning which the greatest secrecy has been maintained.

He declares fighting with heavy losses on both sides between the Bulgarians and Servians to the northeast of Monastir April 10, and fighting between the Greeks and Bulgarians for a week in the vicinity of Nigrita, Seres and Salonki.

The Daily Telegraph calls attention to the fact that, whereas a few weeks ago the Servians were endeavoring to defeat and capture David Pasha's army, these operations appear to have ceased, and suggests that the cessation of the Servian attack is connected with Esad Pasha's coup.

Apparently the ambassadors' conference in London postponed its decision until the next meeting, which is set for May 1.

### JAP INVESTIGATORS COMING

Political Parties to Probe California Situation.

Tokio, April 29.—The report that Viscount Kentaro Kaneko, privy counselor, is going to Sacramento in connection with the pending alien land ownership legislation is untrue, but the Selyukai-Constitutional-and-Kokuminto-Opposition-parties, are dispatching representatives to California to make a personal investigation of the situation.

The official view is more hopeful, owing to Secretary Bryan's mission, but public opinion still insists that the present is the most suitable moment to settle the whole American-Japanese question and thus prevent a recurrence of similar disputes.

### HOUSE ENDS TARIFF DEBATE

Final Bursts of Oratory Made to Almost Empty Benches.

Washington, April 29.—General debate on the Democratic tariff bill in the house wound up in a final outburst of oratory. Democrats lauded the measure, while alternately Republicans and Progressives attacked it.

The house, weary after a week of tariff oratory, did not produce a numerous attendance and most of the speeches were made to empty benches.

M. B. Ellingson, the energetic  
cashier of the First State Bank of  
Ironton, who speaks six languages  
and does business in ten, is in Brainerd  
attending the convention of the  
bankers. Mr. Ellingson complimented  
the Dispatch on the appearance of  
its special banking number.  
Among the bankers who have ar-  
rived to attend the convention are E.  
H. Sherwin, of Monticello; Charles  
F. Norman and G. H. Richards, of  
Minneapolis; A. E. Lindheim, G. A.  
Will, C. D. Brown, J. W. Greenman,  
C. P. Javory, R. E. McGregor, W. R.  
O'Hearn and W. E. Hauser of Minne-  
apolis.  
In the end you will come to Hinde-  
po Tablets. Why not take them at  
first. They cure all kidney ailments.  
Sold at Johnson's pharmacy.—Advt. 273  
W. E. Brockway, the Seventh street  
grocer, came near making Barney  
Oldfield's automobile record look like  
30 cents yesterday when he drove  
from Brainerd to Pillager. Some  
very fast time was made until he  
came across a sand hill three miles  
west of town and stuck there three  
or four hours.  
Beware of Ointments for Catarrh that  
Contain Mercury  
as mercury will surely destroy the sense  
of smell and completely derange the  
whole system when entering it through  
the mucous surfaces. Such articles  
should never be used except on prescrip-  
tions from reputable physicians, as the  
damage they will do is ten fold to the  
good you can possibly derive from them.  
Hall's Catarrh Cure, manufactured by F.  
J. Cheney & Co., Toledo, O., contains no  
mercury and is taken internally, acting  
directly upon the blood and mucous  
surfaces of the system. In buying Hall's  
Catarrh Cure be sure you get the genu-  
ine. It is taken internally and is made  
in Toledo, O., by F. J. Cheney & Co.  
Testimonials free. Sold by Druggists.  
Price 75c per bottle.  
Take Hall's Family Pills for constipa-  
tion.

Turning Them Away.  
A prominent New York suffragette  
detests the male flirt.  
At a luncheon in Newport a male  
flirt sneered at woman suffrage.  
"Women doesn't want a vote; she  
wants a husband," he said.  
"Nonsense!" said the suffragette.  
"It's a fact," the flirt continued. "The  
way the average woman worships man  
is amazing. Why, I myself have turned  
about fifty women's heads."  
"Away from you?" said the lady.—  
Exchange.  
**PILES CURED IN 6 TO 14 DAYS**

A Sad Fall.  
"Pop, did you hurt yourself much  
last night?"  
"Hurt myself? What on earth does  
the child mean?"  
"Why, Jimmy Smith's papa said he  
saw you fall off the water wagon."—  
Baltimore American.  
**French Cookery.**  
American (reading the menu at a res-  
taurant in Paris)—Norwegian ancho-  
vies, York ham, Frankfurt sausages,  
Dutch cheese. And this is what they  
call French cooking!—Pele Mele.  
**Success.**  
Servant (to his master, an author)—  
Sir, there are 15,000 people in the street  
who are clamoring to know what is  
going to happen in your serial tomor-  
row.—Pele Mele.  
**GUARANTEED TO STOP  
ITCHING AT ONCE**  
Eczema, Rash, Tetter, Dandruff, Dis-  
appear by Using Remarkable  
Zemo  
Buy a 25c Bottle Today and Prove it  
That itching that drives you nearly  
wild, that keeps you awake in  
agony all night long, that scalp itch-  
ing, will vanish instantly by using  
the new remedy ZEMO. It is guar-  
anteed.  
ZEMO will surprise you as it has  
thousands of others by its results on  
fiery eczema, sores, rash, tetter, blot-  
ches, inflamed or irritated skin, pim-  
ples, rawness after shaving, all skin  
afflictions, sores, blotches, and itch-  
ing scalp. It cures dandruff com-  
pletely, since dandruff is nothing but  
eczema of the scalp.  
ZEMO is wonderfully refreshing to  
the skin. It is a clean, antiseptic  
solution, not a paste, cream or oint-  
ment. The first application gives  
blessed relief. ZEMO has been imi-  
tated, but positively never equaled.  
"It is impossible for me to do jus-  
tice in recommending ZEMO, because  
words cannot express its wonderful  
achievements." R. A. Sterlin, Supt.  
Electrotype Dept., Sanders Engraving  
Co., St. Louis, Mo.  
ZEMO is sold in 25c sealed bottles  
and guaranteed in Brainerd by John-  
son's Pharmacy.—Advt.

**KANSAS VETERANS PLAN  
A LAST STATE REUNION.**  
Will Meet When Great Memorial is  
Dedicated at Topeka.

The last great state wide reunion of  
the veterans of the civil war living in  
Kansas is being planned to be held in  
Topeka probably in May or June of  
next year. The occasion will be the  
dedication of Memorial hall, a mag-  
nificent marble structure which the  
state of Kansas is building at a cost  
of almost \$500,000 in commemoration  
of the Union soldiers of 1861 and 1865.  
The hall will be finished. It is expect-  
ed, by April or May, 1914. It has  
been under construction two years,  
former President Taft having laid the  
cornerstone a year ago last September.  
"It is the idea," said Commander  
Harrison, "that all old soldiers in Kan-  
sas who are physically able to make  
the trip attend the reunion next year.  
If they cannot afford the expense we  
will find some way to bring them."  
There are probably 21,000 old sol-  
diers now living in Kansas. Death is  
thinning the ranks rapidly. The aver-  
age age of old soldiers in the state is  
seventy-three years. Thousands of  
them settled in Kansas following the  
civil war. In the later seventies, about  
fifteen years after the close of the war,  
there were 145,000 in the state.

**Pains in the Stomach**  
If you continually complain of  
pains in the stomach, your liver or  
your kidneys are out of order. Neg-  
lect may lead to dropsy, kidney trou-  
ble, diabetes or Bright's disease.  
Thousands recommend Electric Bit-  
ters as the very best stomach and  
kidney medicine made. H. T. Al-  
ston, of Raleigh, N. C., who suffered  
with pain in the stomach and back,  
writes: "My kidneys were deranged  
and my liver did not work right. I  
suffered much, but Electric Bitters  
was recommended and I improved  
from the first dose. I now feel like  
a new man." It will improve you,  
too. Only 50c and \$1.00. Recom-  
mended by H. P. Dunn.—Advt. tts

He Could Sympathize.  
The sentimental city girl was spend-  
ing a season in the country. So full  
of sentiment and so imaginative was  
she that she could hear the trees  
whisper, the bushes sigh and the  
plants sing. One day in June she was  
sitting beneath a cherry tree with sev-  
eral children, one of whom was a ten-  
year-old boy. Overhead a gentle  
breeze softly purled through the quiv-  
ering leaves.  
"Listen!" suddenly exclaimed the  
young lady. "Can't you hear this poor  
tree groaning, Johnny?"  
"No; I don't hear it groan," replied  
Johnny, assuming a listening attitude.  
"but I know how it feels to be full of  
green cherries."—New York American.

**Hindipo Tablets**  
A remedy for all kidney and blad-  
der ailments, nervous debility, that  
tired restless feeling from over  
work. Sold in 50c boxes at John-  
son's pharmacy.—Advt. 273

Needn't  
be afraid  
if anyone  
should ac-  
cidentally  
spatter  
water on the wall if it is  
covered with  
**WASHOTINT**

Washotint is a perfect, flat,  
sanitary, washable coating for  
producing on interior walls and  
ceilings, soft, beautiful tints that  
lend an artistic air to the sur-  
roundings.  
It is becoming more and more the  
fashion to tint walls in soft flat  
tones, but in getting this result use  
Washotint, which will not spot every  
time water splashes on or touches it,  
as is the case with cold water or  
kalsomine paints.  
The surface produced with Wash-  
otint is non-porous, non-absorbent  
and hard, and it is both sanitary

## SCHOOL BOARD AWARDS CONTRACT

Contract for Installation of Heating and Ventilating in Harrison School Let to

## AN EVELETH BIDDER FOR \$4430

Northern Plumbing & Heating Co. is Successful Over Five Other Contractors

The Brainerd school board, at a special meeting held last night, awarded the contract for the installation of the heating and ventilating plant in the Harrison school to the Northern Plumbing & Heating Co., of Eveleth, which bid \$4430.

The other bidders were L. W. Sherlund and the Slipp-Gruenhagen Co., of Brainerd; George R. Morton of St. Paul, the Tungstead Heating Co. of Minneapolis, William G. Gausewitz of Crosby.

The members of the board were present with the exception of Howard Baker.

## RAISING RADISHES

Rev. E. E. Satterlee Has a Plot of These Succulent Vegetables Now Two Inches High

Crow Wing county soil is the most fertile in the world and the climate is unexcelled. When you combine the two as Crow Wing county does, it is no wonder that assiduous cultivation on the part of Rev. Elbert E. Satterlee, the Methodist minister, has produced radishes, which plants now stand fully two inches high in his garden.

As Rev. Satterlee prepares his sermons, his eyes wander from his study window to the bunch of waving radishes in the back yard and he realizes that there is nothing like a little garden to bring a man face to face with the wonderful evolution which mother Nature fosters in the spring time, and he finds materials for whole sermons in the soil.

## THE BANKERS SPECIAL

Eight Page Edition Accompanies the Daily of Today, Also Part of Weekly Friday

An eight page edition, "The Bankers Special" accompanies the Daily Dispatch of today and will also be a part of the Weekly Dispatch of May 2. The bankers association will take with them several hundred copies and on the whole Brainerd and Crow Wing count will be well advertised. Thanks are due the banks of the city, the business men of Brainerd and the county and the Minnesota & International railway, who through their patronage have made this edition possible.

## CANNOT LOCATE RELATIVES HERE

Chief George A. Ridley has given the Dispatch the following telegram received from Idaho and asks the cooperation of Brainerd people to trace Gust Anderson's relatives, if any reside in Brainerd. Information may be telephoned the Dispatch. The message reads:

Fernwood, Idaho—Man killed here last week, name Gust Anderson, age 32, weight 160 pounds, height five feet ten inches, had light complexion and was by occupation a woodsman. We understand his relatives live in your town. The body is at the undertakers in St. Maries, Idaho and it cannot be held longer than Tuesday. Wire at once if his relatives can be located.

Blakemill Lumber Co.

## McKINLEY MILL TO START SAWING

1,500,000 Feet of Deadheads to be Cut Here Instead of at Minneapolis

## GEO. ADCOCK TO RUN THE MILL

L. M. Dupue Instrumental in Having the Cutting Done in Brainerd

Geo. Adcock, of Brainerd, has secured from the Parker-Kellogg Lumber company, of Minneapolis, the contract of cutting 1,500,000 feet of deadheads decked above the dam and taken from the water by the Mississippi & Rum River Boom company.

The McKinley mill will be used to saw them up. L. M. Dupue, vice president of the Brainerd State bank, was instrumental in getting the contract for Mr. Adcock and having the work done in Brainerd instead of Minneapolis and so employment is given to a crew of 20 men for a month or more and \$20,000 business is handled in Brainerd instead of the Mill City.

## Coughs and Consumption

Coughs and colds, when neglected always lead to serious trouble of the lungs. The wisest thing to do when you have a cold that troubles you is to get a bottle of Dr. King's New Discovery. You will get relief from the first dose, and finally the cough will disappear. O. H. Brown, of Muscatine, Ala., writes: "My wife was down in bed with an obstinate cough, and I honestly believe had it not been for Dr. King's New Discovery, she would not be living today." Known for forty-three years as the best remedy for coughs and colds. Price 50c and \$1.00. Recommended by H. P. Dunn.—Adv't.

## CONTRIBUTE TO MAKE EAGLE SCREAM

Committees to Canvass the City Tomorrow to Solicit Contributions for the Fourth

## MONEY NEEDED TO CELEBRATE

Four Committees Assigned to Various Sections of Brainerd to Raise Money

On Wednesday four committees appointed at the recent meeting called for the proper celebration of the Fourth of July will canvass the town soliciting funds. As B. C. McNamara stated: "The whole matter of the observance of this holiday is up to the citizens. If all contribute, it will enable Brainerd to have a good, old time celebration which will bring crowds of people to town. To make it a success, all must help." The committees are as follows:

To solicit from business houses and banks: A. K. Lukens, Ed. Levant and Alderman-elect George Hess.

To solicit from offices: D. E. Whitney and T. H. Considine.

To solicit from shops: Mr. Brown.

To solicit from breweries, barber shops and saloons: E. W. Dunn, Louis Roth and L. H. Stallman.

## Musical Entertainment Thursday

Under the direction of Mrs. Prescott the high school orchestra, which is well known to the public for the excellence of their work along musical lines, will present several numbers of the program to be given at the library hall for the benefit of the Children's Hour. For those who have been unable to attend the Friday afternoon concert given by the orchestra at the different schools of the city, the concert Thursday evening will afford an excellent opportunity to hear the orchestra at their best.

There will also be vocal numbers and readings by other talent of our city. Little Vernon Koop, who is studying under Miss Smalley, will sing a group of songs. The program will appear in full in tomorrow evening's Dispatch.

## MUSIC AND DRAMA

### At the Grand

The three reel feature at the Grand, a Thanhouser subject, is entitled "The Star of Bethlehem." In undertaking to film a biblical subject a producer assumes a serious obligation. He becomes in a measure the trustee of the motion picture art. The Thanhouser company has in the past shown much of that fine skill in details, which is the one certain hall-mark of quality. In their Dickens production they established a new record in the art of filming popular and classic fiction and left every rival far behind.

"The Star of Bethlehem" exemplifies the best in motion photography. The photography is good and the costumes, on the whole, are acceptable. Billy Vernon sings, "Then I'll Stop Loving You." The Grand Trio, Messrs. Vernon, Mraz and McCarthy are heard in selections.

### At the Empress

"Tamandra, the Gypsy Girl," is shown at the Empress theater. A synopsis follows: Walter Clark and Beatrice Irving, cousins, are engaged, but Walter meets the Gypsy Tamandra and they are married. Later she goes back to her tribe and a child is born to her. Ignorant of this fact and believing his wife dead, Walter and Beatrice arrange to be married. The untimely arrival of a message from Tamandra brings the wedding ceremony to an abrupt ending. Walter enters a monastery, Beatrice takes up work in the slums and meets Tamandra. The latter dies and Beatrice assumes the care of the child. While walking one day with the monks, Walter sees Beatrice and his child. A struggle between love and duty ensues, but duty finally conquers, and he goes back with the others to the silent life of the monastery.

### Goedderz-Wilson

Joseph Peter Goedderz of this city, and Miss Essie Ada Wilson, of Motley, were married Tuesday morning at nine o'clock at the parsonage of St. Francis Catholic church, the ceremony being performed by Rev. Father J. J. O'Mahoney in the presence of invited friends and relatives of the contracting parties.

The bride was gown in a blue traveling suit with hat to match and carried a bouquet of roses. She was attended by Miss Lena Goedderz, a sister of the groom, who wore a blue silk gown and carried a bouquet of flowers. The best man was Merle Wilson, of Motley, a brother of the bride.

After the ceremony a wedding dinner was served at the home of Mrs. John Goedderz, mother of the groom. The house was beautifully decorated for the event.

The bride was born and raised in Motley and has a large circle of friends. She has taught school for a number of years. Mr. Goedderz is an employee of the foundry and is well liked by his many associates and friends. They will enjoy a short wedding trip to the northern lakes and will be at home to their friends, Ma 5, at 602 South Tenth street.

On Saturday, May 3, a reception will be given in their honor by Mrs. Goedderz at the above address.

## THIRTY-FIFTH ANNIVERSARY

Mr. and Mrs. John Ernster Celebrate Their 35th Wedding Anniversary This Afternoon

Mr. and Mrs. John Ernster are today celebrating their thirty-fifth wedding anniversary. Thirty-five years ago today they were married in Cherokee, Iowa. All their children are living and are with them today.

They are J. P. Ernster, president of the Brainerd State bank; H. J. Hage, cashier of the First National bank of Deerwood; Sister Claralla, a Benedictine Sister of Minneapolis who has charge of the musical conservatory there; Omer Ernster, attending high school in the city.

The many friends of Mr. and Mrs. Ernster extend their felicitations upon this happy occasion.

## ODD FELLOWS TO CELEBRATE

Ninety-fourth Anniversary will be Observed With Appropriate Program at the

## ODD FELLOW HALL, APRIL 30

All Odd Fellows and Rebeccas and Their Families are Welcome to the Entertainment

The members of Unity Lodge No. 194, I. O. O. F. and Florence Rebecca Lodge No. 111, will observe the 94th anniversary Wednesday evening, April 30th at I. O. O. F. hall.

There will be a short program as follows:

Address ----- G. S. McCulloch

Reading ----- Mrs. Sorenson

Solo ----- John Bye

Recitation ----- Mrs. F. W. Smith

Violin solo ----- Mr. Witham

Song ----- Morell and Marvel Anderson

Recitation ----- Esther Belmont

After the program Miss Cecil Witham will furnish music for dancing.

Refreshments will be served. All Odd Fellows and Rebeccas and families welcome.

## For Burns, Bruises and Sores

The quickest and surest cure for burns, bruises, boils, sores, inflammation and all skin diseases is Bucklen's Arnica Salve. In four days it cured L. H. Hadlin, of Iredell, Tex., of a sore on his ankle which pained him so he could hardly walk. Should be in every house. Only 25c. Recommended by H. P. Dunn—Adv't.

## "READ THE NEWSPAPERS"

Said Prominent St. Louis Business Man in an Address to Pupils of Central High School

St. Louis Times: The students of the Central high school assembled in the Auditorium Friday afternoon, listened to an address by R. L. Burney, manager of the savings department of the Commonwealth Trust company, on the subject of "Efficiency." He urged students to take advantage of all the splendid helps offered by the high school for a business training and said that if they desired to be office helpers today with the methods of tomorrow, it would be necessary to read the newspapers each day.

"Hardly a day passes but that an announcement is made regarding some new plan or system regarding which you should be posted," he said, "and the only way to keep posted is by reading the newspapers, for, almost without exception, they are the first agencies to make the announcement of any new plan. Hence, for current reading, I would advise that you make it an inflexible rule to carefully read one morning or one evening paper each day. Mind that I say read—not skim over. Read with care, and as you read, digest what you read. It is said that 'Reading maketh a full man.' So does sponge cake—so read for quality not quantity."

"When the newspapers are read in this way, you will be surprised, first at the number of articles which will prove of absorbing interest and benefit to you in your personal life, and, second, at the number of articles applying directly to your chosen line of business. Yet—strange to say—in making up the paper each day, the editor has in mind the entire population and every other line of business represented in the city. As proof of the statement that article will be found pertaining to each business, I have several here on the table dealing with the subject we are considering tonight, which were clipped from the papers the last few days."

"The advertising pages of the news papers will be found equally as absorbing as the other pages—and even more so at times. Hence they should be read with the same thoroughness as all the other pages of the paper. In fact, you will not be able to keep posted, regarding the latest books, forms, machines, devices and office equipment unless you do read the advertising pages."

"There is another reason, a still more cogent one from your standpoint as a student, for reading the advertising pages of the newspapers. The classroom work has brought you to the very threshold of business life. Beyond its portals lies a world filled with positions, and you know you are equipped, qualified and ready to fill one of them. But what magic influence will push open the gates so that you may enter upon your enlarged business career? I'll tell you. It's the daily newspaper, with its long list of classified help wanted adver-

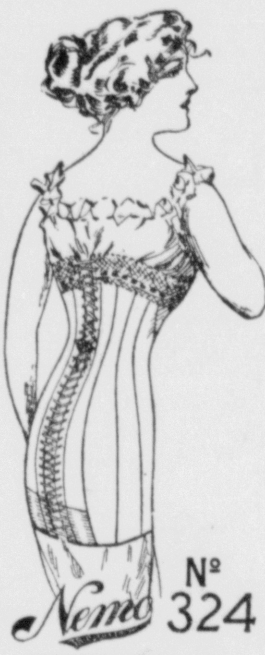

## MOTHERS

## Have you seen them?

We have the prettiest line of children's dresses conceivable for you to embroider. The very desirable feature of them is that the embroidery on them is very simple and that with a little work you can add much beauty to the dress. Ask to see the splendid things we have in embroidery work when you are in the store. This is a much enlarged department and you will appreciate it.

*Michael Co*

## Lasticurve-Back Self-Reducing Corset \$3.00

The pictures show the new "Lasticurve-Back"—broad gores of elastic which extend far below the back steels and are laced clear down to the end.

The gores are of the new Lastikops Cloth, the latest Nemo elastic fabric, which is guaranteed to retain all of its original elasticity.

When you stand, the very long skirt clings closely, and follows the in-curve of the figure; corset-edge can't show through even a gauzy gown.

When you sit down, the corset-skirt spreads freely—you're comfortable. Two models:

No. 322—with low bust—\$3.00  
No. 324—medium bust—\$3.00

Here you have a corset of extreme length that's as easy as an old shoe. The greatest "stout women's" corset ever sold for so little. Fine white coutil, sizes 20 to 36.

### Minute "Movies" of the News Right Off the Reel

Farmers of the United States paid an average of 7 1/2 per cent for loans during 1912.

A California miner recently found a nugget of almost pure gold worth about \$800.

President Wilson has joined four clubs in Washington. He pays dues in all of them.

A Kansas man says he has invented a machine which thrashes standing grain in the field without cutting it.

Lying in wait for a paymaster, some bandits in Rhode Island held up a drummer by mistake and hopefully rushed away with his valise, which contained sample biscuits.

The director of hygiene in the public schools of Boston says 5,000 pupils in those schools are so weak physically that their instruction is of no value to them.

Overhauling the charred ruins of a hotel destroyed by fire in Malone, N. Y., workmen found a cat and two kittens peacefully sleeping in the cellar.

#### A Dampener.

A.—You don't seem to have any life in you. Is there nothing or nobody over which you can enthuse? B.—Nothing at all. I once became enthusiastic over somebody, and a short time afterward she became my wife. That was a sad warning to me to avoid enthusiasm.—Pearson's Weekly.

#### A Feminine View.

"When I was young my dear, girls were not allowed to sit up so late with young men."  
"Then, papa, why do you allow me to do so?"  
"It would be so much more interesting if you would only forbid it."—Judge.

#### Crushed.

Algy—I hope, Miss Gotrox—may I hope—that is, is there any hope that I may—  
Helress—While there's life there's hope, but—Algy—Yes, yes, go on! Helress—While there's life there's hope, but—but you're a dead one!—Puck.

In whatever sphere his duty lies every man must rely on himself. Others can help us, but we must make ourselves.—Sir John Lubbock.

## BRAINERD WELCOMES THE BANKERS OF THE SIXTH DISTRICT

PERTINENT FACTS  
ABOUT BRAINERD

Brainerd is the County Seat of Crow Wing county, With Ore all Around it

## CENTER RICH FARMING COUNTRY

## City Has Large Railway Shops—Has General Offices Minnesota &amp; International Railway

For the convenience of the bankers who visited Brainerd on the occasion of the convention of the sixth district group of Minnesota bankers and for the other thousands of readers, a short resume is given of important features which make Brainerd a very good business town and a most desirable city in which to establish a home.

Brainerd is the county seat of Crow Wing county and is a growing, progressive city of 10,000 people.

Brainerd has the main shops of the Northern Pacific railway, employing over 1200 men and having a payroll averaging from \$65,000 to \$82,000 a month.

Brainerd has the general offices of the Minnesota & International railway, the line which taps northern Minnesota.

Brainerd shops and the railways centering here, with other industries contributed to make several \$100,000 monthly paydays in 1912.

Brainerd's pay day in March, 1913, totalled \$100,000 and this flood of money was distributed as follows by these agencies: Northern Pacific railway shops, \$70,000; Northern Pacific tie plant, \$2,500; Northern Pacific railway freight office and yards, \$1,600; Minnesota & International railway, \$12,000; Northwest Paper Co. pulp mill, \$2,000; Parker-Topping foundry, semi-monthly pay day, \$5,000; exploration work and drills tributary to Brainerd, \$5,000; Brainerd Milling company \$200; small industries of city, \$1,700.

Brainerd is the center for the drills working in the vicinity. Drill and exploration companies have their headquarters here.

Brainerd has a foundry, that of Parker & Topping, the best and most finely equipped in the country, one that is visited by foundry men from the United States and foreign countries, bent on gaining the last word in foundry construction and management.

Brainerd has a pulp mill of the Northwest Paper company, power being supplied by the Mississippi river which is dammed at that point.

Brainerd has a prosperous flour mill, the Brainerd flour mill.

Brainerd has a brewery, the Brainerd Brewing company, and its product enjoys a high reputation.

Brainerd is the center of a rich and growing farming community. Saturdays finds many farmers in the city to do their trading and streets of the city are filled with the teams of prosperous farmers.

Brainerd is the only city on the range which has drills at work within its city limits and which is assured of three mines on its south and southeast sides within a mile of the post-office.

Brainerd has the Northern Pacific railway hospital, the largest on the line of the road and some of the most skillful surgeons of the northwest are connected with the institution.

Brainerd is the center of the lake district and an outfitting point for hunters and fishermen. The country is a greater resort for summer visitors.

Brainerd has three strong, conservative banks, which rank with the leading financial institutions of the northwest, and the oldest, the First National, has deposits of over \$1,000,000.

Brainerd controls its own lighting and water systems. It has an excellent sewer system and an abundant supply of pure water.

Brainerd cannot be surpassed as a residential city, having five modern brick school houses with a corps of competent instructors, a fine parochial school and sixteen churches of patronage, and sixteen churches of various religious denominations.

Brainerd is favored with a healthy climate and is located 1250 feet above sea level, on a level plateau, 60 feet above the river, giving natural drainage.

Brainerd's climate is dry and clear. The air is of the stimulating variety. On November 11th street sprinklers were wetting down the dust, children were playing bareheaded, rosy cheeked matrons were devoting themselves to tennis at the court house square, second crops of strawberries were picked in Northeast Brainerd,

Deerwood, Crosby and other sections of the range and a number of plum trees on South Sixth street put out a second cluster of blossoms.

Brainerd and Crow Wing county have Florida discounted when it comes to fine weather.

Brainerd has a ball team which won the 1912 pennant in the Central Minnesota Baseball association.

Brainerd has furnished umpires to the big leagues, pitchers and fielders to the leagues beyond the bushes and is prominent in the eyes of the baseball world as having been the home of Bender, the Chippewa pitcher of the Philadelphia Athletics and of having furnished a new pitcher, Leslie Bush, to the same team.

Brainerd has two new churches under course of construction.

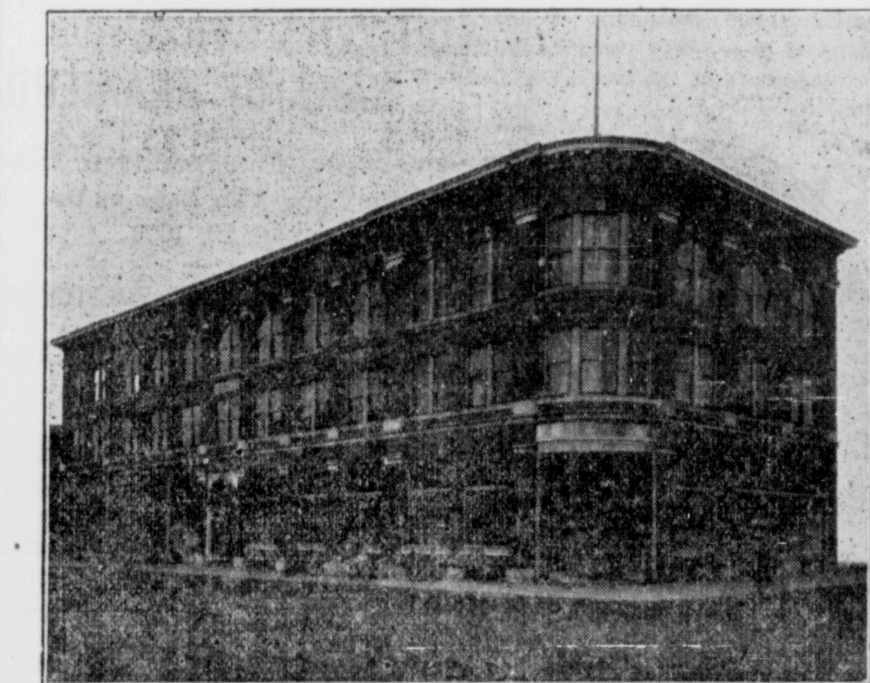

Brainerd is easy to find on the map, for it is the exact geographical center of the state.

Brainerd and vicinity offer unusual opportunities to the farmer. Clover, timothy, corn, wheat, oats, barley and the best vegetables in the world are raised in this country.

Brainerd was named in honor of the wife of Gov. J. Gregory Smith, the first president of the Northern Pacific railroad, whose maiden name was Brainerd.

Brainerd is a convention city entertaining in the past the Red Men, the Northern Minnesota Development association, the sixth congressional republican district convention, the State Federation of Labor and many others.

Brainerd has an energetic womens'

Citizens State Bank Hall, Where the Convention is Being Held. Use of hall donated by Pres. M. T. Dunn

club, the Brainerd Musical club, a power in the development of civic taste and culture. The club has secured for 1913 the convention of the State Federation of Womens' clubs.

Brainerd has a band which has carried off dozens of prizes for its fine playing and which gives park concerts during the summer season.

Brainerd has an energetic Commercial club and the finest quarters in Northern Minnesota.

Brainerd is essentially a city of homes and churches. There are few vacant houses in the city.

Brainerd wants more citizens and will be glad to see you come to town and settle here.

## ESTIMATE OF FRANGE PRODUCTION

Supt. H. J. Kruse, of Rogers-Brown Ore Co., Gives Figures on Ore Shipments

In an interview Supt. H. J. Kruse, of the Rogers, Brown Ore Co., gave 1,000,000 tons as the probable tonnage to be shipped this season by the Cuyuna iron range. This is divided as follows:

Mines	Tons
Armour No. 1	200,000
Armour No. 2	200,000
Kennedy	260,000
Thompson	100,000
Pennington	100,000
Cuyuna-Mille Laes	50,000
Cuyuna-Duluth	25,000
Adams	10,000
Barrows	50,000

Total -----995,000

To this may be added other properties, such as the Iron Mountain Mining Co. mine and the hydraulic mine of the Pittsburgh Steel Ore Co. which expect to enter the shipping lists and may ship from 25,000 to 50,000 tons each.

## Drill Hole Depths

The average depth of all drill holes is about 275 feet. The deepest hole is 1010 feet.

Largest Convention Ever Held by Sixth District Group of Minnesota Bankers Convened in Citizens State Bank Hall Today.

## MANY NOTABLE ADDRESSES ARE DELIVERED

Banquet at Ransford Hotel Tonight. Local Program Prepared by George D. LaBar and M. T. Dunn. President Howard W. Elliott, on the Program.

Officers of Sixth District Bankers Association:

President—E. H. Sherwin, State Bank of Monticello, Monticello.

Vice President—J. K. Martin, First National Bank of Little Falls, Little Falls.

Secretary-Treasurer—Charles F. Knapp, Sherburne County State Bank, Big Lake.

Other members of the Executive Committee:

W. M. Taber, First National Bank, Park Rapids.

C. M. Sprague, First National Bank, Sauk Center.

Member State Executive Committee—M. T. Dunn, President Citizens State Bank of Brainerd.

Committee on Reception and Program—George D. LaBar, President First National Bank of Brainerd.

M. T. Dunn, President Citizens State Bank of Brainerd.

Brainerd is today host for the bankers of the Sixth Congressional district of Minnesota. This is the tenth annual meeting of the Sixth district group, the members of the Minnesota Bankers' Association being

vention hall, and at the banquet at the Ransford hotel this evening.

The meeting convened at the Citizens State Bank hall at two o'clock this afternoon and will close about eight o'clock in the evening. The afternoon session today was spent in the delivery of the address of welcome, the response by President E. W. Sherwin, the reading of papers and the delivery of addresses on matters of interest to the bankers.

At the evening banquet the speaker of the evening will be Howard Elliott, president of the Northern Pacific railway, who will take as his subject, "Agriculture, Banking and the Carriers." Brainerd is proud to welcome the head of the great railway system which has done so much for this city, whose broad shops furnish employment for thousands, whose trains carry the wheat and the merchandise, shortly to include also the hauling of the iron ore of the Cuyuna range, and whose passenger trains now give Brainerd the best service it has ever enjoyed. A visit of Howard Elliott in Brainerd means much to Brainerd and he is thrice welcome.

The program follows:

2 P. M. Prayer, Rev. G. P. Sheridan.

Address of welcome, Hon. H. P. Dunn, mayor of Brainerd.

Response, E. H. Sherwin, Monticello, president Sixth District group.

Report of the secretary, Chas. F. Knapp, Big Lake, cashier of Sherburne County State bank.

Appointment of committees by Pres. Sherwin.

3 P. M. Address, "The Banker and the Farmer," by J. H. Worst, L. L. D., president of North Dakota Agricultural College, Fargo, N. D.

4 P. M. Address, "Bank Taxation," by J. W. Wheeler, president Capital Trust Co., of St. Paul.

Discussion led by Hon. W. E. Lee, president Bank of Long Prairie, Long Prairie.

4:30 P. M. Address, "Interest Paid by Banks," by Hon. Kelsey S. Chase, superintendent of banks, St. Paul.

Discussion led by W. W. Smith, cashier First National bank, St. Cloud.

5 P. M. Address, "Good Roads," by G. A. Will, attorney Minnesota Automobile association, Minneapolis.

5:30 P. M. Address, "Work of Minnesota Bankers' Association," by G. H. Richards, secretary Minnesota Bankers association.

Business session.

7:30 P. M. Report of committees. Election of officers.

9:00 P. M. Banquet tendered by Brainerd bankers at Hotel Ransford.

The following is the menu for the banquet at the Ransford hotel this evening:

Panache

Potage, au Tomate

Celery Hearts Salted Almonds

Francho of Red Snapper

Shoestring Potatoes

Fillet of Beef, Pique Champignons

Sweet Potatoes, Pyramid Petit Pois

National Punch

Head Lettuce Salad

Glace la Cream, de Vanilla

Angel Food Macaroons

Demi Tasse

Cigars

Music, Graham's Orchestra

The banquet program follows:

Toastmaster, W. H. Gemmell, general manager of the Minnesota & International railway.

"Rendering an Accounting" Hon. C. D. Johnson

"A Few Experiences" C. D. Brown

Song S. F. Alderman

"Agriculture, Banking and the Carriers" Howard Elliott, President of Northern Pacific Railway

"What Geology Has Done for this District" Carl Zapffe

(Continued on page 2)

"Conservation of Health as Compared with Conservation of Wealth"

Dr. Walter Courtney

Mayor H. P. Dunn, of Brainerd, in his address of welcome, said:

"Mr. President and gentlemen of the Sixth District Bankers association:

The dream of home is the most enchanting of all dreams. The love of home is most surpassing of all loves. I love the city of Brainerd because it is my home and for another reason

which, perhaps, you may call a selfish one, but which is nevertheless a very good reason, to wit, because Brainerd is the spot of destiny on the map of Minnesota.

Look at our vast mineral resources! Why, as yet their development is only in its infancy. When I see these many resources lying as yet almost untouched, I think of the story of the sleeping giant roused to activity by the potent wand of the magician.

Gentlemen, you are custodians of accumulated capital and accordingly you possess the magic wand which we are in search of and consequently I cannot hide from myself the idea that your presence here is a favorable omen of our future prosperity and development.

Lord Tennyson once sang most truthfully and most beautifully of his times and ours, that "Every door is barred with gold and opens but to golden keys."

Gentlemen, members of the sixth district bankers' association, you have brought the key that fits the lock of our city. The city with its treasure is yours in my own name, and in the name of our citizens I bid you gladly welcome and hope that your stay among us may be a pleasant and a profitable one."

This was followed by the response delivered by E. H. Sherwin, of Monticello, president of the Sixth District group.

Secretary Charles F. Knapp, of Big Lake, read his report.

The various committees were appointed by President Sherwin.

At 3 P. M. J. H. Worst, L. L. D., president of the North Dakota Agricultural College of Fargo, N. D., delivered his address on "The Banker and the Farmer." He said:

"Banks do not create wealth. They are, however, depositories of money which is the representative of wealth. From these depositories, money may be drawn for the purpose of creating additional wealth. Banks thus render good service. It would be difficult to dispense with them.

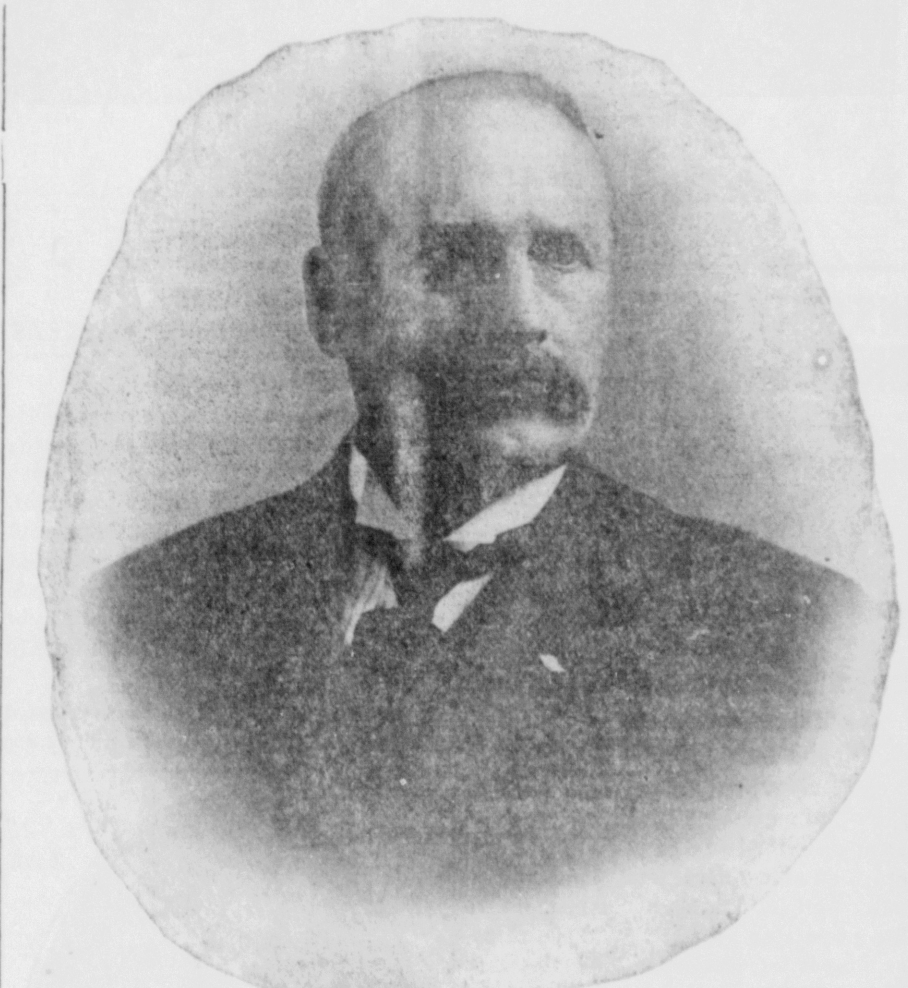

"The manufacturer needs money from time to time for the purchase of raw material, factory equipment, and for the employment of labor. The raw material of the factory is converted into consumable products by the application of labor. When ready for consumption, the value of these finished products is enhanced by the amount of labor that was applied to them. The difference, therefore, between the value of the finished product and the raw material represents increased wealth. The banker shares directly and indirectly in whatever prosperity that may result from this increasing wealth by means of capital and labor. The bank and the factory, therefore, have mutual interests.

"The farmer, also, frequently requires money for the purchase of improved machinery, live stock, seed, grain, for building a silo, or making other improvements on the farm. In proportion as the farmer is thus enabled to produce more grain and live stock, his prosperity increases and his prosperity, in a large degree, measures the prosperity of the entire community.

"The bank and the farmer thus have mutual interests.

"The farmer, however, creates wealth in a different way. He deals directly with Nature's forces for the production of wealth. He depends upon the soil, the air, the sunshine, and moisture and by means of these agencies produces wealth directly from the bosom of Nature. He may have to conserve moisture; he must conserve fertility of the soil if he and the country are to enjoy continued prosperity. Every community interest, whether of a professional or business nature, therefore, is deeply concerned in the farmers' welfare. He

SIXTH DISTRICT  
GROUP MEMBERS

List of Bankers Who Hold Membership in This Division of State Bankers Association

COMPRISES TWELVE COUNTIES

List is Also Given of the Non-Members of the Sixth District of this State

The sixth district group of bankers of the Minnesota Bankers association comprises the counties of Hubbard, Cass, Wadena, Crow Wing, Todd, Douglas, Morrison, Benton, Stearns, Sherburne, Wright and Meeker.

The members of the sixth district are:

Members of the Sixth district group:

Akeley, Hubbard county, State Bank of Akeley.

Albany, Stearns county, First State Bank.

Aldrich, Wadena county, First State Bank.

Alexandria, Douglas county, Douglas County Bank.

Alexandria, Douglas county, Farmers National Bank.

Alexandria, Douglas county, First National Bank.

Anandale, Wright county, Citizens State Bank.

Anandale, Wright county, State Bank of Anandale.

Avon, Stearns county, Avon State Bank.

Backus, Cass county, Backus State Bank.

Becker, Sherburne county, State Bank of Becker.

Bertha, Todd county, First National Bank.

Bertha, Todd county, Farmers State Bank.

Braham, Isanti county, First National Bank.

Brainerd, Crow Wing county, Citizens State Bank.

Brainerd, Crow Wing county, Brainerd State Bank.

Brainerd, Crow Wing county, First National Bank.

Brandon, Douglas county, Brandon State Bank.

Brandon, Douglas county, Farmers State Bank.

Brooten, Stearns county, State Bank of Brooten.

Brooten, Stearns county, Scandinavian State Bank.

Browerville, Todd county, First National Bank.

Buffalo, Wright county, Oakley State Bank.

Buffalo, Wright county, State Bank of Buffalo.

Burtrum, Todd county, First State Bank.

Carlos, Douglas county, First State Bank.

Cass Lake, Cass county, First National Bank.

Clarissa, Todd county, State Bank of Clarissa.

Clear Lake, Sherburne county, First State Bank.

Clear Water, Wright county, Clear Water State Bank.

Clear Water, Wright county, First State Bank.

Cokato, Wright county, State Bank of Cokato.

Cokato, Wright county, Farmers & Merchants State Bank.

Ransford Hotel, Where the Banquet Will be Served Tonight

## HISTORY OF THE BRAINERD MINING CO.

Attorney Wm. C. White, President of Company, Describes its Work of Development

### STARTED BUYING LANDS IN 1905

Mr. White Pays High Compliment to His Associates, R. R. Wise and Late Judge Holland

Wm. C. White, deeply interested in the Cuyuna iron range, in an interview described the origin and the operations of the Brainerd Mining Company and paid a high compliment to his associates, Hon. R. R. Wise, former mayor of Brainerd, and the late Judge G. W. Holland, who was the vice president of the company.

Mr. White says: "I shall write no 'boom' article, if I say a few words about the Brainerd Mining Co., which had its origin in the brains of Messrs. R. R. Wise, Judge G. W. Holland and myself, I think early in 1905, when on looking over the country directly south of Brainerd, Mr. Wise and Judge Holland found some very persistent mineral attractions and invited me to join them in seeing whether they were sufficient to make the organization of a mining company desirable.

"We picked up some two miles of attractions that were so persistent

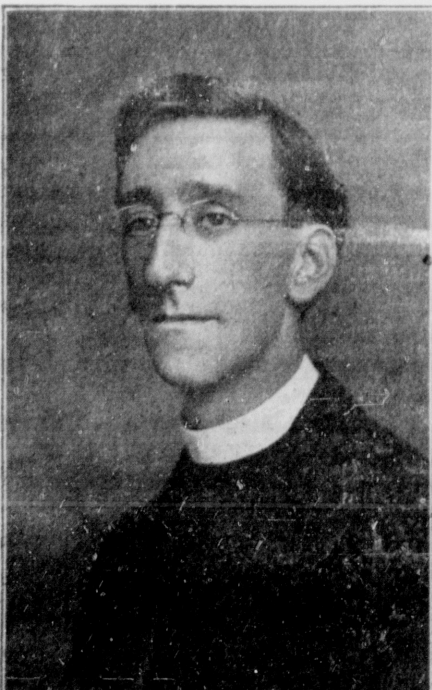

R. R. Wise, of Brainerd, Secretary and Treasurer Brainerd Mining Co.

that we decided to acquire the property and form a company to explore it and, if advisable later, to develop it. This we did, and began by drilling on certain places of the property, on which we spent some \$8,000 and found such strong evidence of what we wanted, that we paid for the lands and held them a while, awaiting other developments.

"After three or four years, we interested Mr. W. A. Barrows and Mr. Pope, of Pittsburgh, in the property and they did further exploring which did much to develop practically a new range which means so much to Brainerd."

On ground leased the M. A. Hanna Co. at Barrows is where the big Barrows mine has been established and which is expected to ship 50,000 tons of ore this season. The Barrows mine has taken out quite a stockpile. The Northern Pacific railway has built in coal tracks and other tracks to the mine and is in readiness to handle the ore and haul it to the Superior ore docks which will be completed within a few weeks.

Rev. G. P. Sheridan, Pastor First Congregational Church of Brainerd

## BRAINERD WELCOMES SIXTH DISTRICT BANKERS

(Continued from page 1)

The interests he supports should exercise a direct influence upon those economic laws which insure justice in interest rates, in transportation, and in the distribution of the products of the farm. The assistance thus rendered should be cooperative and not construed as charitable. It should be for the general welfare.

The great northwest is composed of the best soil to be found anywhere

George H. Richards, of Minneapolis Secretary of Minnesota Bankers Association

in the world. Its possibilities for present and future prosperity cannot be measured. Every improvement made in the selection of seed grain, in the breeds of live stock, and in methods of tillage, oftentimes only obtainable by means of borrowed money, mounts up directly into the millions, whether reckoned in tons, bushels or dollars.

"With only a fraction of the soil as yet brought under the plow and most of that given but indifferent cultivation, and with but little attention given to scientific marketing, yet the country is reasonably prosperous. However, with scientific cultivation, with more attention paid to agricultural education and what is popularly known as extension work, the acre yield can easily be doubled—certainly the profits of the firm can be very greatly increased.

"The greatest issues that confront us at the present time, therefore, range around farm credits, cheap and easily obtained money for the farmer, better roads, better schools, better marketing, cooperation, soil conservation, and better living. Will these issues be fairly met? Will business men generally give attention to the future prosperity of the country by popularizing conservation methods or will they encourage exploitative methods of agriculture for the purpose of making immediate bank accounts by ruthlessly sacrificing the country's present natural resources?

Hon. W. E. Lee, President Bank of Long Prairie, Long Prairie

"It is evident that the farmer, as a rule, is too busy with his daily tasks to give proper attention to business methods. On the other hand, those who make a study of business can, if they will, render the farming fraternity much assistance. Instead of levying tribute upon everything he buys and sells and returning to him in the form of quasi-charity, financial assistance that will enable him to raise larger crops by exploitation methods, it would be more consistent to encourage business methods that will enable the farmer to help himself. This he can do largely by cooperation in marketing his products

and in purchasing his supplies. Nothing better has yet been devised for building up prosperous and contented rural communities.

As long as the hope of the country is centered in rural activities and as long as the soil is the source of the country's prosperity and the farmer remains the backbone of the nation, the farm—the personally-owned and well-tilled far—should be made the most popular institution in the state. Instead of being a place to flee from as soon as sufficient means will warrant it, it should be the most desirable place to work during vigorous manhood and the most delightful place for retirement during the farmer's declining years."

# THE BANK FOR ALL PEOPLE

## CITIZENS STATE BANK OF BRAINERD

### CITIZENS STATE BANK OF BRAINERD

Enterprising Bank Commenced Business Under This Name on October 10, 1906

M. T. DUNN IS THE PRESIDENT

Bank Has its Home in Modern Three Story Citizens State Bank Building

The Citizens State bank commenced business under this name October 10, 1906, being a reorganization of the Northern Pacific bank, of this city, and taking over the building, business, etc., of that institution. Its capital stock is \$25,000.

The bank is situated in a fine, modern, three story building, of which the bank occupies part of the main floor. The second floor of the building is devoted to offices and the third floor has the large hall in which the convention of the bankers of the district was held. Many of the large fraternal orders of the city meet here. In addition there are a number of smaller halls where fraternal and other societies meet on the third floor. Recognizing the value of the farmer to the community, the Citizens State bank permits many of these farmers insurance companies and others to hold their meeting without charge.

The president of this institution is M. T. Dunn. Mr. Dunn began his banking experience in the Citizens' State Bank of Kenyon, Minn., of which he is still a stockholder. From there he went to the LeRoy State bank, from which he was called to Brainerd in 1905 to take charge of the affairs of the Northern Pacific. In the hands of the state bank examiner. By his energy, foresight and hard work he put that bank on its feet in good shape and then reorganized it as the Citizens' State bank, since which time it has had a very profitable career. Mr. Dunn is also interested in the First National bank of McClusky, N. D., and the Denhoff State bank, of Denhoff, N. D.

IT PAYS TO ADVERTISE—TRY IT

An Awful Blow.  
"Yes," said Silthers, "Mickley was my dearest friend, and I shall never cease to mourn his death. It was a terrible blow, from which I shall never recover."  
"Why—I thought you married his widow?" said Jimpson.  
"Why—er—ahem!—why, yes, I did; but—"  
Here Silthers subsided into a deep and uncomfortable silence.—Harper's Weekly.

Poor Comedy.  
"Why did she cut you?"  
"She doesn't like my comedy."  
"How's that?"  
"She made the statement at a party last night that she was twenty years of age, and I said, 'Yes, I knew that fifteen years ago.'—Houston Post.

## FIRST NATIONAL BANK OF BRAINERD

Is the Oldest and Largest Bank, Having Been Organized October 1881

GEORGE D. LaBAR, PRESIDENT

The First National Enjoys Proud Distinction of Being a Roll of Honor Bank

Of the three banks the First National bank is the oldest and largest it was organized October 11, 1881, succeeding the old Bank of Brainerd, which was established a few years previously by Wm. Ferris. Its capital stock was \$50,000 and to that has been added a surplus and undivided profit account of more than as much.

Adam Brown, Director First National Bank of Brainerd

making it one of the roll of honor banks and giving it an available capital of over \$100,000. Adam Brown, has been stockholder and member of the directorate from the day of the organization of the bank to the present time. The deposits of the bank are over \$1,000,000.

Geo. D. LaBar, president of this bank has been with it in one capacity or another for over a quarter of a century, coming here from Zumbrota, Minnesota, to enter upon the arduous duties of errand boy and commencing his labors with the bank on January 12, 1883. Since that time he has filled, one after another, every position and every office in the bank. Keen, able and conservative as a banker, upright and public spirited as a citizen, he is a man of whom the city may well be proud.

Fred A. Farrar, cashier of the bank is also a man of long experience in the business, having been with the institution over 13 years, his father having been connected with the bank

H. J. Hage, First National Bank of Deerwood

before him. Previous to entering the employ of the bank Mr. Farrar was for seven years city clerk and was engaged in the mercantile business in this city, and in fact was raised in Brainerd. He has served on the city council and is prominent in all enterprises for the advancement of the town.

Assistant cashiers of the bank are P. L. Lagerquist and Arthur P. Drogseth. The bookkeepers are A. C. Mraz and Severn Swanson. John Brady is the clerk and Miss Olive Lagerquist the stenographer. These are all bright young people who will make their marks in their chosen professions.

### In Memoriam

Prominently identified with the banking business of Brainerd was the late Judge G. W. Holland, who served for years as a director and vice president of the First National bank of Brainerd.

G. W. Holland

When the matter of the organization of what is now the First National bank of Brainerd was on foot it was Judge Holland who drew all the necessary legal papers in connection with the work and he had been a stockholder from the start and member of the first board of directors elected at the organization of the bank on October 11, 1881.

From that day on Judge Holland had been a member of the board of directors and there were few meetings that he had not attended.

Judge Holland was the first attorney to settle in Brainerd when it was a mere hamlet consisting mostly of tents.

Seeing the future of Brainerd clearly, the judge had invested heavily in real estate and had not only much city property but large interests

First National Bank Building

throughout the country and extensive holdings on the Cuyuna range. He held various public offices, having been district judge for twelve years.

Prominently identified with every movement looking towards the development of Brainerd and Crow Wing county, his sudden demise on April 23 was a great shock to the community. But the good he has done and planned for his native city of Brainerd, which he loved so well, will live after him and be remembered for generations to come.

### TRAIN PHONE GIRLS' VOICES.

Lessons Will Be Given to Produce Sweet Tones.

The telephone company operating in St. Paul and Minneapolis has decided that the voices of its girl operators are not what it wishes them to be.

The result is that the girls will be given lessons in voice culture so their voices will sound sweet over the phone. The company is taking a chance, for with sweeter voices more girls will be asked to desert the switchboard for the marriage altar.

### A Mother's Kiss.

"Having grossly offended my mother one day," wrote Mme. Schreck, "I stood expecting reproof in return. To my amazement that beautiful woman stooped and kissed me. I burst into tears. I was overwhelmed with shame. It seemed to me I never again could do enough to show her the loyalty of my heart."—Mothers' Magazine.

## BRAINERD BANKS ARE STRONG ONES

This City Well Supplied With Strong, Conservative Financial Institutions

THREE NOW DOING BUSINESS

During Short Money Season of 1907 Gold and Not Cashier's Checks Was Paid Out

Brainerd is especially fortunate in her financial institutions. She has three of the strongest and most successful banks in the state, managed by men of long experience in the banking business; men who combine enterprise and conservatism in the proper proportions to insure the prosperity of the banks and advance the business interests of the community.

That Brainerd's banks are among the strongest in the country is shown by the fact that while Brainerd's pay roll is one of the heaviest on the Northern Pacific railroad, this is one of the few places in the United States where the pay roll was met entirely with cash during the 1907 financial flurry. On November 20th, of that year, when the panic was at its height, over \$70,000, mostly in gold, was paid out by the First National bank alone to the men at the railroad shops. In addition to this the Citizens State bank paid out a large amount. The Security Bank was organized in 1908 and later became the Brainerd State Bank. At no time did either of the Brainerd banks resort to cashier's checks or other devices, nor at any time was any depositor stinted as to the amount of his

First National Bank Building

deposit which he could withdraw. In fact, the conditions in Brainerd excited the envy and admiration of every business man from outside who visited the city during the flurry.

J. K. Martin, Cashier First National Bank of Little Falls

Curious Effects of Frost. An egg expands when it is frozen so much that the increased bulk breaks the shell. Apples, on the contrary, contract to such an extent that a full barrel will shrink until the top layer will be a foot below the chine. When the frost has been slowly and carefully drawn out they again assume their normal size and appearance. Apples can be transported when the mercury is 20 degrees below zero. Potatoes once touched by frost are ruined.

## MORGAN STORIES.

The Great Banker, Blunt and Gruff, Could Enjoy a Joke.

HIS KEEN SENSE OF JUSTICE.

It Was Strikingly Illustrated by the Way He Handled Two Defaulting Employees and the Rebuke He Administered to a Wall Street Shark.

Most people who knew J. P. Morgan knew him as a man blunt to the point of gruffness, yet he had a keen sense of humor. This is recalled by the way he appreciated so well the joke of a young Irishman who served in his office as a sort of exalted porter that he raised his salary.

The joke was on one of the banker's visitors, who, thinking to have some fun with the young man, remarked to him his was a most difficult task, keeping those whom Mr. Morgan did not wish to see away from him without giving offense.

"That's so," said the Irishman, "but I don't mind. I earn \$50 a week."

Duly impressed, the visitor remarked to Mr. Morgan that he paid pretty good salaries, mentioning the figure given him by the doorman. Mr. Morgan rang for him.

"What do you mean," he demanded, "by telling this gentleman that I pay you \$50 a week?"

"I never told him anything of the sort, sir," the man replied. "I told him I earned \$50 a week keeping cranks out, and I think I do."

"Well," said Morgan, lighting up, "we won't discuss that now, but just tell the bookkeeper you are to have \$5 more a week. And have no more talk with my inquisitive friend here on the private affairs of the office."

Every banking house has little pecuniations at one time or another. No public record exists to show that the Morgan house suffered in this respect, but that is because the banker handled these cases in his own way. Two such cases are recalled by a veteran in the street. In one the culprit, a married man, admitted that he was some \$3,500 short when the head of the house called him into his office. It had gone in speculation, he said. He admitted that his salary was ample for his needs.

Mr. Morgan advised him to go home and tell his wife about it and see him in the morning. In the morning he handed him the amount he was short after the clerk had said he had told his wife everything.

"Put that where you took the money from," he ordered. "It is a loan from me. I expect you to pay it back. None of the others know anything about it. Let's see if you can't be a man."

Later the clerk returned the money to him, with a stammering expression of thanks.

"Humph!" said the banker. "It was a bit harder saving than losing it, wasn't it? Well, now, take it home and give it to your wife. I guess she saved more of it than you did."

The other clerk, unmarried, became involved through associating with too lively a group. Like the other, he was advanced the amount of his shortage and, like the other, repaid it. Not long afterward Mr. Morgan called him into

his office and gave him three months' notice.

"But, Mr. Morgan," he protested, "I'm all right. I haven't taken a dollar of your money since you gave me another chance."

"I know it," said Morgan, "but it won't be long before you will. You're traveling with your old clique again."

There is one banker, not of the second class in importance, who probably never will forget his experience on the "Black Monday" panic. The head of one of the largest commission houses in the "street" went to Morgan for aid.

"We are absolutely solvent," he said.

Fred Stangl, Cashier Security State Bank, St. Cloud

"But Mr. Morgan," he called a loan on us for \$1,000,000. We can't make it and must close. We'll pay 100 cents and have enough left for all of us, but we don't want to sacrifice that business of years."

"What security have you got?" asked the banker.

The broker told him.

"All right. I'll give you the money. Send the stuff here. Jack, telephone Blank I want to see him."

"I sent for you," roared the man who had been up days and nights trying to bring financial peace out of chaos, "to tell you what I think about you, but I haven't the time now. You've been pounding this market ever since this trouble began, trying to make money when everybody else has been trying to help those in trouble. You go back to your office and stop calling loans. If you call another one I'll break you and drive you out of business!"

And that settled it.

David Dows, in his day one of the great men in the financial district, once said to the banker:

"Morgan, you see a lot of young men and seem to be able to pick up better ones than any man I know. I want a man whom I can trust to look out for my affairs when I am away. If you can get me such a man I'll pay him \$15,000 a year and forever be your debtor."

"Dows," said Morgan, "when you find that man send him to me, and I'll pay him \$50,000 a year and pay you a bonus for discovering him." — New York World.

Any man or woman, in any age and under any circumstances, who will can live the heroic life and exercise heroic influence.—Charles Kingsley.

# BARROWS, BIG FOR ITS AGE

Barrows is Bound to be a Thriving Town of the South Cuyuna Iron Range

ON ALL SIDES ARE ORE BODIES  
Much Building Going On—Railway Company to Build New Depot—The Hanna Mine

Barrows is bound to be a mining center of much importance. It has already the Barrows mine of the Virginia Ore Mining company, a subsidiary of the M. A. Hanna Co., of Cleveland, Ohio, and on all sides are proven ore bodies which are bound to be mined before long. Hundreds of men will be given employment.

Barrows is located five miles southwest of Brainerd, on the Northern Pacific division extending from Brainerd to Minneapolis and St. Paul. Lying close to the town are large deposits of ore owned by the Northwestern Improvement company, the Brainerd Mining company and other large interests.

The cost of living is not so high in the town because it is located in the

modern in design, and two store buildings. He has recently completed five two-story residences and has started five more of the same style. All of these houses are being wired for electric light, as Barrows expects to be getting current by spring from the Cuyuna Range Power Co. dam at the Crow Wing river.

H. Hansen, of Duluth, has bought a block of 24 lots and will erect buildings on them.

P. W. Rathbun, of Bemidji, will go into the hardware and furniture business. He will start building at once.

The Barrows Iron Co. will resume drilling in the neighborhood of the town in section 10, township 43, range 32. A forty has been proven upon the Iron Valley Co. property.

John Grande is erecting a livery stable and will soon have a number of horses to engage in the livery business.

Mrs. Peter Sand will commence building a large boarding house in the near future.

A. E. Anderson, of southern Wisconsin, has moved to Barrows and

purchased two lots and will build a rooming house in the spring.

Gust Norain, of Duluth, visited Barrows recently and feels very enthusiastic about the town and its growth.

H. Stahl, of Fort Ripley, has moved to Barrows and will make his home here.

Mr. and Mrs. George Whitehouse of Hibbing, have rented one of the new residences built by the townsites company and they expect to engage in business in the town.

## Railroad Building

Sixty miles of new railroad lines have been built since the fall of 1910. The Soo line has built the greatest mileage.

## Divides the Ranges

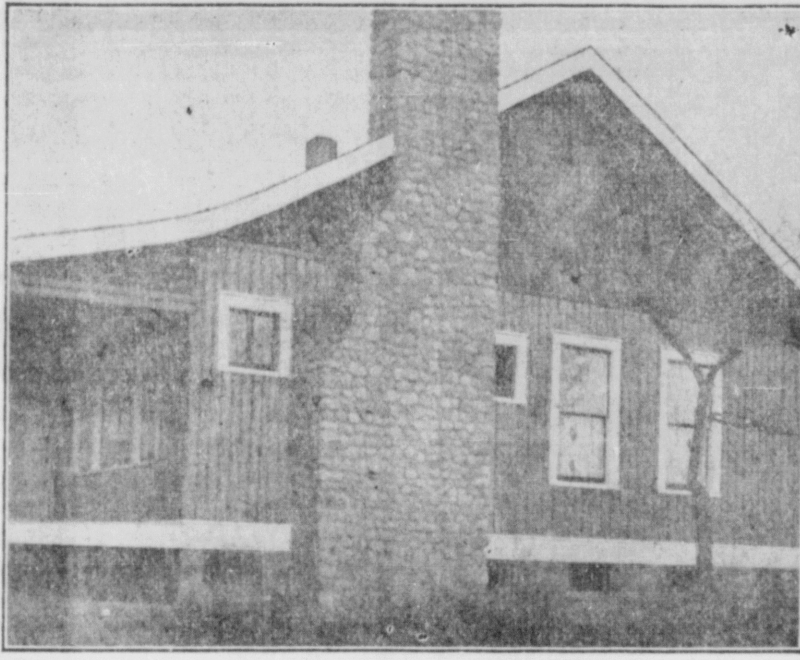

The Northern Pacific railway runs parallel with the district for very many miles. It divides the district into two parallel ranges, known as the North and South ranges.

## Farmers Receive Royalties

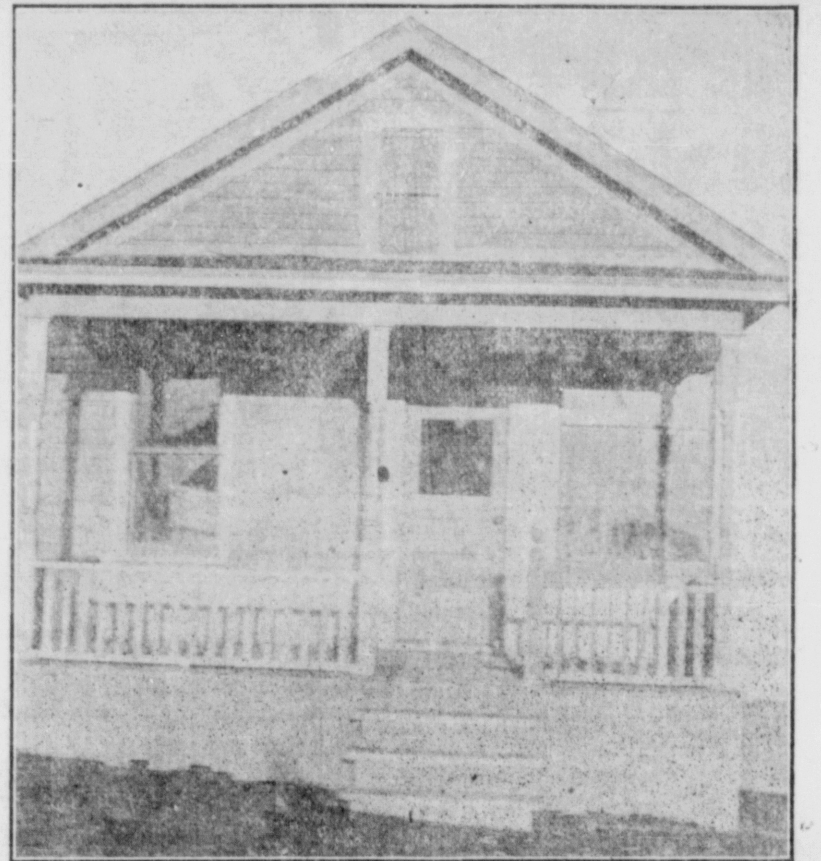

Many farmers are receiving royalty payments every three months for the ores on their farms, now being under lease to some mining company.

## New Towns

The new towns created since 1910 are Cuyuna, Crosby, Ironton, Ironhub, Oreland, Riverton, Manganese and Barrows.

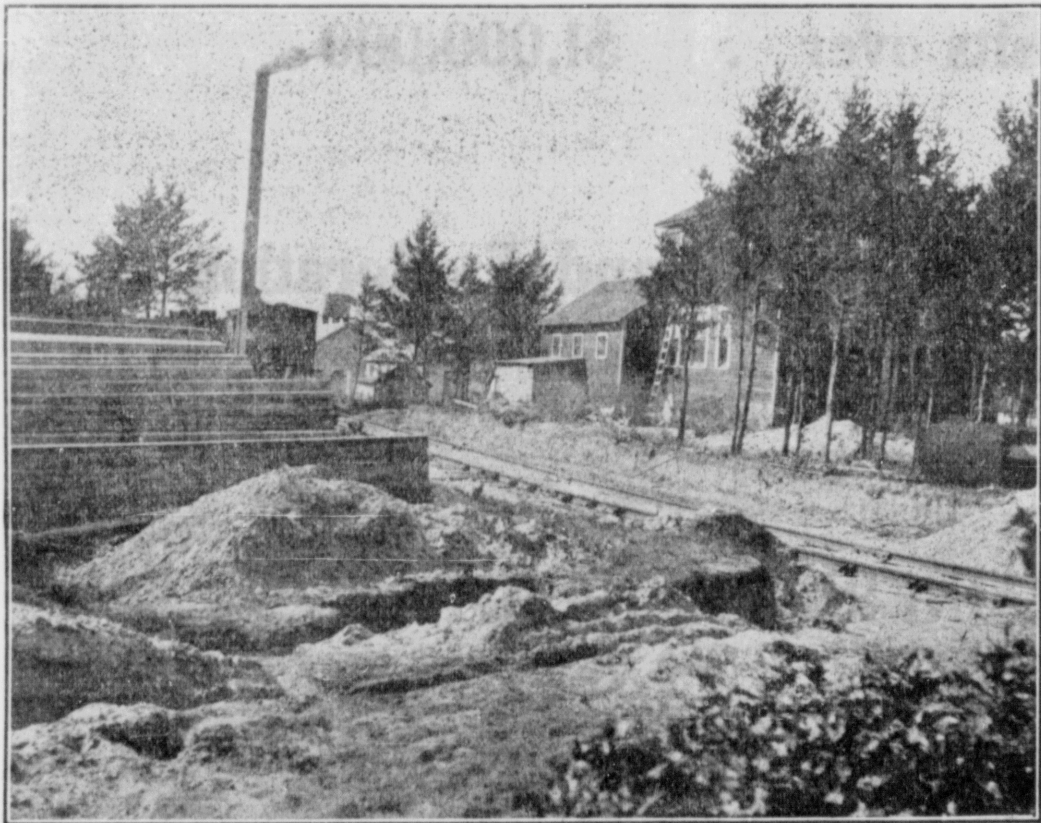

Home of Supt. R. S. Archibald

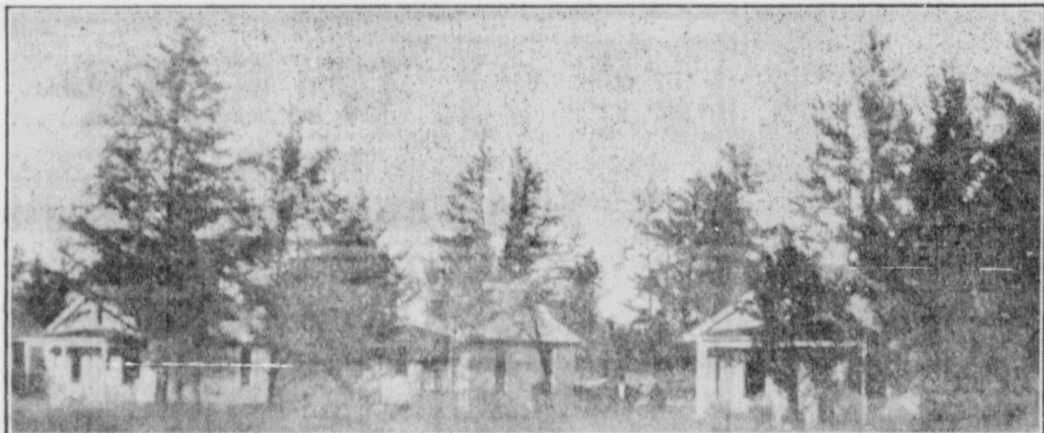

Cottage at Barrows

Mine Buildings at Barrows

Hanna Mine Picture

Group of Cottages at Barrows

heart of some of the best farming country in the state of Minnesota. There is an abundance of good drinking water. The town is located on a sandy loam soil, thus insuring abundant natural drainage for surface waters.

Barrows has cement sidewalks and fine level graded streets. The town has now a fine brick bank building, school house, town hall, depot, express office, hotels, boarding houses, stores and an abundance of well built dwelling houses.

Early in May the Cuyuna Range Power company will light the town by electricity, the current being generated at the company's dam on the Crow Wing river.

One of the hustling real estate men of Barrows is Richard Bergum, who does a fine business buying and selling real estate, writing insurance and also attending to the collection of rentals, etc.

There is considerable talk of starting a commercial club in the town. This is one of the agencies which will do much to promote business in Barrows.

John Logier, of Virginia, Minn., intends to go into the piano business in Barrows and will erect a two story building, 50 by 70 feet in size, of which a part will be used for a music store and the rest of the main floor for a restaurant. The second floor of 24 rooms will be used for rooming purposes.

Otto Mayerli, of Eveleth, agent of the townsites company, had a number of Mesaba range people at the town examining lots this week. All were pleased with the growth of the town and many expect to put up buildings this spring.

H. A. Peterson is doing a good business conducting a general store. His brother Edgar is clerking for him.

C. E. Farnsworth, of Cresco, Iowa, a brother-in-law of C. B. Peck of Duluth, intends to go into the coal and ice business in Barrows.

The C. B. Peck building is rapidly nearing completion. Mr. Peck will run a confectionery store and a pool room. It is to be a fine brick and stone building, 25x60, full basement, store on first floor and large hall on second floor.

Marcus Grande reports he has contracts for the erection of several more residence buildings, some very

## GIVES IMPETUS TO BUSINESS

Cuyuna Range, Says Howard Elliott, to Give Northern Pacific Much Business

## LARGE YARDS AT CARLTON

New Ore Docks at Superior to be Finished According to Contract by June or July

President Howard Elliott, of the Northern Pacific railway, in a recent interview gave out some important information on railway matters.

"One of the great pieces of work which we will undertake this

contain 102 pockets of larger size than the usual ore dock has. Shipping by both our road and by the Soo from the Cuyuna will be large this year.

"As to business in general, it was good last year and gives promise of being better this year. Both east and westbound business last year showed increases, but the eastbound business was the greater, and we could stand more business headed west. It was a trifle unbalanced."

## BUILDING ORE DOCK

## THE LINNEMANN STORE

A Large Store at Brainerd and Thriving Branch Established in Crosby

One of the most substantial of Brainerd's many business houses is the clothing store of Mr. H. W. Linnemann at 616 Front street. Though one of the comparatively new firms of the city, having been established only a little over six years, it has grown in these few years to be recognized as one of the leading firms of northern Minnesota.

The success of this store has been due largely to the policy of the store and to the honest values and square deal that has always been accorded to its customers. The stock in this store is one of the cleanest stocks to

store's patrons uppermost in their minds and it is always their aim to get all the value possible for the customers at the least cost. A visit to this store is well worth while as in it you will find some of the best known lines of men's wear in the country and it is a real treat to see the artistic designs shown there in men's clothing. It is a store where the visitor is always as welcome as the man who comes in to buy.

That this store has faith in Brainerd and the whole Cuyuna range is evidenced by the fact that they have established a branch store at Crosby under the firm name of the Linnemann Clothing Co., where by following the policy of the Brainerd store they have in the year they have been at Crosby built up a large business and have become one of the leading

## You Can Bank on Our Clothes

You bank your money where you know it is going to be safe and where it will be at your service when you want it. When you buy a suit of clothes you want to buy it at the store that you have the same confidence in as you have in your bank, and you want clothes that will be at your service always.

Copyright 1913 The House of Kuppenheimer

Years of square, honest dealing with our customers has earned for us their unflinching confidence. They have learned that they can bank on the goods we sell and know that our guarantee is absolute. An investment in a suit of Kuppenheimer, Sophmore or Artcraft clothes pays the highest possible interest because you get one hundred per cent value for your money; you get a perfect fit, the latest styles, the best workmanship, the highest quality of material and permanency of service.

**Kuppenheimer and Sophmore**  
Suits \$18 to \$25

**Artcraft Suits \$10 to \$18**

Make your Boy's Clothes investment safe. You can do this by coming to this store and asking to see our line of clothes for the little fellows. Just examine the style, fit, materials and patterns—they will appeal to you as satisfactory and acceptable. That leaves your satisfaction taking only one chance—the wear. We safeguard that by the maker's guarantee backed by our own personal guarantee. You can invest \$2.50 to \$6.50

Men's Shoes and Oxfords in all the new shapes and lasts; the low flat heel and rubber sole, in tans and white, dress shoes in blacks and tans, that combine comfort and wear—in fact a shoe for every foot. \$2.50 to \$5.00. Boys' shoes at \$1.50 to \$3.50.

Hats, Caps and Furnishings that are always a safe investment.

**H. W. LINNEMANN**

"Clothes of Quality for Men and Boys"

616 Front Street

Brainerd Minnesota

The First State Bank of Barrows

The First State Bank of Barrows was formally launched a few weeks ago and the directors elected the following officers of the bank:

President—J. P. Ernster, of Minneapolis.

Vice President—John Wahl, of Duluth.

Cashier—R. C. Klinkenberg.

Directors—G. H. Rydberg and John Wahl of Duluth, J. P. Ernster of Minneapolis, R. C. Klinkenberg

of Barrows and E. C. Bane of Brainerd.

The bank starts out with every assurance of success. It pays four per cent interest on deposits. The first statement recently published shows

that a nice business has been done since its organization.

R. C. Klinkenberg, the efficient cashier, was formerly with the Miners National bank of Eveleth.

spring," said President Elliott, "will be the enlargement of the track facilities in the proposed storage yard at Carlton.

"Our work there this year will be only a beginning. Ultimately the additions to the trackage there will give extensive employment to residents of Carlton. The yards there are made necessary by reason of the fact that business in general is growing tremendously aside from the additional business that is coming in during the present year from the Cuyuna range.

"The ore situation as regards our road is very bright. We are now having a slip dredged for the new ore docks which we will construct in Superior this year, and which, according to the contract, must be finished by June or July. The dock will

railway on a \$1,000,000 ore dock at Superior, Wis., and the dock is an indication of the activity of the Northern Pacific in providing for the ore traffic from the Cuyuna iron range.

The dock will cost approximately a million dollars and will be almost entirely of steel and concrete. It will be built 1,300 feet long, 70 feet wide and 80 feet high and will have a capacity of 60,000 tons of ore. The foundation of the dock will be of concrete and steel to a height of 40 feet above the water line and the upper part will be of steel only.

## Millions for Drilling

Over \$2,000,000 have been spent for drillings. One-third of this amount was spent for merely getting through the surface covering.

be found anywhere as no left-overs are carried from season to season. The big sales twice each year clean up all the surplus of the season.

In selecting the stock for the store the buyers have the needs of the

business firms of the growing town of Crosby.

## Catholic Church

A large Catholic church was recently built in West Park addition.

It is attended by parishioners of Iron-ton and Crosby.

## Not Much Water

As a whole the mines of the Cuyuna range contain only a relatively small amount of water.

Miners Homes at Barrows

## Held Much Property

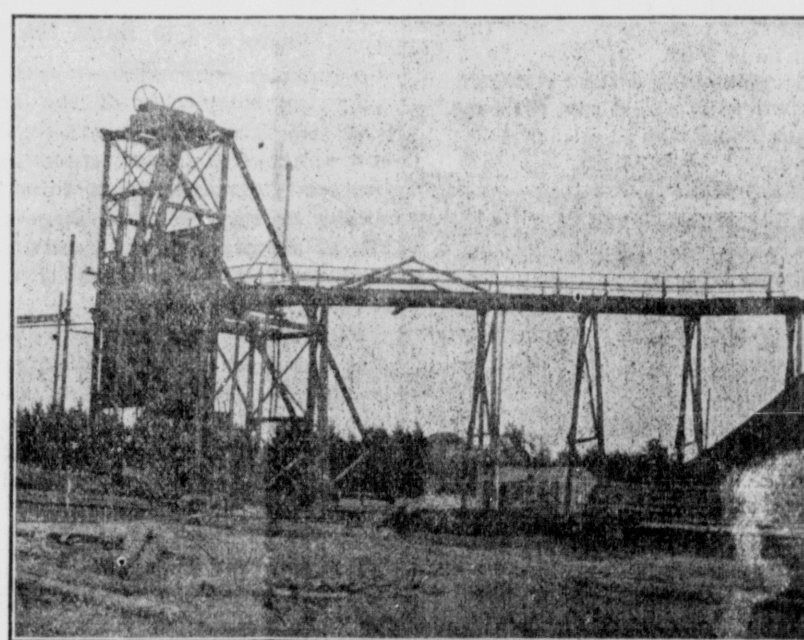

The late George W. Holland, of Brainerd, was about the largest individual holder of developed properties. He received handsome royalties every year. The judge was a faithful follower of the mining industry, and a public spirited citizen.

## 2,500 Drill Holes

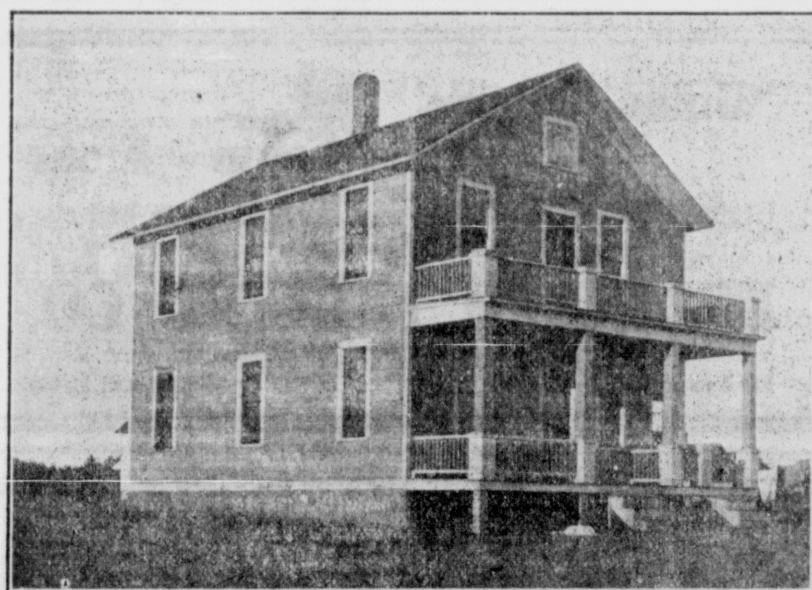

About 2,500 drill holes have been drilled on the range. Drills must be resorted to because all the rock formations are deeply buried.

## Extent of Range

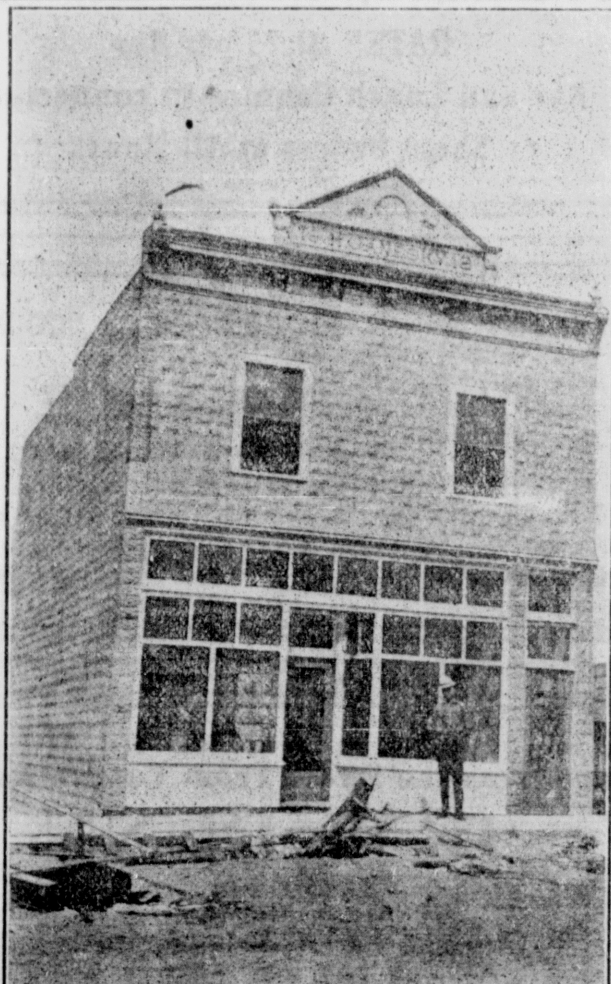

The Cuyuna district embraces about 350,000 acres of explorable land.

## THE BRAINERD STATE BANK

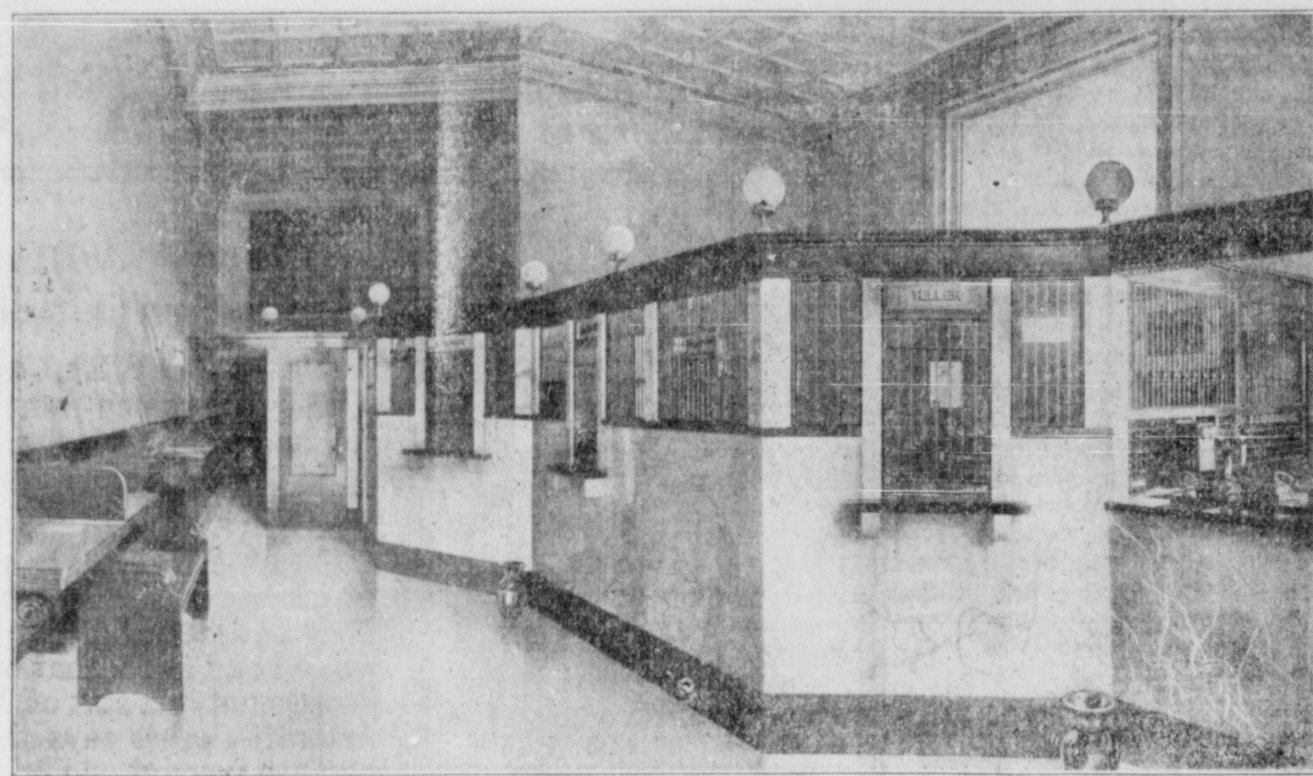

Has its Banking Rooms in the Koop Building, Seventh and Laurel Streets

J. P. ERNSTER IS THE PRESIDENT

Brainerd State Bank Has Had a Remarkable Growth in the Past Few Years

The Brainerd State bank, first organized in 1908 as the Security State bank, and in October, 1910, reorganized and made the present bank, has its banking rooms in the Koop building on the corner of Seventh and Laurel streets.

The stockholders of the bank are Same Cone of St. Paul, F. M. Koop, Sophia A. Arnold, L. M. Depue, V. E. Hanson and H. E. Kundert of Brainerd, H. J. Hage of Deerwood, Rev. A. Lamothé and P. F. Hosch of Little Falls, O. H. Scott of Wadena, John

Interior of the Brainerd State Bank

## STONER DAM SOON TO GENERATE POWER

Massive Concrete Structure Across Crow Wing River is About Completed

### ELECTRICITY FOR THE RANGE

Cuyuna Range Power Co. Recently Closed a Contract to Light the City of Brainerd

The great Stoner dam of the Cuyuna Range Power Co. situated on the Crow Wing river is about completed and power will soon be furnished to light with electricity the city of Brainerd and the entire Cuyuna iron range.

Viewing the massive steel and concrete dam impresses one with the enormity of the structure. The dam

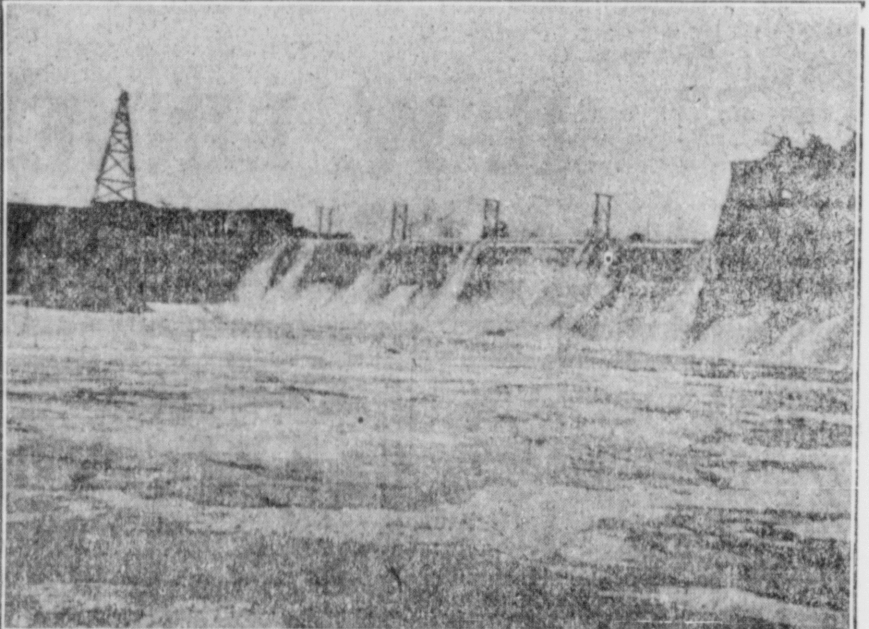

used to carry the high tension wires about the range.

The Cuyuna Range Power company of which M. D. Stoner is the president and general manager, T. H. Croswell vice president and A. W. Miller, secretary and treasurer, now lights the towns of Deerwood, Crosby, Cuyuna, Ironton and supplies power to the various mines on the range and will soon light Brainerd, Oreland and Barrows.

The Stoner company, as it is popularly called, has a steam auxiliary in Deerwood, a sub-station in Cuyuna and will establish an auxiliary in Brainerd. The general offices will soon be established in Brainerd.

In time another water power is to be established at Motley, in addition to the one now on the Crow Wing river.

All Round Man.  
"Does he belong to the 400?"  
"Yes, indeed. He's one of the cl-  
phers!"—New York Mail.

Type of Drill Exploring the Cuyuna Range

## ORGANIZE PICKLING PLANT IN BRAINERD

W. H. Cleary the Moving Spirit in the Enterprise Assisted by Henry Davis

### DAVIS' PICKLES WIDELY KNOWN

Seed to be Furnished by Pickling Co. to Growers Within Radius of 4 Miles From City

Brainerd's dream of a pickle factory is to become a reality and W. H. Cleary is the moving spirit who will put the pep in peppers and make the enterprise a success. Associated with Mr. Cleary is a practical man in the pickle business, Henry Davis, who has had years of experience in the work and whose product, the Davis pickles, are known all over the state. In fact, Mr. Cleary's attention was first attracted to the pickles when he saw what a good seller they were.

There is no better indication of the faith men have in their county and city than when they embark in enterprises which develop home resources and this pickling plant will be the cause of making waste places and neglected acreage in Brainerd and within a radius of four miles from Brainerd, for that is the territory which will first be tapped, blossom into living, green cucumber vines.

The firm will be known as the Brainerd Pickling company. Contracts to raise cucumbers will be made with the farmers and seed sold to them. Mr. Davis will plant ten acres himself and his place will serve as a sort of demonstration farm. He has rented the Allston place on the East Oak street road and has also secured the Stafford farm.

It is expected to pack from 1,000 to 1,500 casks of pickles this year. Mr. Davis has been in the pickle business seven years. Every storekeeper in town has handled his pickles. By prudent cultivation and prompt pickling a farmer can make from \$75 to \$150 an acre on pickles. An average crop is \$100 an acre.

## LARGE TRADE AREA ADDED TO BRAINERD

Crow Wing River Bridge is Completed With Exception of Some of the Work on Approaches

FARMERS WILL FILL IN THESE City, Three Counties and Township Contributed to Build the Structure

By the completion of the bridge over the Crow Wing river Brainerd has annexed a large trade area. Brainerd is made closer than Port Ripley or Pillager to a large number of farmers living southwest of Brainerd and in territory tributary to this city.

Prominent in agitating the building of the bridge, in raising money in the city for the project and in stirring up sentiment for the bridge and seeing that it was completed was the committee from the Brainerd Commercial club, Messrs. H. W. Linemann, George D. LaBar and Con O'Brien. The committee circulated petitions and raised in Brainerd some \$600 which was devoted to a preliminary survey, to the actual building and other necessary expenses.

Sharing in the expense of building the bridge with the Commercial club committee were the counties of Crow Wing, Morrison and Cass and the township of Rail Prairie.

### PRESIDENT'S SUMMER OFFICE

Government Building at Windsor, Vt., Will Be Used by Staff.

The government building at Windsor, Vt., will be used for the executive offices during the time that President Wilson spends at his summer home near Cornish, N. H.

Courtrooms on the second floor which are ordinarily used only a few days each year will be utilized by the Washington officials, and telegraph companies are making plans for branch offices in the building. There are five or six rooms available for use as private and public offices and telegraph rooms and for other purposes.

Surveyors recently began laying lines for the new Wilson road to be built from the village to the Winston Churchill estate, which is to be occupied by President Wilson. The cost of the road is to be borne by the state.

### WHOOPING COUGH.

A Highly Contagious Disease That Should Not Be Neglected.

Many persons regard whooping cough as tedious and annoying, but quite without serious importance. Unfortunately that mistake often leads to the neglect of the disease itself and the failure to isolate the patient properly. Recent statistics show that of the children under one year of age who have whooping cough one in four dies. The mortality decreases rapidly with advancing age, and at five years of age only one patient in fifty dies. Ten thousand children die of this disease every year in the United States.

Even when whooping cough does not result fatally it is still to be dreaded, for it may be followed by consumption, since the patient's powers of resistance are often greatly weakened by the violent and exhausting cough.

The disease is highly contagious, although the offending germ has not yet been discovered. Consequently the mother or the nurse of a child with whooping cough ought never to take it into public conveyances or to entertainments or send it to school or to church—anywhere, in short, where it will expose other children to the infection.

The disease begins like a simple cold in the head and rapidly goes to the chest. The cough is at first short and sharp, but gradually increases in severity and occurs in paroxysms. At the end of one of these attacks the air is pumped completely out of the lungs and the child feels that he must take a deep breath at once. But now a spasm of the larynx occurs, and only a small opening is left for the air to enter. Through this opening the child draws his eager breath and thus makes the peculiar noise of "whoop" that gives the disease its name.

Often vomiting follows a severe attack of coughing, and sometimes there is nosebleed or hemorrhage from the throat or into the eyes.

Never neglect the treatment of whooping cough. At present we know of no cure for the disease, but the child should always be under the care of a physician, who can do much to mitigate the severity of the cough and to prevent serious complications.—Youth's Companion.

### Cuba.

Cuba is 700 miles long and varies in width from about 25 to 100 miles. It is about the size of Pennsylvania.

Skill as Pitcher Saves Him.  
Charged by a wounded deer and unable to use his rifle, which had jammed, Clark Griffith, manager of the Washington American league team, saved himself from probable serious injury by his old time skill as a pitcher. Seizing a stone the size of a baseball, he threw and struck the animal on the head, felling it. He then killed it with the butt of his gun.

## NORTH MINNESOTA WELL ADVERTISED

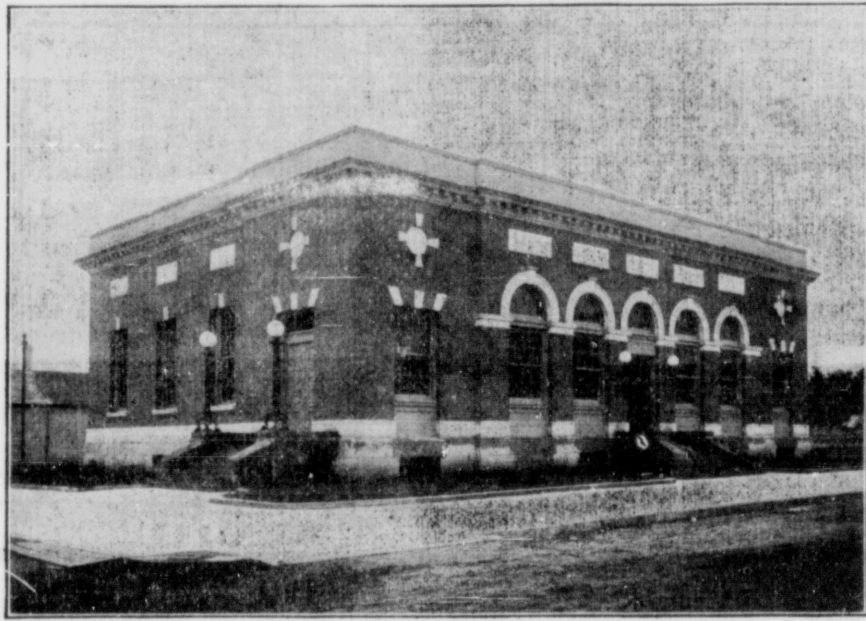

Northern Pacific and Minnesota & International Railways Issue  
50 Page Booklet Giving

### ITS AGRICULTURAL RESOURCES

Cover and Contents Embellished With  
Many Scenes from Crow  
Wing County

The Northern Pacific and the Minnesota & International railways have recently issued a 50 page booklet devoted to Northern Minnesota and describing the agricultural resources of this section of the state.

The cover and many of the pages are embellished with scenes from Crow Wing county. The cover is printed in two colors and on the first page of the cover design is a large picture of two haystacks carrying heavy loads of the new mown hay. This and many of the other Crow Wing county pictures mentioned were taken by the photographer engaged by the Brainerd Commercial club to illustrate its booklet boosting Crow Wing county. Smaller pictures above show the silo on James M. Elder's

Brainerd's Handsome Postoffice

farm southeast of the city and cattle grazing on the Con O'Brien farm. On the back page of the cover is a large view of Fred H. Gruenhagen's farm on the south 13th street road. It shows plainly his new silo and barn, the residence and other buildings, windmill, etc. Above and below are smaller pictures revealing views of farm life, the tail end picture a bunch of porkers feeding at a trough.

Studying the pages of this publication makes a man proud of his home state. And place one of these books in the hands of a tenant farmer of Iowa, Illinois or Wisconsin and he will come forthwith to Minnesota. Reviewing the pages of this booklet brings back the breath of the new mown hay, the scenes of planting, and threshing and harvesting. Show that book to the man in a stuffy office chained to his desk and it will be a powerful stimulant to start the "back to the farm" movement.

Of interest are the personal experiences of Minnesota farmers detailed in letters addressed to Mr. J. L. Bricker general immigration agent of the Northern Pacific railway.

W. B. Jones of Sylvan whose farm is a few miles west of Brainerd along the Northern Pacific railway in his communication dated October 21, 1912, says: "Oats this year have yielded from 30 to 60 bushels an acre; clover seed 3 bushels an acre; potatoes 200 bushels; flax 14 bushels; wheat 25 bushels; corn 40 bushels; alfalfa 500 bushels; hay a ton and a half an acre. Land prices are advancing very fast and land has doubled in value here in the last ten years. Population is increasing the valuation of stock and land; there are double the number of children going to school in Cass county than were five years ago."

We have a new creamery, built in May, which has all it can do to take care of the cream. If settlers keep coming the land will double in price in the next five years. This is a good healthful country, with plenty of pure water and all kinds of fish and game. We have a good class of new settlers, who are pleased with the country and are bringing their old neighbors here to buy more land. It will not be long before our lands will sell for \$40 or \$50 an acre."

### A PUBLIC MARKET

Idea Has Been Favored by the Boosters Club of Brainerd—Sentiment Favors It

The Boosters club of Brainerd has publicly favored the establishment of a public market in Brainerd as something which would benefit the farmers and the city residents. Public markets have been successful in Dubuque, Iowa; Indianapolis, Ind., and many other cities.

During the past months the idea has been thoroughly discussed by the farmers and sentiment may soon crystallize in the establishment of such a convenience.

### Discharging the Cook.

"Well, cook's gone at last, John," said Mrs. B.

"Good. You must have had more courage than I gave you credit for to discharge her."

"I didn't do it. She discharged herself. I flattered her so about her cooking that she thought she was too good to stay with us, and off she went."—Exchange.

### THE FARMERS' UNION

Association Formed by the Farmers of Crow Wing County Primarily to Raise Potatoes

The Farmers Union was primarily formed to secure uniformity in the growing of potatoes and the club was first known as a potato club. Later other activities engaged the attention of the members. Their meetings have been held at the Brainerd Commercial club rooms, and the fact of their meeting in that place shows the attention the Commercial club is taking in the promotion of good farming ideas.

The officers of the club are: President—Fred H. Gruenhagen. Vice President—T. C. Pointon. Secretary-Treasurer—Henry Bouck. The club has 64 members. By agreement, the farmers will raise Early Ohio, Carman and Burbanks this spring.

### A Woman's Question.

"One of the doctors says a woman can keep well by doing her own housework."

"Yes, but how, if she does that, can she keep her hands fit to be seen by her friends?"—Chicago Record-Herald.

## LONG LAKE MUTUAL FIRE INSURANCE CO.

The Company is Composed of Prosperous Farmers of Crow Wing County

### ANTON WEBER IS PRESIDENT

Henry M. Bouck, Secretary—Losses of \$1420 Were Paid During the Past Year

The Long Lake Mutual Fire Insurance company is composed of prosperous farmers of Crow Wing county. The directors are C. H. Clute, of Fort Ripley; A. H. Holst, George S. McCulloch of Oak Lawn, Anton Weber, Henry M. Bouck, K. J. Nesheim, P. S. Taylor, of Long Lake, Nels G. Olson of Maple Grove, George Frutt of Daggett Brook. The officers are: President—Anton Weber. Vice President—George S. McCulloch.

Secretary—Henry M. Bouck. Treasurer—John A. Sandgren. The company paid \$1420 in losses in 1912. The balance on hand December 31, 1912, was \$849.68. The company is in excellent financial shape and able to pay losses as soon as adjusted.

### PRESENT TERMINUS OF SOO

Soo to be Built West to Hydraulic Mine at Little Rabbit Lake East of Brainerd

About nine miles east of Brainerd is the present definite terminus of the Soo Line, whose engineers have however been surveying westerly towards Brainerd.

Connections will be made between Brainerd and Riverton by a launch service to be installed on the Mississippi river, carrying passengers and freight.

Steamers and launches now plying on Rice lake at Brainerd will be able to make the trip eight or nine miles up the river and it is believed through the stream connecting Little Rabbit with the river.

As an excursion route and also probably as a freight and passenger line the river will offer many opportunities to the enterprising launch and boat men of Brainerd. Serpentine lake at Deerwood offers water communication with Crosby and enables Crosby people to take the Northern Pacific trains at Deerwood. In the same manner the Mississippi will connect Brainerd with the Soo, until such time when the Soo as it is fully believed, builds its way into Brainerd.

### PICTURE SIGNATURES.

Difficult to Find Sometimes and Not Always Reliable.

Many of the works of the old masters are not signed. Experts rarely rely on signatures alone in determining the authenticity of an old work, but trust rather to their knowledge of the painter's technique.

False signatures can be easily detected. Spirits of wine or turpentine will usually remove a name of later date than the painting. In the course of time signatures often become very difficult to find. Painted originally in a shade slightly lighter than the ground, perhaps, they sink in, darken and merge into the ground color or they are almost rubbed away by successive cleanings. Recognizable one day in a specially favorable light, they may not be visible again for weeks. Experts speak of "will-o'-the-wisp" signatures, and many collectors have encountered accidental strokes and cracks that tantalizingly suggest a signature, though it can never be made definite. On the other hand, there have been remarkable cases of such marks, after careful study, resolving themselves into a famous name.

Sometimes the painter's name is most conspicuous—as, for instance, in Raphael's "Sposalizio" at Milan. Proud of having surpassed his master, the youthful genius wrote on a frieze in the very center of the canvas "Raphael Urbino."

Reynolds hardly ever signed his work. But upon the completion of the portrait of Mrs. Siddons as the "Tragic Muse" he wrote his name large on the gold embroidery of her dress. He was unable, he said, "to resist the temptation of sending my name to posterity on the hem of your garment."

With reference to unsigned paintings there is told in Germany an amusing story. Achenbach, the German artist, enjoyed a vogue about ten years ago. A certain collector had bought from an art dealer a marine represented as a genuine Achenbach. Afterward it was pronounced to be a copy. The buyer brought an action against the dealer, who turned the tables by declaring that his picture was genuine and the other was a copy.

Achenbach himself was summoned by the court to tell which was which. Amazed at the similarity of the two paintings, the artist gazed at them for a long time, inspected them closely front and back and then frankly admitted that he could not tell which was the original and which the copy.—Harper's Weekly.

### WILL HELP FARMERS TO SELL.

New Federal Bureau to Develop Methods of Marketing Farm Products.

Dr. Thomas N. Carver of Harvard university has been appointed by Secretary Houston to take charge of the proposed rural organization service, a new branch of the department of agriculture intended to aid the farmer along economic, social and co-operative buying and selling lines.

The efforts of the service will be directed toward teaching the farmer how to market his products to better advantage. The work of the department in the past has been largely addressed to questions of production, rather than to buying, selling and the social problems of farm life.

## FARMERS FORM A CREAMERY COMPANY

Pequot Incorporators are Messrs. Schrader, Johnson, Thurlow, Anderson, Fulton and Mathison

IS CAPITALIZED AT \$2,000

Ludwig Mathison is First President and Olaf Olson the Secretary of the Corporation

The Farmers Cooperative Creamery association has been formed by Pequot men for the purpose of buying and selling, manufacturing and dealing in milk, cream, ice cream, butter and cheese.

The incorporators are F. G. Schrader, E. W. Johnson, J. G. Thurlow, Ray Anderson, J. B. Fulton and L. Mathison. The five directors, president, vice-president, secretary and treasurer are to be elected annually the last Tuesday in March.

The capital stock is \$2,000, there being 200 shares at \$10 each. The highest amount of indebtedness allowed is \$2,000 and no shareholder shall be liable for more than the shares he holds at \$10 each.

The first officers are: President—Ludwig Mathison. Vice-President—J. G. Thurlow. Secretary—Olaf Olson. Treasurer—W. H. Cloud. Directors—J. P. Bakken, O. T. Olson, A. T. Kimball, Frank Murray and W. E. Barnard.

### BROKE UP THE GAMES.

Charley's Antics With His "Bread and Butter an' Sugar On."

Charley was a nice husky boy, but he had one serious fault, which I deem it my duty to mention, although it was perhaps a natural symptom of real boyhood. In the middle of an exciting game of woolly-woolly-wolf, three-old-ent, nibs or shindy he would slip away home, to return presently with a perfectly paralyzing slice of bread an' butter an' sugar on.

Now, if you were ever a boy yourself you'll agree that Charley was very immoral to behave that way. The effect was always disastrous. The game would come to an immediate halt, while every kid in the bunch gazed longingly at Charley's lunch, each of us ruminating silently on the wisdom of a combined attack, since none of us would for a moment think of trying to share the tempting tidbit single handed. And that, too, you will say was natural enough if you've been a boy.

But the particular reason why Charley's offense was immoral was the way he carried his bread an' butter an' sugar on. He didn't hold it in the grasp of his hand like other boys; he elevated it daintily on the tips of his fingers and thumb, just as a waiter carries a tray. That, I say, was immoral. And he ate around it in concentric circles, ever approaching the supreme saccharine pinnacle of palatability at the geographical center of the slice. But long before he had circumscribed his luncheon the first time most of us would be scampering for home to get the nearest imitation that long suffering mother could produce.—William Brady, M. D., in Outing Magazine.

Corrects Municipal Grammar. Irritated by the ungrammatical form of "Go Slow" signs posted as warnings to automobilists, the West Orange Improvement league of West Orange, N. J., recently asked the town council to change the signs to "Go Slowly."

### THE FIELD OF VISION.

Even Persons With Normal Eyes Are Partially Color Blind.

The various tests for color blindness have come into practical use in the examination of railroad engineers and the like, where the ability to distinguish colors is necessary, so that these tests are no longer peculiar to the laboratory. But it is not generally known outside the laboratory that everybody is partially color blind—that is, in certain parts of the field of vision. The most normal individual can see all the colors only when he looks directly at them. If looked at from an angle of about fifteen degrees red and green can no longer be seen, but in their places will appear shades of yellow or blue. This region of the eye is known as the yellow-blue zone. If the color be moved still farther to the side the yellow and blue will disappear and only gray can be seen. This region is known as the zone of complete color blindness.

An interesting theory in regard to these zones is that every normal eye represents three stages of evolution. The zone of complete color blindness is the lowest stage and appears in such animals as the frog, whose vision is known as shadow vision. The blue-yellow zone is one step higher in the scale, although not clearly marked off in the animal kingdom. And the appearance of the red-green zone marks the highest stage of evolution. Cases of color blindness are, according to this theory, a lack of development beyond the early stage in the individual life.—Professor Poffenberger in Strand Magazine.

A Slur. "See, I am familiar with your music," remarked the amateur at the musicale the other evening.

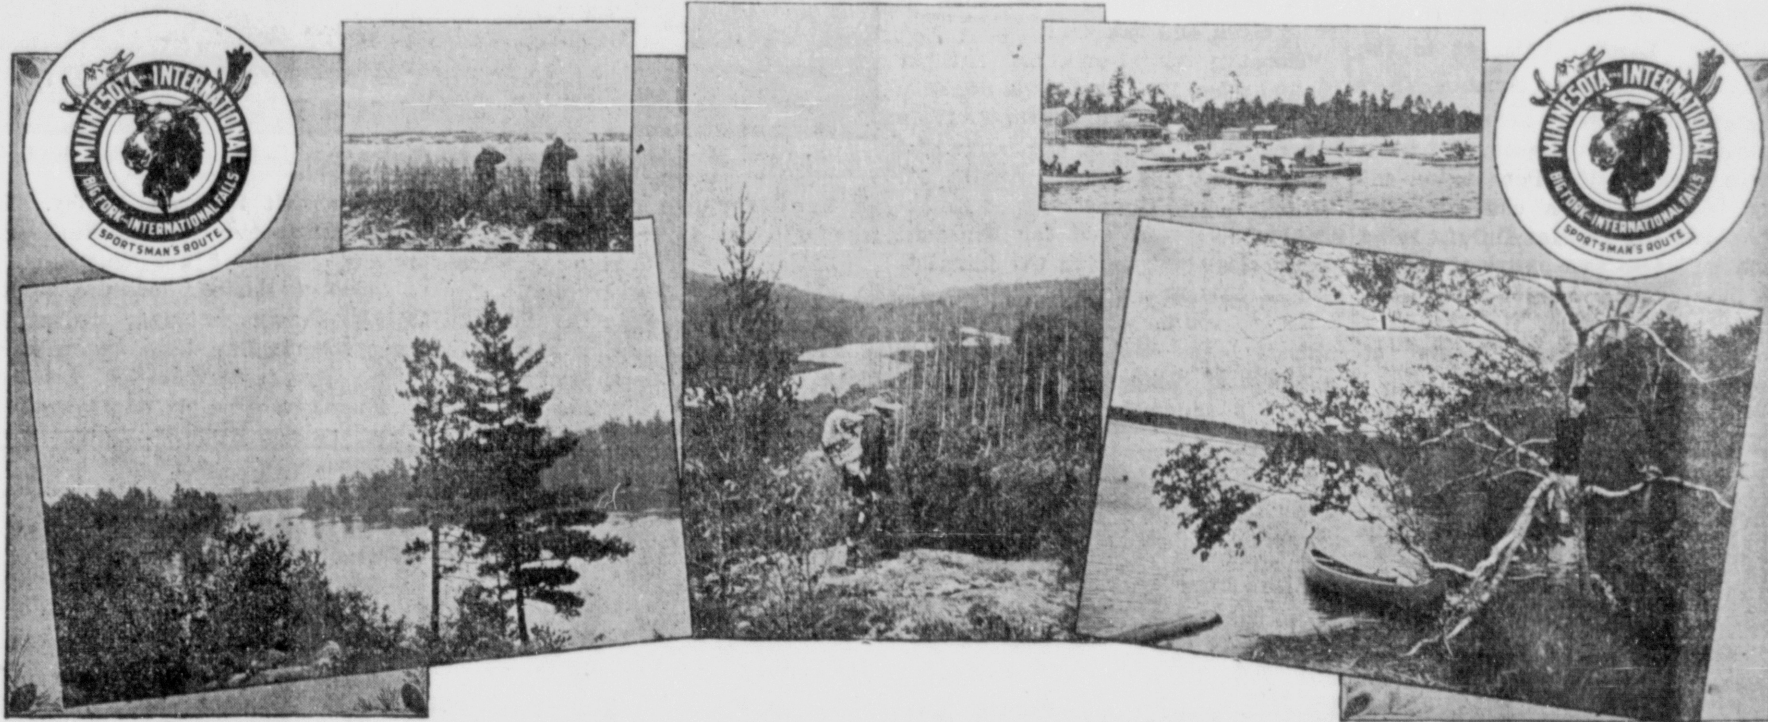

"It seems so," replied the popular composer. "You are taking liberties with it."—Magazine of Fun.

# NORTHERN MINNESOTA

As reached by the lines of the

## Minnesota & International and Big Fork & International Falls Railway Companies

is a land of wonderful possibilities. It contains the largest body of homestead lands yet remaining in the United States within the humid belt; is rich with vegetable accumulations of centuries, and is pronounced by agricultural experts as the ideal dairy region.

Settlers are just beginning to realize what a splendid opportunity there is to acquire homes in this rich territory at comparatively small cost and they are now beginning to come to Northern Minnesota in large numbers.

The railroads are encouraging farmers in the direction of scientific agriculture by establishing five acre farm plots for which they furnish seed and instructions free, and pay the farmer a bonus for cultivating them according to directions.

Good land can be found in the vicinity of the towns of Pequot, Pine River, Backus, Guthrie, Bemidji, Blackduck, Kelliher, Northome, Big Falls, Littlefork and International Falls.

Train service is such that the markets of Duluth, Superior, St. Paul and Minneapolis are accessible for the produce of the farm so that the transportation problem for the settler is solved.

The Northern Pacific and Minnesota & International railway companies have just published an illustrated booklet on Northern Minnesota. For a free copy of this booklet, and of that entitled "Minnesota Lakes," describing the beautiful outing territory served by these lines, send your address to

W. H. GEMMELL, General Manager, M. & I. Ry., Brainerd, Minn.

## IRONTON, WHERE THE MINES ARE

Town is Growing Rapidly and is Developing Into One of the Best Places on the Range

### A MINE ON THE TOWNSITE

Ed. Syverson Very Successful in Handling Smith's and West Park Additions

The town of Ironton was originally platted in 1910 by John H. Hill and E. A. Lamb. Adjacent to the big Armour No. 1 and Armour No. 2 underground mines, which will be large shippers this season, the town is also close to the Pennington pit mine. On the north end of the townsite is the Cuyuna-Duluth mine which will also soon enter the shipping lists. Farther north is the Cuyuna-Mille Lacs mine. In fact, six mines are within easy access of Ironton.

With so much mining being car-

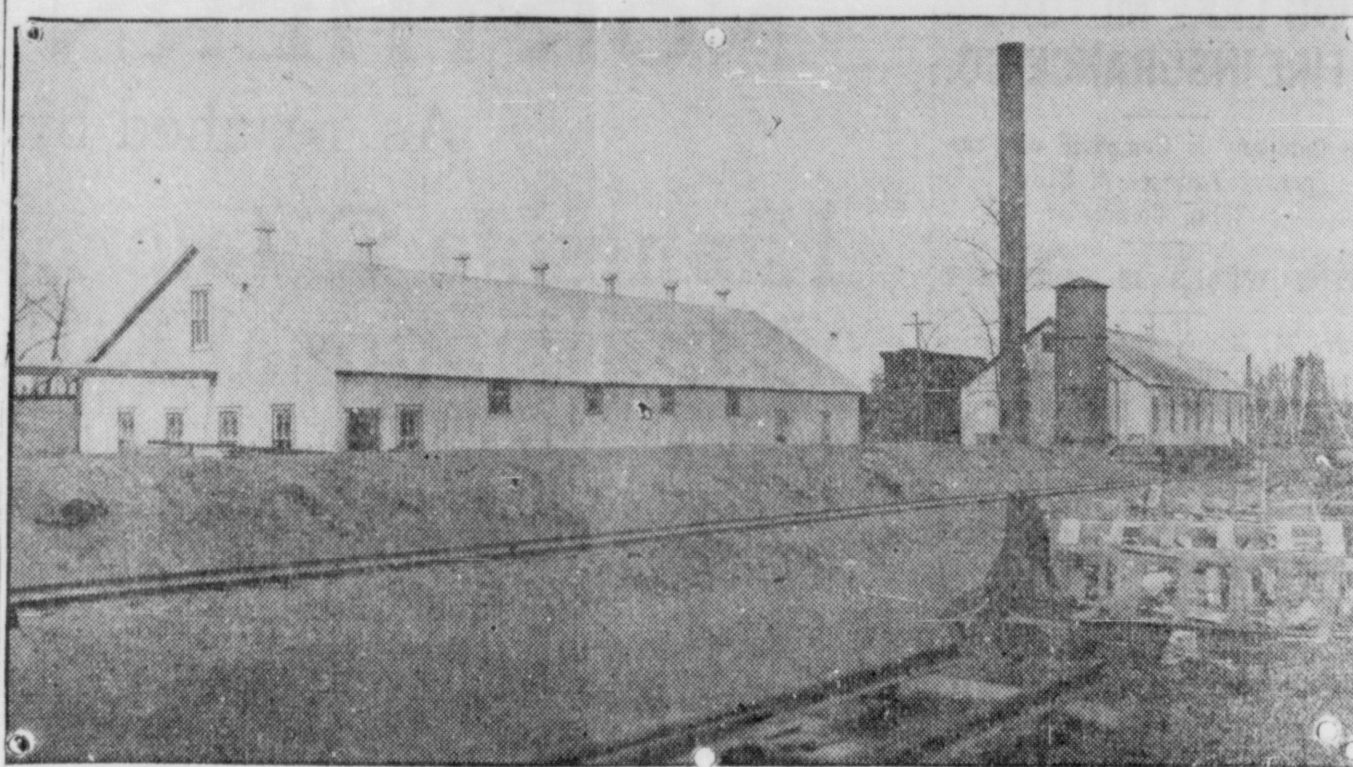

lots, they bought them to make homes thereon and not for speculation. Business men bought lots for the purpose of erecting thereon structures in which to carry on business enterprises.

The two additions are within a few minutes walking distance of six large mines on the range and within a short distance of both Crosby and Ironton schools.

All the residence lots are covered with beautiful shade trees such as pine, birch and oak trees.

The Cuyuna Northern railway company has just located its depot in Ironton and the first passenger train service to this part of the range was inaugurated this week, April 27. Largely due to the activity of Brainerd business men and the Brainerd Commercial club is due the installation of this fine service.

Mr. Syverson, who sells farm and mineral lands and writes insurance in the best companies, last week made the following sales in West

Thompson Mine of the Inland Steel C company, Between Ironton and Crosby Will Ship This Season

all fine structures ranging in value from \$700 to \$1,500 each.

Charles Johnson is building a home on lot 21, block 12 of Ironton.

Joe and John Stanich, formerly of Virginia, are building a business block on lot 22, block 7 of Ironton and will enter the clothing business.

from a visit in Twin Valley. Her mother was sick several weeks and is now regaining her health.

Celestin Maheu, foreman of the Rogers-Brown Ore Co., visited his property on Bay lake which he recently purchased from Ed. Syverson. A tenant is to be placed on the land

**BANK AT IRONTON**  
First State Bank of Ironton, Organized in 1912, Doing a Flourishing Business

The First State Bank of Ironton was chartered to do business May 2,

## SPINA TO SOON ERECT HOTEL

Two-Story \$35,000 Hotel to be Built Corner Ironton Ave. and Fourth Street in Ironton

### NEW RAILWAY DEPOT LOCATED

Recent Strike of the Underground Miners Had no Effect on Ironton Business

Ironton, Minn., April 26—John H. Hill, one of the founders of Ironton, returned Wednesday night from an all winter trip throughout the south and the southwest. Mr. Hill comes back greatly improved in health.

Peter Spina will soon commence the erection of his two-story, 28 room hotel, to cost about \$35,000 and located on the corner of Ironton avenue and Fourth street.

John E. Mattson has platted a six-acre addition to the west of Ironton. This land was thoroughly drilled by the Interstate Exploration company to see if mineral was on the land. It is the plan to have the new plat make connection with Ironton streets from Second to Sixth streets.

Henry Lefko, of Crosby, has a

branch store in Ironton and is doing a good business there.

The recent strike of the underground miners affected Ironton but very little. The big pit mine of the Pennington worked on full blast, and the Cuyuna-Mille Lacs and Cuyuna-Duluth mines were not affected. Drill work and other explorations continued unabated.

Brush and grass fires have caused trouble about the village and recent rains have done much to put an end to them.

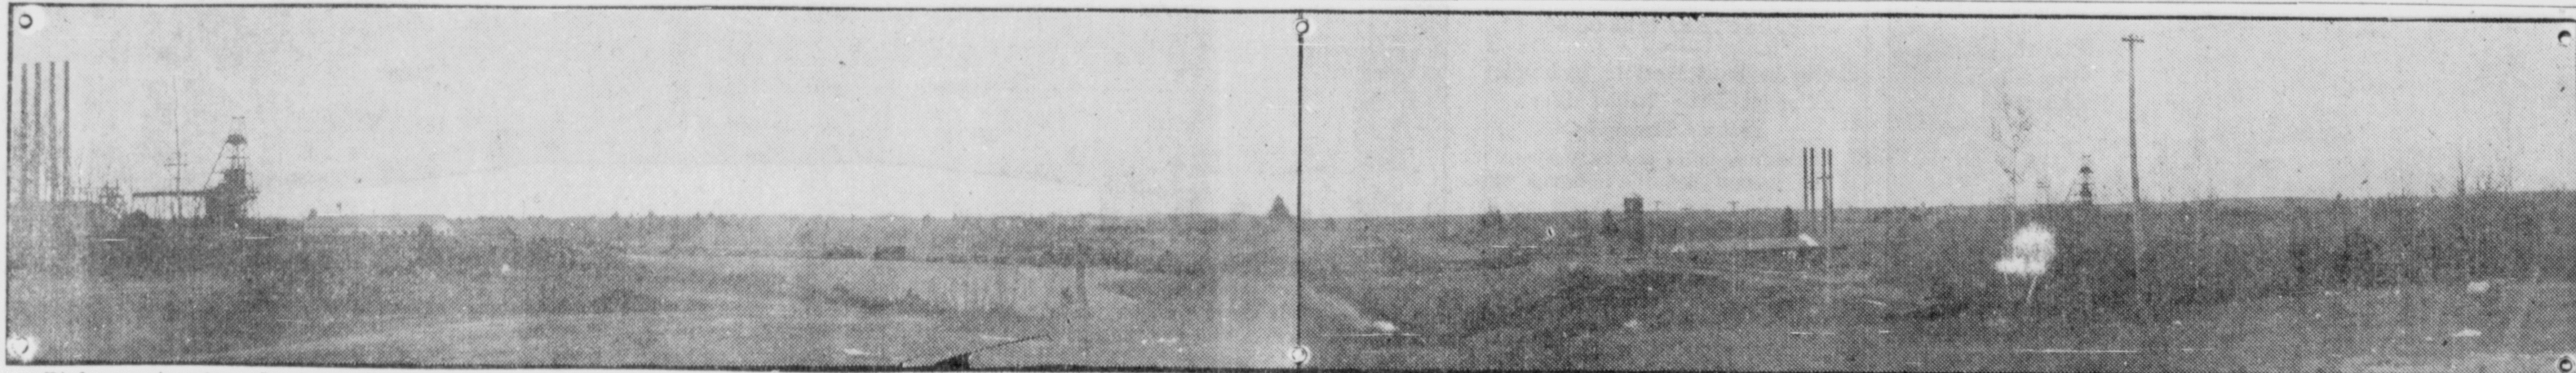

P. J. Long was at Duluth last week attending to business matters.

Philip Ellingson, M. B. Ellingson of the First State bank of Ironton and Frank Patrick have bought automobiles.

A three coach special carrying officials of the Northern Pacific railway arrived in the town Wednesday and definitely decided on the location of the depot in Ironton.

Ironton will soon rejoice in train service, the installation of which in great measure was secured by the efforts of Brainerd business men who worked hard for a train to the Cuyuna range.

Contractor C. B. Rowley, of Brainerd, has the contract bricking in two large boilers for the Cuyuna-Duluth mine.

Birds-eye view from Ironton. Taken from the big Ore Body of the Cuyuna-Duluth Iron Company, and Showing the Armour No. 1 and Armour No. 2 Shafts. All three mines are big shippers this season.

—Courtesy Duluth Herald

ried on right in the town and on its very borders, there can be no question as to the permanency of Ironton. It is there to stay and it is the kind of a town which offers permanent employment to people.

One of the prominent real estate men of the town is Ed. Syverson. He was the first resident of Ironton, the first man to erect a building there and the first man to engage in business in Ironton. Possessed of a large acquaintance, affable and accommodating, Mr. Syverson is an expert when it comes to handling large sections of business and residence property.

When Ira W. Smith platted his two subdivisions adjoining Ironton to the east he decided that Mr. Syverson, showed the necessary hustle and spirit to attract people to town and to purchase lots in these subdivisions. And he was not mistaken in his surmise.

By a skillful campaign of advertising and by personal appeal Mr. Syverson soon sold a large number of lots. When men bought residence

Park and Smith's additions really to Oscar Asleson, G. A. Anderson, Martin Abrahamson, John E. Blom, John Butarac, Joe Batarac, Fred Hertz, Kaute J. Jacobson, Wester Kangas, Nestor Lindeman, Oskor Lindeman, Charles Liliewig, Raymond F. Meager, Gust Norlander, George Perpie, John Rademacher, George Viikale, Joe Briski, Thomas Borick, Obrad Dubrijevich, Anton Dolosich, Elija Evanovitz, Erling Herstad, Anton Ludowski, Stanislaus Ludowski, Matt Kochever, John Merhar, Benjamin Milender, Peter Obradovich, Mike Pinich, Nick Povlich and Anton Sepiel.

Residences under construction in West Park addition are: Joseph Briski residence on lot 9, block 13; Carlo Burcar on lot 7, block 17; Anton Dolosich on lot 14, block 5; Elija Evanovitz, lot 14, block 12; Erling Herstad, lot 1, block 15; Anton Ludowski, lot 13 block 5; Matt Kochever, lot 2, block 14; Benjamin Milender, lot 14, block 9; Mike Pinich, lot 3, block 10; Anton Sepiel, lots 17 and 18, block 5. These are

Isaac Frazer, of Brainerd, a new resident of Ironton, is putting up a fine two story residence in West Park addition.

C. H. Shanahan, of Chisholm, is building a large rooming house on lot 8, block 17, of West Park addition.

Officials of the Northern Pacific railway have decided that the Cuyuna Northern depot is to be on the east side of block 15 of Winona avenue in Ironton.

I. W. Smith has returned from a trip to Wisconsin and on Wednesday was at Ironton consulting with his agent, Ed. Syverson.

Peter Spina has moved his saloon from the Mattson property to his new location in Ironton.

John Bergen has sold his home, one of the first residences erected in Ironton, to Manni Anderson.

Mike Rajacecz is building a house on lot 3, block 2 in Ironton. The structure is to cost \$2,000.

Mrs. Bertha Edstrom, of Aitkin, now gives piano lessons in Ironton.

Mrs. Ed. Syverson has returned

and berry culture will be carried on, as Mr. Maheu anticipates becoming a member of the Bay Lake Fruit Growers association.

Howard Olts was at Duluth during the week.

### Deepest Hole

1010 feet is the depth of the deepest hole drilled on the Cuyuna range. It is a 60 degree hole put down by the C. M. Hill Lumber company in section 10, township 46, range 28.

Cole & McDonald had the drill contract.

Deep holes have also been sunk by the E. J. Longyear company of Minneapolis of which company P. W. Donovan, of Brainerd, is the Cuyuna range superintendent.

### First Hole Drilled

Cuyler Adams, of Deerwood, and his associates drilled the first hole in the Cuyuna range district. He also built the Cuyuna Iron Range railroad which was taken over by the Soo Line.

1912. It has a capital of \$10,000 and a surplus of \$2,000. Its stockholders include prominent men of St. Paul, Ironton and the range and other points.

The bank occupies its own building two stories in height and being 24 by 46 feet in size.

The officers of the bank are: President H. Thorson of Drake, N. D.; vice president, Marcus B. Ellingson, of Ironton; assistant cashier, H. A. Arneson of Ironton. The directors are H. Thorson of Drake, N. D.; J. E. Mattson of Ironton; H. Sampson of Elbow Lake, N. D.; Capt. A. G. Anderson of Crosby; M. B. Ellingson of Ironton.

### 40 Mines in County

Crow Wing county will have at least 40 mines judging by the number of mineable deposits now developed.

### Royalties Paid

Royalties now being paid range from 10 cents up to 35 cents a ton.
